## TAURUS and THE YEAR AHEAD

**Happy Birthday, Taurus!** Your Sun Sign displays the qualities of grace, sensibility, artistic leanings and resourcefulness while ruling the income-oriented 2<sup>nd</sup> House of earning power and salary, money you have at your disposal, how you spend your hard-earned cash, what goods and services you desire, personal development, material possessions and people who provide you with related services including those in the banking, self-improvement and teaching industries. You normally work for and attract lucrative work and when it doesn't satisfy your goals you move on to another venue using the finely-honed skills and diplomacy you own. Born under the sign of the Bull, you are both an earth sign and the first of four fixed signs. Your will is strong along with the passion and determination to succeed. Some material in this section applies to those with a Taurus Ascendant or a heavy concentration of Taurus planets. Consult your astrologer for full details. This year the Sun enters your sign on April 19 at 5:27 PM EDT and leaves on May 20 at 4:31 PM EDT. **Jupiter in Libra aspects your Taurus sun in your solar 6<sup>th</sup> House of everyday activity, schedules, organization, health, work and work contacts, pets and nutrition where it remains through this year's birthday cycle.** The transit happens every 12 years based on activity in the work place which affects emerging decisions based on your chart aspects and planets connected to this house. Now you have opportunities to expand your work contacts, excel at collaborative ventures, organize personal and work space, learn more about fitness and nutrition, acquire a pet if you are thinking of it and improving your overall health. Many a Taurus will invest in a kitchen makeover or new equipment. Many a Taurus has let health go or forgot to exercise and is now looking for a way to restore balance. Still others are working way too much and partners in primary relationships may be complaining loudly about lack of availability. You won't be able to ignore the demands of significant others because **Jupiter stays in this house until October 10 when it moves to Scorpio and visits your solar 7<sup>th</sup> house of business and romantic partners, roommates, the public, advisors, consultants, legal and medical professionals and hostile parties.** Partnership matters take center stage bringing a variety of decision-making opportunities. **Venus has been retrograde during early 2017 and bounced around in Pisces, Aries and Taurus.** Now it is heading back into your sign in your solar 1<sup>st</sup> House from April 28-June 6 so the emphasis may shift for you toward romantic pursuits, a physical makeover, attention to wardrobe and making plans for your social life. **Mars is in Taurus during the next month and occupies your solar 1<sup>st</sup> House of self-discovery. You will soon learn what is pushing your buttons and making you impatient and scrappy with others.** Stay calm when interacting with employers, collaborators, personal and professional partners and the public. Give yourself a break as well because you can't do everything in a day. **Saturn in Sagittarius in your solar 8<sup>th</sup> House leads you to entertain new employment options, get rid of debt or consolidate it via a low-interest loan or mortgage; examine joint income, deal with escrow and estate matters, and make an internal assessment of your psyche as well as the intimate side of your life.** Although it has taken much more of your time than usual in the last two years, money management remains on the

