ANNOUNCEMENTS: The winner of October's drawing was CM who received a \$10 discount certificate applicable to any consultation or report. November's drawing is open to clients who book an appointment for 1 hour or more and is a \$10 coupon to apply to an upcoming session. I appreciate the many clients, contacts and friends who have stayed in touch with me since my move to the Tampa Bay area; thank you for caring. I miss the people most. Note **Schedule Changes:** No office hours November 22-24; November 25 available 11 AM - 4 PM.

Fraud alerts of note: This one is surfacing wildly and is made to look like it is from a noted i-Phone provider. It looks like an invoice and says you ordered equipment or i-tunes accessories. Do not open it; just send it to SPAM. Watch out for card skimmers at gas pumps in your travels.

CORRECTIONS: I listed the wrong date in the Scorpio Newsletter to honor Veterans; it should have been November 11th and the Federal holiday was November 10. The Full Moons of October 5th and November 4th are among the three this year that are closest to the earth. The actual SUPERMOON occurs on December 3, the last one we see until November 2034. Super Moons look much brighter and larger than usual.

DATES TO REMEMBER NOVEMBER 21-DECEMBER 21:

November 23: Thanksgiving
December 7: Pearl Harbor Day
December 21: Winter Solstice begins

BIRTHDAY HIGHLIGHTS FOR SAGITTARIUS

Happy Birthday, Sagittarius! Your symbol is the Centaur, the sign of the Archer, a fire, mutable member of the Zodiac and natural ruler of the 9th House of the higher mind, religion, spirituality, the clergy, advanced education, law, publishing, in-laws, foreigners, religion, and travel to distant places. Jupiter rules your sign and attracts you to a variety of adventures at home, at work, in sports and in distant places. You prefer rich, deep colors like bottle green, dark blues, browns, and majestic purple shades. You enjoy stately trees such as birch, elm and oak that resonate with your sign. As a truth seeker you want to know what gives when you have questions and won't quit until you find out. Some call you "blunt" when you tell others exactly what you think, especially if they ask for your opinion. This year the Sun enters your sign on November 21 at 10:05 PM EST and leaves on December 21 at 11:28 AM EST a date which also coincides with the winter solstice. Most of the material in the following section also refers to individuals with Sagittarius on the Ascendant/Rising Sign.

Sagittarius, your birthday year plays host to your signature planet, Jupiter in Scorpio during 2017-18. It started out on **October 10 for a year-long stay that ends on November 9 when the planet moves to your sign for a full year.** Jupiter now occupies your 12th House of secrets, privacy, long-term planning, mystical matters, healing, hospital visiting, psychic experiences and dreams and sabbaticals of the mind or body. Get in touch with your inner self and add some meditation to the mix. See troubles in a new light and enjoy your freedom from worry. Be sure you don't take foolish risks in the relationship department; secret trysts backfire. For some it won't be a relationship but something you spend too much time on: gaming, betting, fascination with entertainment that leads to daydreaming and lost productivity. Dreams may be incredibly vivid. **With Saturn in Sagittarius wrapping up a 2-1/2-year journey in your solar 1st House on December 19, you'll feel some much-needed relief. No doubt you had a lot of heat in your kitchen. Explore the lessons you have learned and move forward progressively. In the new cycle, you will begin to experience extra responsibility or pressure while Saturn moves to Capricorn and occupies your solar 2nd house of income, resources, money you earn, assets and developmental opportunities, especially those that affect work and career.** Those of you born November 21-December 2 experience the most activity from this Saturn sign change during 2018. Finance becomes a focus of attention for you - some will look for a new income stream; retirees will take inventory to see if their pensions cover expenses adequately and may seek supplemental employment; others want to spend money on self-improvement. Be sure to set some cash aside for emergencies. **Uranus in Aries** shakes up your 5th House of vacations, romance, dating, recreation, sports, children, risk taking, speculation, and entertainment through **May 15 when Uranus moves into Taurus and your solar 6th House of health, daily routines, fitness, nutrition, organization, colleague interactions, health and pets until November 6th when, by retrograde motion it moves back to Aries territory through the end of 2018 and beyond and your solar 5th House.** When Uranus moves to your 6th House the emphasis will be strongly on health and work place issues, so do an inventory to be prepared. While Uranus is in Aries, it speeds up activity for those of you born December 14-21; there will still be shake-ups, yet the benefits are rewarding with the trine aspect in operation. Those changes you are initiating will come to pass so be sure your vision is clear. By now numerous Sagittarians are out of the old rut and into new

