CYBERSECURITY: Especially if you are in the path of the recent hurricanes, guard your information. Con artists are trolling the net sending fake banking, credit card, and claim messages to lure you in so you'll give up personal information after reading their dire messages. Fly-by-night storm chasers are everywhere. Established institutions continue to uncover fake accounts in your name. Equifax Credit Bureau recently admitted to a hack that took place last year endangering information of millions and another earlier hack. Be sure to check your banking and card balances regularly and report suspicious activity at once. Hit SPAM and keep security software updated.

LIBRA'S BIRTHDAY HIGHLIGHTS: Happy Birthday, Libra! So much is on your plate this year: money, home, relationships, work and analytical style. Your network is vast and you look for ways to stay in touch with all your contacts. Libra is the second air sign in the Zodiac with love Goddess Venus ruling your sign. You are partnership-oriented and strongly identify with the 7th House of romantic, business, and professional connections, roommates, the public in general, advisors, counselors, diplomats, doctors, lawyers, recruiters, other experts, and your shadow self. Many Libras enjoy careers that give your social and diplomatic skills a workout. You possess the asset of providing courteous and thoughtful service to clients and customers. Maybe you're a Libra who thrives on organizing events or heading up social functions; you want everything to come together nicely. Creativity is a strong trait for Libras with artistic tendencies that enjoy pursuits involving the use of your hands. Whether you spend a big chunk of time on the Internet or avoid most types of Web communications, you learn much from the information exchange. As an Air sign, you relish time saving devices and buy the latest equipment to remain tech savvy. You will probably upgrade your Smart phone regularly and download the newest APPS. You have no patience for slow systems. Libras can be excessively sensitive when criticized for their flaws and will block out messages rather than listen. That's too bad because some of your best assets come to life when you listen to what others are saying and help them work through difficulties. Keep relationships intact. Rewarding careers for many of you include the field of consulting, coaching, management, mediating, psychology, servicing client needs, and teaching. You feel good when absorbing new information to build new skills and enhance your best qualities. Work on creative avoidance, indecision or procrastination in managing tasks. Solve relationship issues to address others' feelings. Tension responds well to exercise and works out the stress. Libra rules the kidneys, pancreas, lower back and urethra. This years the Sun enters your sign on September 22 at 4:02 PM EDT and leaves on October 23 at 1:27 AM EDT.

Note that Mars in Aquarius is going to spend an incredibly long time in your solar 5th House of romance during 2018. Beginning May 16 to August 12, Mars is in Aquarius and goes retrograde at 9 degrees of the sign, so those of you born the first 10 days of Libra get the most action from the passionate planet and most likely affects your love life and all that is connected to your 5th House. But Mars isn't finished and even though it speeds into Capricorn for almost a month and goes direct on August 27th, it returns to your 5th house again from September 10 to November 15 and will energize the birthdays from September 22- October 1. These Mars cycles occur once every 20 months. Anger issues often emerge related to 5th House activity in this chart pattern. **Jupiter moved to your sign on September 9, 2016 in your solar 1st house** of action, independence, passion and personal appearance and will be leaving on October 10, 2017 when it moves to Scorpio. No doubt you have been able to enjoy the benefits of having Jupiter in Libra as you expanded your prospects, achieved cherished goals, partied, traveled and developed partnerships. If single you may have found a significant other among your admirers. Although you had to spend money on extra expenditures, you made more in the past year. **With Jupiter in Scorpio until November 9, 2018, your 2nd House of income, resources, talent, and disposable assets get a workout.** For many that can mean raises, promotions, windfalls, favorable publicity, developmental experiences, increased assets, and trips to the spa. You'll be able to add to your savings yet many of you will be tempted to spend it on a dream vacation or a luxury item. **Saturn in Sagittarius moves through your 3rd house of communication, equipment, education, siblings, neighborhood activities, contracts, and mental outlook. It will leave this space on December 19 and head**