agenda. Some Tauruses may intercede on another's behalf and help sort out difficulties or make decisions on how to handle fiscal responsibilities. Shaky relationships get the boot or require professional examination to sort out difficulties. **Those of you born May 11-21 experience the inconjunct aspect to Saturn through December 19.** Seek out savvy business planners, attorneys, and asset advisors to bring accounts into balance. Late-born Tauruses may undergo surgery. **Uranus in Aries is bursting at the seams to reveal burning secrets in your solar 12<sup>th</sup> House** of behind-the-scenes activity, recuperation, hospital visiting, inner healing, unburdening the mind and mystical experiences, especially if you were born May 9-20. Think about the consequences of breaking a promise to one who trusts you in favor of the big reveal that is not ready for public knowledge. Instead, find out more about your ancestry and family history from professional searches or from senior family members whose life experiences may be very different from your own. If you have neglected dear ones, it is time to reconnect. You're not a big fan of the sudden impact Uranus leaves and prefer to plan for calmer outcomes - Uranus may not be able to wait in the wings, so get ready for a blast of revelations or activity you had not anticipated. With 12<sup>th</sup> House activity, be vigilant regarding cyber safety and be sure software is up to date. **Neptune in Pisces is beautifully compatible with your sign, Taurus, and especially in this cycle for those born April 29-May 5 in your solar 11<sup>th</sup> House** of goals, wishes, friendships, political connections, professional affiliates, and organizations. You could be drawn to spiritual and metaphysical groups or realize that your personal intuition intensifies as you examine all facets of group activity and separate truth from fiction in performance and goals. Pay close attention to your inner voice when taking a leap into the void and making changes you felt were premature. The recurring flashes of insight are giving you the go-ahead to proceed. In matters of love find your most patient gene and get to know prospective partners even if your loving heart is beating wildly. Neptune could show you both sides of psychic breakthroughs as well as the fogginess of illusion. You will deal with each facet this year. Just be sure to have fun along the way. **Pluto in Capricorn affects you if born May 5-11 in a positive, intense and transformative way in the solar 9<sup>th</sup> House of long-distance travel, publishing and journalism, foreigners, in-laws, higher education, languages, spirituality, legal matters, professional opinions and culture.** If these themes surface, you will understand why it is time to alter the Big Picture and move toward the life you really want. Take the time to review long-term goals and tweak the current ones to make room for evolving dynamics. If you go through a lazy cycle - and that is not like Taurus - get back on track as soon as you realize the grass is growing under your feet. Some of you have enjoyable travel and educational opportunities ahead, engage in cultural exchanges leading to a boost of knowledge, or learn how to adapt to in-laws or foreign visitors who come for a long visit. Back to school for certain Tauruses to give your career a boost while others travel extensively for work; or pleasure if retired. Stay flexible to let your energy shine in the year ahead. Success looks good on you.

**Your birthday cycle embraces all 4 of the eclipses prominent during 2017 and two in early 2018. The houses to keep an eye on in the year ahead are your solar 4<sup>th</sup>, 11<sup>th</sup>, 10<sup>th</sup>, 4<sup>th</sup>, 4<sup>th</sup> and 10<sup>th</sup> in that order through February 15<sup>th</sup>. First up is the lunar eclipse of February 10<sup>th</sup> in Leo in your 4<sup>th</sup> House of home and foundations.** This house could be the site of mayhem and drama in the family or home whether they evolve from people moving in and out, celebrating promotions or good news, or just because you finally got your kitchen back after half a year of remodeling activity. If additional projects are on the horizon, do your homework and just don't

start it during Mercury retrograde. **The first solar eclipse of the year fell in Pisces in your solar 11<sup>th</sup> House of associations, humanitarian interests, friends, groups, goals and wishes.** This powerful eclipse shakes up the status quo in relationships especially for later born Taurus, making goal adjustment a priority. Take the time to refine your plans and accelerate the prospects for identifying more satisfying personal and professional rewards. Certain Taurus find new associates and groups everywhere you go this year and delightfully, they seem a good match for your interests adding to the fun and enjoyment of close encounters. **The third eclipse of 2017 occurs on August 7<sup>th</sup> a full Moon lunar eclipse in Aquarius that appears in your solar 10<sup>h</sup> House of career, ambition, climbing the ladder, examining your life status, family conditions and authority figures of all types.** Aquarius represents chaos and rebellion and brings out the desire to shake up the status quo. If you are bored with current reality in the work place or you are contemplating retirement and changes on the home front, this eclipse stirs up an array of ideas and possible choices for your next steps. If people in your circle say you have changed, take them up on the invitation to sit down and talk. You may learn much about the power of observation and find new solutions to pending matters. **On August 21, the final eclipse of 2017 occurs in Leo (solar), a new moon eclipse that occupies your solar 4<sup>th</sup> House of family, home life, base of operation, parents, your physical home and surroundings and the ongoing dynamics in this part of your chart.** This eclipse strongly relates to the one that occurred on February 10. This is wrap-up time (through early 2018) for your major undertakings and you can bask in the sunshine of success knowing you gave with passion and enthusiasm. You'll probably start another project and can go full steam ahead so it reaches completion by mid-2018. Single Taurus meet new partners or hear from pen pals and long-distance friends. Accept those reunion invitations and travel. You may receive unusual job offers that require some risk-taking. The first eclipse of **2018 falls on January 31, a full Moon, in Leo, in the 4<sup>th</sup> House of home base, indicating there is more to do at home either in terms of the family or ongoing household renovations.** Some of you want to put your home on the market in 2018 and may be looking at cosmetic upgrades to showcase your home's finest assets. Consult a Feng Shui expert to maximize your home's positive energy. **The first solar eclipse of 2018 occurs at 27° Aquarius in your 10<sup>th</sup> House of career, authority, family status, career standing and decisions.** You have opportunities to pursue new assignments, accept more responsibility in the workplace, shine in your performance and gain the trust of bosses and executives up the chain of command. Be sure to include some down time and artistic pursuits to break up routine in your daily life. Relax and enjoy the unexpected and draw happiness to your heart. This birthday cycle is a smorgasbord of opportunities to expand your horizon. Celebrate success!