energy patterns. Tweak investments before May 15. The trine aspect brings fulfillment in unexpected ways. **Neptune in Pisces is in contact with your Sun if born December 2-9 while it moves through your solar 4th House of home, foundations, hearth, physical space, parents, family and real estate/land for the remainder of 2017 and throughout 2018.** This planet makes you feel you MUST clean your glasses, slows you down into chilling mode, helps amp up your intuition and makes you recognize that your foggy mindset is out of focus. Your sign, Sagittarius, gets the hard aspect called the square during the next year if you were born on any of the days mentioned here. Most of you benefit from attracting spiritual energy to your auric field to gain greater insight about yourself and your family which helps you address any illusions about who they are and why they disappoint you. Neptune in this house affects energy in the physical environment due to toxic materials; be sure to investigate if you suspect they exist. Don't be a sponge to absorb disruption from others in your base of operations. Take the tonal quality down a peg this year and enjoy some much-deserved peace. Align yourself with positive energy and create or attend parties to rev up your joyous spirit. Home base is about to get a new vibration! Enjoy it. **Pluto in Capricorn moves forward in your solar 2nd House of income, resources, values, assets, self-development, and how you desire to earn your living; it now affects those of you born December 9-12 through the rest of 2017 and all of 2018. Slow-moving Pluto advances only 3 degrees a year since it turns retrograde for 6 out of 12 months. Take a good look at your finances while Pluto is in aspect to your Sun.** A 2nd house Pluto transit calls for a better budget and consolidation of debt. Sagittarius likes to spend money and Capricorn likes to put on the brakes and say, "wait a minute, you have to pay this back." The theme is discretionary spending, and this may be the year you redefine what it means to you. Embrace prosperity by having your goals in front of you. You don't have to buy every sale item you see - another bargain will come along in a couple of months. Saturn in Capricorn will be in this house, too, and play governor to your credit cards and checkbook. Look for ways to enjoy recreation that puts less of a strain on your finances. You could meet new kindred spirits who like your style and the chemistry takes you to new heights. Embrace the people in your circle who hold similar values and watch how quickly you build rapport. Enjoy new adventures.

Eclipses strongly affect communication and travel this year. **The start of your 2017 birthday cycle began with the August 7 lunar eclipse in Aquarius in your solar 3rd House of mental acumen, communication, equipment, technology, neighbors, siblings, transportation modes, community involvement and local travel.** This eclipse showed you the need to make changes in computer systems, make sense of messages, ferret out SPAM in your system or in your mind; add clarity to your thinking patterns, see relationships with relatives in a new light, and make wise decisions on purchase of new vehicles. Information may come to you in a flash and stuck thinking falls apart when you need it most to solve problems. Look for opportunities in desired locations or career paths. **The final solar eclipse of 2017 fell on August 21 in Leo in your solar 9th House which has been percolating and processing ideas since early February.** You have internalized what you discovered and are supporting a new path in life - a return to school, a move, a marriage or divorce, an adoption, a different career or a new job, a medical breakthrough, published writing, media work or a trip of a lifetime. The changes you have embraced so far lead you further into unfamiliar territory as you express your passion for adventure and a new look at life. After 2-1/2 years with Saturn on your Sun, you are ready for these changes in responsibility. Military staff may be prepping for reassignment and a shift in plans. This eclipse plays out through the end of January. A total of 5 eclipses occur in 2018. **The first lunar**