into Capricorn and your solar 4th House of home and family. Those of you born the first week of Libra's sign have a few testy days through February. If born October 1-2 Saturn is in hard aspect from March through May especially once Saturn goes retrograde and travels over your Sun again. While still in the 3rd House and in Sagittarius you could experience disruptions with communication devices, neighborhood transitions via moves into and out of the neighborhood; or a change in utility management, leadership and community issues that need resolution. Some of you deal with siblings or cousins or others whose viewpoint differs greatly from yours. You may make changes in social media preferences and must pay attention to cyber-scammers. While in Capricorn for the next 2-1/2 years, you will be dealing with parents or relatives needing care, family members, household issues, real estate, nutrition and decisions involving your home. Certain Libras will install security systems or replace windows and doors. The needs of children call for shifting responsibility depending on your chart pattern. Take time to enjoy home entertainment. **Uranus in Aries opposes your Sun and** contacts the solar 7th House of Libras born October 17-23 during 2017-18. Don't be surprised if unexpected developments occur even though Uranus is making the final statement in the final degrees of this long, 7-year cycle. Certain relationships end or are in some state of upheaval as you move toward the departure of Uranus in Aries on May 15 and the entry of Uranus in Taurus into your 8th House of joint finances, investments, debts, karma, deep feelings, sex, your psyche and inheritances. You are probably undergoing relationships changes and have had lots of new and sometimes quirky people popping into your life - roommates, personal or business partners. Some of you either went through several relationships or a divorce or have one pending. Don't be caught off guard. After the dust settles and you experience a new sense of relief or freedom, you'll have financial matters to resolve and that should be part of the early cycle of Uranus in Taurus that begins in May. Keep assimilating information about others' behavior in this evolving cycle. Seek legal counsel if necessary. **Neptune in Pisces contacts your Libra Sun in 2017-18 if you are born October 4-10 in your solar 6th House of work, health, daily environment, exercise, co-workers, pets, schedules, and nutrition.** The work environment, people you connect with and your coworkers are strong factors in how you enjoy and approach your work, solve problems and wade through vague red tape, policies and practices. For some Libras, it is time to find a new job, one that relates to your fondest dreams and makes use of your talents. Others need more education and pursue degree or certificate programs that give a leg up on competition. Still others seem confused or daydream a lot instead of focusing on the Big Picture that leads to success. Many will reorganize personal space, move or become part of a work restructuring initiative. If the outlook is cloudy or you don't see the results you want, make a list of what you enjoy and what you dislike about the status quo. Sorting it out may lead to better opportunities. A win at work brings personal satisfaction. When Neptune passes through the 6th House, certain Libras will find romance with a co-worker or collaborator. It will be up to you to decide whether new personal partners meet your emotional needs. In this searching year, seek advice from a professional to fine tune your personal and professional goals. The truth sets you free and balance is your middle name. **Pluto in Capricorn in your solar 4th House of home, parents, family structures, family in general, base of operation, domestic affairs, real estate and home improvement matters resonates strongly with Libras born October 10-17 during late 2017-18. Pluto can be dogged in getting you to see matters in a new light. As a member of a Cardinal sign you continue to feel the vibes strongly as will Cancer, Aries and Capricorn** in terms of these themes. Routines and schedules change

in your base of operation -- living spaces, family dynamics, property care, health and welfare matters, renovation and real estate are likely to dominate. Those born October 18-23 deal with Uranus in Aries making waves from your 7th house of the public and relationships opposing your Sun. Pluto helps you address your fears and dissolve them, look at your emotional makeup, and make critical decisions in areas you have buried deep in your psyche. Certain Libras deal with major emotional adjustments through losses of key people in your lives. Take time for renewal and heal your soul. Throw away baggage and lighten your load. Work through this demanding cycle with family members and stay positive. Celebrate rebirth in your home base with soothing harmonious vibes.