**Famous Taurus personalities include:** Carmen Electra, Queen Elizabeth II, Craig Ferguson, Adele, James McAvoy, Tina Fey, Jessica Lange, Eric Mabius, Andie McDowell, Jack Nicholson, Shirley MacLaine, Al Pacino, Renee Zellweger, Jason Lee, Penelope Cruz, Jay Leno, Jessica Alba, Andre Agassi, Tony Danza, Daniel Day-Lewis, Jerry Seinfeld, Elaine May, Michelle Pfeiffer, Uma Thurman, Kirsten Dunst, Willie Nelson, David Beckham, Bridget Moynahan, John Daly, Carla Hall, Patti LuPone, James Brown, Mary McDonnell, Elisabeth Rohm, Audrey Hepburn, Mark Zuckerberg, Randy Travis, Stephen Colbert, George Clooney, Cheryl Burke, Charles Grodin, Carla Hall, Tony Blair, Eva Peron, Iggy Pop, Enrique Inglesias, Billy Joel, Rosario Dawson, Candice Bergen, Bono, David Gergen, Gabriel Byrne, Katherine Hepburn, Stephen Baldwin, Dennis Rodman, Harvey Keitel, Stevie Wonder, Cate Blanchett, George Lucas, Debra

Winger, Janet Jackson, Pierce Brosnan, Tori Spelling, Dennis Hopper, Chow Yun-Fat, Nora Ephron, Busta Rhymes, America Ferrara and Cher.

## PLANETS' ACTIVITY APRIL 19-MAY 20

**You may be wondering how the world and conditions in it are changing so rapidly since you read this section last month.** Emerging eclipse activity has our country front and center on the global stage not to mention the positions of the transiting planets and how their influence is triggering activity in the U.S. and several countries with whom our relationships are fragile. Will we go to war this year? That is the question on the minds of U.S. and world citizens, countries across the globe, allies and those whose interests do not align with ours. Among the lineup of planets that I place in astrology charts, I also use 4 main Asteroids, Ceres, Juno, Pallas and Vesta in your charts. I feel they provide hidden insight or additional insight into the client's chart interpretation and have been using their interpretations in my work since the late 90's. I once had a license plate that read "Pallas". When studying the charts of politicians or countries it is **important to look at the placement of Pallas**, the asteroid goddess whose presence reflects the likelihood of good or poor political strategy. A leader needs excellent judgment and intelligence to get a grasp on what is going on in the world - economy, politics and social picture that a well-placed Pallas promises. Pallas describes the advisors influencing the President so the house it resides in and its relationship to other planets is key to successfully implementing strategies. Progressed Pallas in the President's chart is retrograde in Sagittarius at precisely the same degree where Saturn in Sagittarius turned retrograde a few weeks ago, resulting in demotion of key advisors like Steve Bannon, keeping Kellyanne Conway off the circuit, stopping Nunes from getting any more attention and ta da - changing his position on China and other previously front-burner agenda items; as well as moving against Syria, one of Russia's solid allies. Additionally, Trump's chart shows Pallas in his 5<sup>th</sup> House of children and it appears from who is holding key positions in his family-dominated West Wing that his children are his key advisors regardless of their lack of government experience, including son-in-law Jared Kushner. (See next section under People, Places and Topics in the news.) Natally, his Pallas in Capricorn (seeker of truth) opposes Mercury in Cancer (quality of the mind, facts, communication) which could account for the frequent stretching of the truth. As of this writing, The President's Pallas is getting bombarded by oppositions and squares so that the merry-go-round will continue right into the time of the hearings on Russian intervention in our 2016 election. Expect more reversals, directional changes and alternative facts.