eclipse of 2018 occurs on January 31st in Leo in your solar 9th House of the higher mind, long-distance travel, foreigners, in-laws, advanced education/training, spiritual philosophy, medical and legal matters and professionals and cultural exchanges. Much of what you experience has been set in motion since early 2017. Many who experience eclipses here change their minds politically and socially as new information emerges. Some will embrace a new spiritual philosophy; others look for alternative healing methods to use with mainstream medicine. If anyone can do it, Sagittarius, you are the sign that knows how to make change an adventure. Be sure you balance out the travel commitments, so you have quality down-time to recharge your batteries. Set limits on how long house guests can stay and stick with a plan so you sail happily into the new year with less disruption. **The first solar eclipse of 2018 occurs on February 15 in Aquarius in your solar 3rd house and revisits themes you discovered in August related to the quality of communication, the state of your mind and local or community scenery. Eclipses in the 3rd House manifest with an unexpected twist to the status quo.** Look for surprising news related to family members (siblings and cousins), neighbors, educational pursuits or an exchange of information that catches you off guard. Several of you may be looking for freedom from long-term mental anguish or from burdens you took on with good intentions that have dragged on far too long. You don't need approval from anyone; you just need an extrication plan. Certain Sagittarians may sell their homes and move. **The next eclipse is a solar eclipse in Cancer that occurs on July 12th, in your solar 8th House of joint funds and debts, mortgage and personal loans, goods of the dead, your psyche, birth, death, sex and regeneration. What drives activity at home base?** Circumstances may occur that call for an immediate sale of real estate or property, slashed income may give you a reason to pare down debt; investments may not pay off forcing a sale to cut your losses; criminal activity or security breaches affect accounts, work layoff of a partner occurs; or an inheritance that changes your life in some manner depending on the other planetary aspects in your chart takes place. You may find a reason to seek legal counsel. Some Sagittarians have deep level spiritual experiences. Pick dates wisely for court appearances. Keep excellent records and collect facts. As soon as you can catch your breath make changes that give you great freedom from financial burdens. Visualize nurturing energy in your home. **The last lunar eclipse of the year falls in Aquarius on July 27th in your solar 3rd house of mental agility, communication, equipment and technology, siblings, neighborhood, community involvement, cybersecurity and local travel.** This eclipse could bring lively discussions and conversations to your daily routine and step up the frequency of communication with siblings, cousins and neighbors. You may be planning a reunion involving relatives or former schoolmates. Several of you invest in high-tech equipment in the form of computers, household goods and vehicles. Research you started early in 2018 pays off. Create shortcuts and organize your routines for maximum efficiency. Remember that change is an inside job. **The final solar eclipse of 2018 takes place on August 11 in dramatic Leo in your solar 9th house of distant travel, higher education, people at a distance or from diverse cultures/countries; publications; legal and medical professionals, and in-laws.** Since this eclipse is the third to visit this house since 2017, you may meet a catalyst who influences your career, philosophy, mindset, and plans. Enjoy the diversion and reap the benefits of a break from patterns that no longer suit your desires. When you least expect it, you find answers that are a saving grace. A desired trip comes to pass. These passages may also apply to those with a Sagittarius ascendant. Celebrate your birthday in style.

Kennedy, Jr., Robert Goulet, Jerry Ver Dorn, Tina Turner, Bruce Lee, Caroline Kennedy, Jimi Hendrix, Ed Harris, Jon Stewart, Garry Shandling, Christel Khalil, Ben Stiller, Bette Midler, Woody Allen, Britney Spears, Nelly Furtado, Melissa Archer, Monica Seles, Lucy Liu, Rena Sofer, Rick Savage, Randy Gardner, Dame Judi Dench, Richard Jenkins, Stone Phillips, Julie Harris, Steven Bauer, Joy Reid, Daryl Hannah, Julianne Moore, Jesse Metcalfe, Kara Dioguardi, Felicity Huffman, John Malkovich, Michael Nouri, Dick Butkis, Kirk Douglas, Jay-Z, Jeff Bridges, Steve Buscemi, Marisa Tomei, Dan Butler, Tyra Banks, Sinead O'Connor, Beau Bridges, Taylor Swift, Donny Osmond, Dame Judi Dench, Kenneth Branagh, Christina Onassis, Teri Garr, Jamie Foxx, Patty Duke, Don Johnson, Taylor Swift, Adam Brody, Benjamin Bratt, Liv Ullman, Milla Jovovich, Brad Pitt, Katie Holmes, Keith Richards, Steven Spielberg, Christina Aguilera, Jake Gyllenhaal, Alyssa Milano, Jane Fonda, Kiefer Sutherland, Phil Donahue, Ray Romano, and Samuel L. PLANETS' POSITIONS FROM NOVEMBER 21-DECEMBER 21