Eclipses last from 6 months to a year while their influence plays out. I am covering the last two eclipses of 2017 in this section since they occurred in August and will influence your chart through February 2018 and beyond. For the next 18 months eclipses are mostly in Leo and Aquarius. Get familiar with your chart so you know where to look for action. You may have vibes over how eclipses affect your chart for several weeks before they occur. **The third eclipse of 2017 occurred on August 7, a lunar eclipse in Aquarius, and fell in your solar 5th House of recreation, vacation, sports, children, romance, creativity, risk-taking and entrepreneurial ventures.** You may have or will experience travel with children, partners, relatives and friends. You're not one for traveling alone and enjoy sharing experiences. Most of you either moved in, moved out or renovated home base. Singles may be engaged or about to be. **The last solar eclipse of 2017 occurs in Leo on August 21 and was visible in north America. Everyone talked about this one and maybe you saw it with associates because it occurred in your solar 11th House of friends, groups and professional connections and stimulated your desire to finish loose ends related to goals and organizations.** If you have broken ties with friends or groups it is because you were on shaky grounds to begin with and just needed a push to part ways. Perhaps you already met new connections and are deeply involved in innovative pathways. Why not take the lead or run for office in groups you enjoy during 2018? Accept invitations and experiment with new directions. **During 2018 five eclipses occur: The first, a lunar eclipse, takes place on January 31st in dramatic Leo in your solar 11th House of groups and friendships.** When this eclipse lands it promises activity with groups or one-on-one relationships. A romance could start or if already in a partnership, it takes off in bond-strengthening directions. If you enjoy collaboration, you and a colleague or member of a cherished group may work diligently on an important project or goal. You may receive resources from your boss or a foundation to put your brain child in motion. You could also spend time working on educational or career goals that add stability to your future. **On February 15th, the first Solar Eclipse of the year occurs in Aquarius in your solar 5th House of recreation, romance, vacation, social life, sports, risk-taking, arts, theater, and children.** Enjoy happy times and accept invitations. Certain eligible Libras may get engaged; others take a trip of a lifetime for a change of scenery and to fulfill a dream. If you have been bored with life or in a rut, it's time to sit down for a deep level chat and discuss what you would like to change. Those of you going to marriage counseling find a happy compromise. Good eating and exercise could be high on your list of self-improvement changes. **The second Solar eclipse of 2018 changes signs and occurs in Cancer on July 12th in your solar 10th House of career, ambition, employer, leadership, organization and status quo in life and in the family.** This eclipse may influence your personal direction and aid you in taking a hard look at your professional goals. Certain Libras will address family issues, perhaps involving parents and their health. At the very least, you'll be juggling

time between the high demands at work as you climb the ladder of success and the needs of family that also want to see more of you. Certain Libras will find a way to work from home or start a home-based business; others have more travel on the agenda. If you are born on or around October 12-14 the influence is very strong, so get ready for a change of pace. **The second lunar eclipse of 2018 occurs on July 27th in Aquarius in your solar 5th House of romance, adventure, dating and social life, children, risk-taking, sports and creative arts.** Think back to February's Aquarius Solar eclipse and any plans you had on the back burner or any secrets you were keeping. Now is the time for revelation either intentionally or via unexpected sources. Pluto in Capricorn is in your 4th House in positive aspect to transiting Venus in Virgo in your 12th House. Yet Pluto in opposition to the July 12th eclipse squares your Libra Sun which could mean that someone spills the beans on a romance or a project you've been keeping under wraps (especially those born October 12-14). Get ready to tell the truth. If you are an entrepreneur, you could find an angel to fund your brain child or produce your product. **The final Solar Eclipse of 2018 takes place on August 11 in your solar 11th House placing your affiliation with associations, groups, organizations, friendships and your personal goals in high focus.** Those of you born October 9-12 experience a very significant year in terms of emerging opportunities, promotion, leadership, personal satisfaction, and relationships with others. Whatever you started in January creates additional pressure for you in terms of commitment. If you are scattered too thin, you may have to bow out; or if this is something you desire, get ready for a wild ride and high demands on your time. Some Libras will end both personal and professional relationships while other are engaging in new ones. What can you bring to a cherished group? You may be asked to lead or take on new responsibilities. If you have been superficially involved but wanted to do more, the commitment may deepen. Balance is very dear to a Libra. Remember, eclipses don't wait for a lull in the action; they just land in your life, and shake up routines rather quickly and unexpectedly. **Material in this section may apply to those born with a Libra Ascendant or multiple planets in Libra.**

Famous Libra birthdays include: Mickey Rooney, Bruce Springsteen, Barbara Walters, Catherine Zeta-Jones, Michael Douglas, Christopher Reeve, Heather Locklear, Will Smith, Olivia Newton-John, Meat Loaf, Shaun Cassidy, Brigitte Bardot, Gwyneth Paltrow, Janeane Garafalo, Mira Sorvino, Naomi Watts, Hilary Duff, Stacey Kiebler, Bryant Gumbel, Fran Drescher, Jenna Elfman, Tony Shaloub, John Lennon, Bruno Mars, Johnny Mathis, Julie Andrews, Jimmy Carter, Donna Karan, Lorraine Bracco, Kevin Richardson, Emeril Lagasse, Ashlee Simpson, Neve Campbell, Neil deGrasse Tyson, Sting, Tommy Lee, Alicia Silverstone, Susan Sarandon, Paul Simon, Kate Winslet, Elisabeth Shue, Yo-Yo Ma, Simon Cowell, Chevy Chase, Matt Damon, Sigourney Weaver, John Lennon, Luke Perry, Hugh Jackman, Luciano Pavarotti, Kelly Preston, Carrie Fisher, Amber Rose, Paul Simon, Ralph Lauren, Usher, Sarah Ferguson, Suzanne Somers, Tim Robbins, Jean-Claude Van Damme, John Lithgow, and Jeff Goldblum.