**Mercury is retrograde in Taurus** and slides back into Aries on April 20 before going direct on May 3. Continue to plan, research and clean up old projects while waiting for opportune times to start new ones. Remember if you apply for and win a job under this aspect, the job won't be anything like you thought and you won't stay in it. **Venus just turned direct in Pisces on April 15<sup>th</sup>** and moves to Aries on the 28<sup>th</sup>. Take advantage of this period to examine relationships, in fact, do a relationship inventory and let go of any that are no longer fulfilling or meaningful. Remember that not everyone cares about what you value. If you find that you are more out of sight and out of mind with certain individuals, let go and focus on finding new connections. If you stay invisible, you stay stuck. For many the recent Full Moon in Libra was a wake-up call to acknowledge that certain relationships are on a one-way course and that you

deserve more balance in relationships with those who love you back. **Mars**, the planet of action, moves from Taurus to Gemini on April 21<sup>st</sup> and will likely accelerate communication and pending deals. **Jupiter in Libra is retrograde until June 9** and most affects those of you with air signs around 13 degrees - Gemini, Libra, and Aquarius as well as Cardinal signs Aries, Cancer, Libra and Capricorn. **Saturn in Sagittarius went retrograde on April 5 and goes direct on August 26. Those of you born the last few days of Sagittarius, Pisces, Virgo and Gemini get the full impact of** how aspects to Saturn affect your relationships and social life. If you have planets close to 27 degrees of Sagittarius or these signs, pay close attention to the house where this retrograde occurs. On the World Stage, current degrees show up in harsh aspect to transiting Venus in Pisces and are pinging the war bells in the charts of **Korea's Kim Jong-un** (his Jupiter, Neptune and Mercury) and **Syria's Bashar al-Assad** (hard aspects to Ceres and natal Jupiter). You can be sure Russia will be affirming alliances and casting a wary eye at what transpires. **Neptune in Pisces affects individuals born March 2-5 during this time** and could bring about the need for a reality check for your goals and plans and a safety check for your electronic equipment. The Universe gets a jolt when Mars in Gemini blasts Neptune in Pisces from the 10<sup>th</sup>-18<sup>th</sup> of May highlighting respiratory tract infections, flu outbreaks, widespread hacking and fraud, scams and blatant stretching of the truth. Understand that your plans need a touch of reality. **Pluto in Capricorn turns retrograde on April 20 and travels in harsh aspect to transiting Jupiter in Libra for a short while, going direct on September 28<sup>th</sup>.** Those of you born around the 19<sup>th</sup> degree of cardinal signs Aries, Cancer, Libra and Capricorn are likely to feel the most energy from these planetary travelers. Although you may experience confusion or delays in decision-making, travel, and in completing tasks, the inner direction of Pluto creates the perfect vibration for regeneration which becomes more apparent when the retrograde ends. Organizations, governments and their agencies, religious groups and corporations undergo significant change. Our planet remains sensitive to shifting energies that come from the slower moving outer planets Uranus, Neptune and Pluto. **Chiron, the Wounded Healer is direct in Pisces** most affecting those born March 15-18. Take the lead if you are ready to resolve old issues from the past that have created tension throughout your life. Face the truth and forge ahead. As the square to Saturn and Venus intensifies, some of you born on these dates make a big leap forward in the next two months. Look for opportunities to accomplish cherished goals. Contact your astrologer to define important dates and trends because every chart is unique and deserves personal interpretation. Dominant news reports call for goal alignment especially through mid-July, even if you cannot act on them entirely until after the August eclipses. Be thankful for your beautiful heart and use it in joyful social, business, or romantic relationships as you welcome Taurus energy. Personal development opportunities offer a new perspective during this cycle. Enjoy perfecting the person you want to be.