The people on the planet, especially in the U.S. and those affected by weather disasters, fires, political upheaval, warfare and mass killings, desire a healthier mindset and an optimistic future. Ditto those with heavy transits and eclipse hits that have influenced the state of personal relationships. Incidents of sexual misconduct have surfaced in the news almost daily in the past month - largely the work of Uranus, Mars, Saturn and Pluto, highlighting how these planets are interacting in the natal charts of the perpetrators. As we approach the holidays and embrace the celebratory nature of the season, let's seek the truth, find solutions, address the rage that leads to faulty judgment and dissolve negative thinking patterns. Adopt a prosperity consciousness and get ready to welcome the new year with fresh eyes and a kind heart. Visualize your future and take it in a positive direction.

Mercury is direct in Sagittarius at the start of this cycle and moves retrograde in motion on December 3 at 2:34 AM EST for its usual 3-week cycle. It goes direct on December 22 at 8:51 PM EST. Be sure to have all important papers and transactions in order and use the productive period to sort through your papers, clean closets and files, work on projects already in progress and get ready for the holidays. Check transportation schedules for weather-related delays and understand what is behind missing mail, late meetings, mix-ups over dates and confusing communication. **Venus starts out in Scorpio and quickly moves to Sagittarius** on December 1 where it remains during this cycle. Individuals may feel the momentum from Mercury Rx and will move into procrastination mode getting into the holiday spirit by accelerating their down time. The planet gets serious on Christmas Day by moving into Capricorn. **Mars starts out in socially-oriented Libra** and embraces entertainment, hosting opportunities, getting the house decorated and purchasing presents. **Then Mars moves to Scorpio on December 9** and dives into problem-solving mode, self-assessment, releasing fear and seeking emotional connections. **As of October 10, Jupiter occupies Scorpio and affects individuals born November 1-9** through the end this cycle who experience the conjunction of this benevolent planet - windfalls, bonuses, celebrations and trips. Also reaping benefits are those born from the 9th through 15th degree of water signs Cancer and Pisces or the 9th-15th degrees of Virgo and Capricorn. If you are a Taurus born April 29-May 6, you may feel some opposition to plans due to others' interference. Take the time to work out details. **Saturn in Sagittarius wraps**