SEPTEMBER 22-OCTOBER 23 PLANETS

Mars is in Virgo through the entire Libra cycle and livens up the charts of all earth signs at various points while simultaneously challenging mutable signs Gemini, Sagittarius and Pisces. It's a great time for fall cleaning, planning gatherings and organizing your life. **Jupiter wraps up its year in Libra on October 10th and affects late degrees of the sign mostly for those born October 18-22. When Jupiter moves to Scorpio, those born October 23-25** can develop goals that enhance purchasing

power and look for sales on desired goods. This time is perfect for scheduling medical appointments, expanding contacts and travel. Early Cancers and Pisces benefit while the transit may challenge Taurus, Leo, and Aquarius. Often life's messier issues need to be addressed and will get a voice in Scorpio, while Libra's tendency is to turn a blind eye to the truth or hope for peace at any cost. If you need a negotiator though, certain Libras have that gift, especially if Mercury is in an air sign. **Venus is in Virgo until October 14 and then moves to Libra through the end of this cycle**, a perfect time for socializing and purchasing jewelry, home décor and adding to your wardrobe. Plan a fall trip to enjoy some much-deserved fun. **Saturn is in Sagittarius** where it remains until December 19th and most affects individuals born December 12-15; Aries born April 10-14 and Leos born August 13-17 also get a positive boost in direction while those born March 11-15, June 11-14 and September 13-17 feel a need to check details of contracts and proposals, manage added responsibility and schedule health checkups; energy needs a boost so plan accordingly by getting enough rest and eating well. The U.S. chart undergoes strong vibes with Saturn on the Moon of President Trump opposing his Sun and the U.S. chart's Gemini planets that create a direct square to Robert Mueller's natal Pisces Moon (he had the lunar eclipse of August 7 directly on his birthday sun) so investigations will bring considerable revelation. Mars and Neptune aspects influence weather patterns that include hurricanes, winds, flooding, contamination and sewage backup in hard hit zones. More to come.

As we begin this Sun in Libra report **Chiron is retrograde in Pisces all through the end of the cycle and most affects individuals born March 15-18 who experience revelation at deep levels that affect mental and physical healing while letting go of old fear**. Embrace courage as you face what holds you back allowing freed up energy to bring greater enjoyment to your life. Then you can truly say, "I feel good." **Uranus in Aries is retrograde in motion now** and visits the Sun of those born April 15-18. Everyone, especially the cardinal signs should check your chart for planets in aspect to 26-27 degrees of Aries for areas of vulnerability. During this cycle Uranus opposes the Sun and creates challenges for those with planets in late Cancer, Libra and Capricorn. You'll be aware of the tension in whatever houses the aspect appears as it becomes a wakeup call to address what is out of balance in your life. Don't make drastic changes before assessing the facts. Decide on your future and consider new options. Uranus helps you move through the rough patches and identify blind spots. Where are you too rigid? If you feel stuck, this transit may set you free. Schedule time with your astrologer for some strategic insight. **Neptune is in its sign ruler Pisces in retrograde motion at 12-11 degrees through the end of this cycle and affects individuals born March 1-4. Look at your chart - wherever you have these Pisces degrees represents the area of your life that needs attention and leads to a breakthrough if you clear up confusion and work through doubts**. Work or home base can be focal points along with critical relationships. Those with water sign ascendants around 11-12 degrees or the Sun at 11-12 degrees (Cancer, Scorpio, and Pisces) receive insight via dreams, memory recall and intuitive gifts; ditto if your rising sign is earth. Be understanding toward others in need of support during this cycle as many have undergone emotional or financial burdens yet avoid co-dependent patterns. Get health in order and keep notes. To give your mind a break, enjoy films, plays and other art forms like music and books while the transit passes. You should feel more stable in the future. **Pluto turns direct in motion in Capricorn on September 28 at 3:36 PM EDT on the Suns of Capricorns born January 5-7**. The rest of us should look at any planets or houses where we have 16 degrees of Capricorn, especially those who have Cancer, Libra or Aries at this degree. The closer the planet is to a conjunction (around the same