## PEOPLE, PLACES AND TOPICS IN THE NEWS

Here are tidbits of interest about people in the news. You have expressed an overwhelming interest in the Trump White House and the daily reports coming from it. Space does not permit full coverage - I'm averaging 10 requests a day for more astrological insight - see the paragraph on the U.S. and the planetary lineup in the section above. I included a summary and other items of interest.

**DANCING WITH THE STARS:** As I write this section, eight contestants are still in the Season 24 race, so I will table details on finalists until the Gemini newsletter. Contenders include Gemini **Bonner Bolton**; Pisces **David Ross**, Aquarius **Heather Morris**, Libra **Nancy Kerrigan**, Libra **Nick Viall**, Gemini **Normani Kordei**, Aries **Rashad Jennings and** Pisces **Simone Biles**. Note the sign composition and other astrological facts: 1 Aries; 2 Gemini, 2 Libra, 1 Aquarius, 2 Pisces, **Cardinal Signs:** 3; **Fixed Signs:** 1; **Mutable Signs:** 4. Planets affecting these dancers: Jupiter for Libras, Gemini, Aquarius and Aries; Uranus for Aries and Libra; Pluto for Aries, Pisces and Libra contestants and Eclipses for Gemini, Pisces, and Aquarius. Who is your favorite? Stay tuned.

**White House rolls on.** While many people slept the night of April 6, the U.S. sent 59 missiles into Syria. If you have been following my newsletters regarding the impact of eclipses on the charts of a country and its leader, you may remember my comments on how war would be on the horizon. I base these findings on aspects to the U.S. chart, the 2017 Inauguration chart, and that of the President (June 14) who experiences four eclipses this year that highly impact his natal planets and the conditions surrounding the U.S. On April 13, the U.S. dropped the Mother of all Bombs on Afghanistan. Meanwhile, it looks like White House staff continues to play musical chairs with comings and goings excluding the President's immediate family, an unprecedented scenario, given that Eric Trump reports it was Ivanka's suggestion that her father do something about the child killings in Syria, so her father ordered the missile strike. These dead souls are the same children The President will not give refuge to in the U.S. Now enters Kim Jong Un (January 8), Chairman of the Workers' Party of North Korea, parading his missiles and determined to call President Trump's bluff by setting off missiles that reach the U.S. shores. Glad his latest strike failed. You can be sure he'll keep trying. Will the U.S. convince China to be the buffer between North and South Korea or will they enlist the power of the U.S.? And when did the President flip his opinion of China from that of a currency manipulator to the country that will rein in power-hungry, missile flaunting North Korea? Is it any wonder that many of my colleagues (Astrologers) see recent developments as the beginning of World War III?

Truth seekers balk at the lies, confusing references, alternative facts, passing the buck or blaming others that fill the daily news, reporting that over 350 falsehoods have already been spread by the Administration. Many U.S. citizens are skeptical of information coming from The White House especially if miscast Press Secretary, Sean Spicer (September 23) is delivering the briefing. Expect much more in the news about secret dealings with Russia, deeper insight into Libra Devin Nunes' "claims" (born October 1) and more headlines regarding Paul Manafort (April 1), Steve Bannon (November 27) and the man wearing a thousand hats, Jared Kushner (January 10). You'll be seeing these individuals and many others at upcoming hearings. Keep watch.