up its 2-1/2- year transit through this sign on December 19th. In the meantime, those born December 17-21 feel the impact of the last round of pressure that comes from the planet of responsibility and ambition. The lessons you learned have paved the way to create just the tension you desire to make meaningful life changes. It's also one last hurrah for Geminis born June 16-21, Virgos born September 18-22 and Pisces born March 16-20. Clean up any loose ends that have plucked your nerves for the last few years and enjoy freedom from burdens that may not be your own. **Saturn moves to its home sign, Capricorn at 11:49 PM on December 19th** most affecting those born December 21-23 during this cycle. Be sure to get health checkups and follow advice for stabilizing physical stamina. Progressive vibes occur for those born April 20-22 and August 22-24. Take advantage of increased energy and passion for your favorite things. It is traveling in favorable aspect to Jupiter in Scorpio giving a boost to projects, relationships, workplace matters and your health. Those born March 21-23, June 20-22, and September 22-24 feel the effects of Saturn's demands and look for ways to make adjustments. Worldwide there is a new urgency toward restoring order and moving away from the political freefall that came with Saturn in Sagittarius the last few years; yes, old structures collapsed yet replacement strategy brought anything but stability. One planet, **Uranus in Aries**, is retrograde as we start this cycle and most affects Aries born April 14-16; Cancers born July 17-19, Libras born October 17-19 and Capricorns born January 14-16. Unusual changes in direction may occur to shake up your life or schedule. Those born August 17-19 and December 16-18 benefit from unexpected boosts in recognition, rewards and meeting new people. **Neptune is retrograde in Pisces** and goes direct on November 22nd. Currently Neptune most affects individuals born March 1-3, and those June 29-July 1 and October 31-November 2 with favorable vibes and intuitive breakthroughs. Enjoy the inner peace. Those born December 2-4, September 3-5 and June 1-3 meet with challenges that could stem from clouded judgment. Lingering issues need attention and crop up almost invisibly; the good news is that solutions emerge, and you recognize their merit. A beautiful trine between Jupiter in Scorpio and Neptune in Pisces occurs December 1-5; enjoy the loving, energizing vibes. Examine the pros and cons of meditation, visualization and yoga to add serenity to your personal space. Enjoy the attraction of kindred spirits. **Pluto in Capricorn takes a vacation from making all those hard aspects to Uranus and Mars in Libra as we move toward the end of 2017** and look ahead to 2018. Globally, the transit calls for a hard look at the rights of others and fairness in settling claims for damages, wage compensation, sexual harassment, civil unrest and indiscreet use of weapons. Citizens of the world will not be silenced. New platforms emerge while Pluto digs deep for secrets and they continue to surface in the form of tell-all books, media appearances, behind-the-scenes research and activity, sudden exposure, competition, spy tactics, cybercrime and rumors. Pluto is strongly positioned in the USA chart and within 3 years the US will experience its Pluto return which I'll cover in future issues. On a personal level **Pluto joins the Suns of those born January 6-9** and moves deeply through the minds of those interested in making meaningful internal change while exposing what ideas benefit from regeneration and rebirth. Many individuals eliminate fear and toxic shame under this transit. Others affected by this transit are Aries born April 6-9, Cancers born July 8-11 and Libras born October 9-12. Consult your astrologer for advice on managing releases that are unfolding if your birth date is among those cited. Enjoy release from old garbage and unnecessary burdens the next 1-2 years. **Chiron in Pisces** is retrograde and moves in direct motion on December 6. This planetoid most affects Pisces born March 14-16 and reveals the momentum to let go of old resentments that crop up in conversation as

well as head space. What a great time to release the pain to heal your mind, body and spirit! Decide what makes you whole. Good deeds toward human interests increase inner balance and energy. Wherever Pisces falls in your chart you have options for changing the picture and realizing your dreams. Celebrate social and financial successes. Connect with others and make peace. The holiday season brings a caring and sharing environment and a reason to smile. Toast the rise in your quality of life.

PEOPLE, PLACES AND TOPICS IN THE NEWS

Several readers asked about Puerto Rico, the political scandals affecting the U.S., the sex scandals that have become daily reveals and the emphasis on violence regarding use of guns. Highlights involving people and conditions in the news follow.

The Final Four on Dancing with the Stars: Once again we move to Sagittarius just ahead of the finale of this competition. One of these talented individuals will be the champion. Be sure to vote on Monday, November 20 when one of the 4 will be eliminated and watch the final competition naming the winner at the season finale on November 21. Remaining competitors are: **Sagittarius** Frankie Muniz and his **Libra** partner, Witney Carson; **Aries** Jordan Fisher and his **Capricorn** partner, Lindsay Arnold; **Virgo** Lindsay Stirling and her **Gemini** partner Mark Ballas; and **Taurus** Drew Scott and his **Capricorn** partner, Lindsay Arnold. One of these couples will win the coveted Mirror Ball trophy. Congratulations to all who made it to the finals and to the professional dancers, judges, hosts and crew who keep quality entertainment alive. Which of these pairs holds the key to success? Vote for your favorite!