degree) the greater the importance. Several of you may have had heavy-duty burdens due to illness, discord and losses. The days around the 28th - 30th of September are intense because Uranus in Aries and Jupiter in Libra clash around this station of Pluto often triggering disasters like earthquakes, floods and hurricanes. Uranus squares the U.S. natal Pluto on September 23rd, often triggering military action, especially since Saturn is opposing the U.S. Mars affecting world hot spots as seen in the eclipse-driven chart of President Trump. On a personal level, heal your anger issues; on a global level, stay calm in the face of world conflict, hostile language and intentions that go against the safety and prosperity of the nation and friendly countries. Safety and support will be important in the days ahead. Be open to change via transformative Pluto.

PEOPLE, PLACES AND TOPICS IN THE NEWS

Hands down the hurricane activity captured the attention of readers wanting details about the states this month. Remember that eclipses show up on North and South Nodes of the Moon which are currently in the fixed signs Leo and Aquarius and would affect planets or nodes in Taurus and Scorpio if the degrees are relative. The closer to the exact degree, the more powerful the impact.

Hurricanes and Key Areas Affected in August/September 2017: Eclipses in Action.

Hurricane Harvey came full blast at the Gulf Coast of Texas and especially the city of Houston. Texas is a Capricorn state with the North Node in Scorpio and South Node in Taurus, both of which received a blast from the August 7 eclipse in Aquarius at 15°. Texas has a Saturn, Neptune, Venus conjunction in later degrees of Leo, where the August 21st eclipse made impact in the 10th House of government and status quo. Houston is a Virgo city with the North Node in the fixed sign Taurus in Houston's 6th House of daily environment wreaking havoc and leaving millions homeless. **Hurricane Irma** started a surge on August 31st just as Hurricane Harvey was dying out. Several countries in the Caribbean directly on Irma's path suffered major damage before she shifted to touch down with mighty force on the western/Gulf side of Florida, a Pisces state with numerous fixed sign planets in Aquarius and the Moon's North Node at 29° of Scorpio which received a hard aspect from the August 21st eclipse in Leo affecting the 4th (home, foundation) and 10th (status quo, government) Houses. The Florida 10th House has Neptune, Venus and Mercury in late degrees of Aquarius that fell directly opposite the August 21st Leo eclipse (heavy rain, destruction of beauty, fierce, unrelenting winds). The August 7 eclipse at 15° Aquarius landed directly on natal Saturn in Aquarius in the Florida chart's 9th House, showing major restrictions moving in from other locations. Several Florida cities were affected and space does not permit in depth coverage. Here are highlights of a few: Jacksonville, Gemini city with North Node in Aquarius around the degree of the August 7th eclipse; Key West, Capricorn city with North Node in Aquarius opposite the August 21st eclipse; Miami, Taurus city with Moon in Leo on 2nd House of wealth conjunct the August 21st eclipse; St. Augustine, Virgo city with August 21st eclipse on natal Saturn in late Leo; Ft. Lauderdale, Pisces

city with Moon/Saturn conjunction in late Scorpio in hard aspect to August 21st eclipse; St. Petersburg, a Capricorn city with multiple planets in fixed signs Taurus, Leo, Scorpio and Aquarius affected by both the August 7th and August 21st eclipses; and Tampa, a Scorpio city with the August 7th eclipse in hard aspect to the Sun and transiting Saturn in Sagittarius right at the top of Tampa's chart on the 10th House cusp taxing the infrastructure and resources.

America's Got Talent (AGT): This show continues to be highly successful having just completed Season 12 with some incredibly talented performers featured in a single season. **Judges:** Simon Cowell, a Libra born October 7; Heidi Klum, is a double Gemini born June 1; Mel B is another Gemini born May 29; Comedian Howie Mandel is a Sagittarius born November 29; Host Tyra Banks is a Sagittarius born December 4. **Season 12 Winner is 12-year-old Libra Darcy Lynne Farmer** a brilliant ventriloquist and singer born October 12. Jupiter in Libra on her Sun worked its magic on creative Darcy. **The runner-up is the powerful-voiced 10-year old Angelica Hale**, born July 31st who will join Darcy Lynne in Las Vegas at Planet Hollywood on November 3-4. Congratulations to these performers who captured the hearts of America's Got Talent fans. No doubt all top 10 performers will achieve fame in future months.