**Stephen Colbert:** An enterprising and multi-talented Taurus born May 13, in Washington, DC, Stephen is taking late night TV by storm. His show has been rated #1 in late night talk shows for 11 consecutive weeks as of this writing. Not only are his hilarious interpretations of life in the Trump White House a huge success but so are his clever skits and satires that show how well-versed and up-to-date he is on the daily operation of politics and the role of Congress. No one who “didn’t get it” could do what he does to showcase touchy political subjects that everyone is talking about and bring them to life through comedy and satire. His chart is on fire with Mercury, Mars, Jupiter and the Sun in Taurus showing his fantastic memory for details and the rapid-fire delivery he executes with Uranus in Virgo in perfect trine to Mercury, Mars and Jupiter; call it instant humor/connectivity. Stephen’s Moon in Gemini (wit, communication, quick mind) falls on President Trump’s Sun while his progressed Sun is now in Cancer conjunct the U.S. Sun in Cancer accelerating his interest in highlighting the dramatic political conditions in our country.

**Carla Hall:** This southern-style chef and cookbook author is a Taurus born May 12 and a co-host on ABC’s popular Emmy-winning daytime show, The Chew. Carla hails from Nashville, TN, has been a model, caterer (her company is Alchemy, based in Silver Spring, MD), and a two-time competitor on Top Chef, as well as a featured chef on several network shows. Her new restaurant is Carla Hall’s Southern Kitchen located in Brooklyn, NY. Carla is a double Taurus with Sun and Moon in the sign as well as Mercury, Mars and Jupiter in Taurus, strong indicators of her determination and dedication to creating culinary delights. With Venus and the Moon’s North Node in Cancer Carla found her true calling in the kitchen developing tasty recipes to please the palates of diverse foodies. Plate adornment is another specialty and Carla would enjoy using a variety of serving pieces and decorations to showcase her food art. The element earth dominates her chart with planets in Taurus, Virgo and Capricorn. Carla has staying power and we will enjoy her cooking artistry for years to come.

### **READERS CORNER:**

I received abundant mail from readers commenting on last month’s questions. Several mentioned the couple who asked about chart compatibility and asked for more material about this topic. Other readers identified strongly with the person who wanted to change jobs and want more information on careers and seeking new employment. We’ll cover these topics in future newsletters. Mail volume significantly increased regarding health matters with readers submitting several health-related questions. In this issue, I am providing an overview of how your chart and the planets and signs relate to health matters. I don’t cover specific health questions in this newsletter or diagnose health issues and suggest that you contact a medical professional if you have them. Know that every degree in your chart corresponds with a body part that gives you clues about where flare-ups are likely to occur or where you have vulnerabilities - not necessarily that you WILL experience the problem but that you have an opportunity to prevent the problem. After the reader’s question, I have provided a summary of general health information related to astrology.

**Q.** Lately I have had several annoying health problems and want to know more about the makeup of my chart so I can better understand what is taking place. I appreciate any insight you can provide.

**A.** You are a Taurus with the Sun in your 11<sup>th</sup> House of goals, associations and friendships. The planets and houses often associated with health matters include the Sun (vitality), Moon (emotions), Mars (stamina), Saturn (general status of health along with the skeletal system), 1<sup>st</sup> House (personal appearance and what is close at hand), 6<sup>th</sup> House (department of life that deals with your health and well-being), and any aspects to affected planets that influence how the health condition (s) plays out. Saturn in Sagittarius is currently moving through your 6<sup>th</sup> House of health and you are experiencing what is known as a Saturn return since you were born with Saturn in Sagittarius. This transit is strongly affiliated with having the hip and joint pain you cited. For more details schedule a personal consultation. In the meantime, enjoy the summaries that describe what your natal chart reveals as well as the parts of the body ruled by the planets and signs.