Political Picture: We're sorting out the mixed signals at the UN Conference on the faces of participants, including key staff members, that showed their feelings over the bluster, contradictions and tone of the President's speech said to be written by Bannon and Gorka. Now we're moving on to still another healthcare plan vote with reportedly no substance that will help those who need coverage. Stay tuned!

READERS' CORNER

Readers have weighed in on eclipses asking for more details on how they affect charts. Several readers talked about the woman who took issue with the previously married man who did not disclose his prior marital status in the first 6 weeks of dating her. Most felt she was jumping the gun and did not know him well enough to need the information up front. Three readers got on her case for not saying anything about her own preference not to have children.

Q. I would like more information about Venus since it is the planet that rules my Sun sign, Libra. What are the essential facts I should know? If I have Venus in Libra, how well will I get along with a person who has Venus in Capricorn? Thank you.

A. Venus is one of the two love planets; Mars is the other. The chart is comprised of several planets and your Ascendant which drives the flow of the chart and paints a picture of how well the parties will get along. I recommend a full comparative chart analysis to answer your questions. By reading the descriptions below under Venus in the signs you will gain insight into your attitude about love as well as that of your partner.

Here is a summary of facts about Venus:

Venus—the second of the “inner” planets; its orbit falls inside the Earth, like Mercury. It is considered a personal planet. Think of: contentment, the word, nice, all your favorite things. **Venus** is always close to the Sun as seen from the Earth, so it never travels more than 48 degrees from it. The love planet,

Venus is either the same sign as the Sun, or it falls within two signs to either side of it. **Venus** is 7,700 miles in diameter, nearly the same size as Earth. Considered a feminine planet. Travels around the chart by transit in approximately one year. It is the third fastest moving planet in the Zodiac. Goes retrograde approximately every 18 months for slightly more than 40 days.

- Scorpio** Venus is mysterious, seductive, magnetic, beautiful -and may be wearing black; stalks and conquers and you don’t have a choice; jealous, too; deeply passionate and highly emotional; possessive; needs balance; associated with big business and commodities, other people’s money; excels in the Department of Depth and Passion; your life will change forever if you take the plunge—and no leaving; weight issues. **SIGN OF ITS DETRIMENT.**

- Sagittarius** Elusive love—marries late or lots of engagements; capable of idealistic love yet is clear that all freedom is not going to be sacrificed; unique partners and partnership arrangements; loves partners with accents, yachts, and horses as accessories; likes partners with degrees and flexible checkbooks - they are nonchalant about money; will run like crazy if you are “hovering”; go for the exotic cuisine, foreign films; white water rafting; will blow you away with response to affections, but the fragile need not apply.
- Capricorn** Elegant Venus appears and that means evening gowns, tuxes, jewels, patron of the arts, the limo or the surrey, luxury cars, and appearances at benefits; loves antiques and anyone or anything who has been around long enough to show its worth; not cold but starved for something; give this person a hug; often sacrifices for loved ones; chilly in showing affections sometimes, yet faithful to the end; they know how to make money work for them; may be demanding as a parent because they want their children to have the best.
- Aquarius** “Far out” Venus may opt for the trip to Mars to find a mate; nothing boring here and may not be looking for a normal relationship; likes to keep things on a “want to” rather than a “have to” basis; thrills family by bringing home a partner from another race, creed, culture, or gender; just as likely to fall in love with an Astrologer because of the unique profession; kind, charitable, humanitarian; often unemotional and detached yet will do anything for anyone; need personal freedom in relationships and want respect; attracts and repels at the same time depending upon the people involved; sensible with money responsibilities.
- Pisces** Here comes “Cinderella” with the dreams and wishes and the Fairy godmother ready to help your dreams come true also. Loves happy endings, poetry, romance, love at first sight, stories about how lovers met for the first time; this one will get it right even if it takes a dozen unions - - the search is unending; tends not to see the faults of lovers, so may be taken advantage of especially in early life; totally ruled by the emotions; genuinely expresses feelings; a champion for the underdog; sacrifices plenty for loved ones; outlook not always rational; needs a financial or business manager; don’t ask this Venus to balance a checkbook; generous and charitable. **VENUS IS EXALTED IN THIS SIGN.**