The U.S. Territory of Puerto Rico: The citizens of Puerto Rico have borne the brunt of two hurricanes, Irma and then Maria the even more devastating storm that ravaged the beautiful area making living conditions impossible. Two months later, power remains out in much of the island, homes are destroyed beyond repair, food and water are scarce, and the cost of destruction has been estimated at \$70 billion. **Puerto Rico became a U.S. Territory on July 25, 1952.** A look at Puerto Rico's natal chart was a real opener for me. It has 8 planets or points in Leo ranging from 2-27 degrees; an Ascendant in Scorpio with Mars rising and the EQ in the first House; Jupiter in Taurus on the 7th House cusp (public relationships, advisors, consultants), in hard aspect to the Mid-heaven of the chart; and the cusp of the 4th House of home which holds both Juno and the Moon's North Node in Aquarius - **all fixed sign placements** and every one of them on the path of the 2017 eclipses. This situation represents total destruction. Several more eclipses will occur through mid-2019 in Puerto Rico's 3rd, 4th, 9th, and 10th Houses and will affect the 1st and 7th Houses - all four major quadrants and points of activity. I have never seen this before. May the angels on the planet work miracles and raise the needed funds to restore life to the suffering population.

Joy Ann Reid: In true Sagittarian spirit, Joy-Ann Reid has been all over the map lately in demand as a weeknight TV host on MSNBC filling in for other hosts on the nationally popular cable TV station. Joy hosts her own weekend political commentary show, *Weekend Joy*, on Saturday and Sunday mornings from 10 AM - Noon EST. Joy seems to snag every political personality making current headlines and affiliated with either side of the aisle, keeps on top of leading stories and does a bang-up job managing guests and panels, showing her savvy and skilled interviewing style. What makes Joy tick? She is a Sagittarius born December 8 in Brooklyn, NY. Her chart shows 5 natal planets in Sagittarius (truth seeker who won't settle for weak answers), Venus in Capricorn (love of politics and government interests), Moon in Cancer (loyal to her country, committed to nurturing the population and loves her family), Saturn and Vesta in Aries (focuses on underlying issues and looks for the big picture in pursuit of truth), and has a stellium of planets in Libra that show her preference for fair, balanced reporting and justice in her quest for integrity in journalism. Joy is an author and wrote *Fracture: Barack Obama, the Clintons, and the Racial Divide* in 2015. A look at her planets and the current transits show another book could be in the works catching the attention of an even broader audience. Stay tuned!

Paula Faris: This talented American television correspondent for ABC news and the co-anchor of *Good Morning America Weekend* has sustained a couple of injuries in the last month, one of them a concussion after an accident. She has spunk and returned to her ABC chair this weekend giving an enthusiastic performance and sporting a pair of glasses that she said are helping her in the healing process. Paula is a Scorpio born October 26 in Jackson, MI. Her chart shows several Scorpio placements that have been in the path of the Leo and Aquarius eclipses in 2017; her solar 6th House of health hosts Chiron in Aries getting a jolt from transiting Uranus (sudden events, injuries, accidents and head trauma) and shaking up her world. Her natal Sun-Uranus conjunction had transiting Jupiter in Scorpio land on it in October in direct square to her natal Saturn in Leo (restrictions, delays, setbacks) located in her 10th House of career and status quo. The good news is that she is on the mend and happy to be back to work. Let's wish Paula well and a speedy recovery.

White House News: This month we're taking a break in honor of Thanksgiving: no twitter, no treason, no lying, no groping, no fake news and no leaks.

READER'S CORNER

Several readers commented on the plight of the hiring manager featured in last month's newsletter and indicated they identified with the problem and would like to see more work place issues featured. I am presenting a new one this month as well as a relationship dilemma posed by a subscriber.

Q. I am a Sagittarius male born December 16th and recently applied for a job that I did not get. The interview left a lot to be desired - interviewer was 20 minutes late, took a phone call as soon as she arrived, and did not seem to know a lot about the job that interested me. The way I was treated seems unfair. I feel that part of the problem was because the interviewer did not give me a chance to talk much about my background, ask why I wanted the job, nor did she give me an opportunity to ask questions about the company. I am not certain she read my resume. What is going on

in my chart that may have led to this outcome? Is there any one I can complain to about this unfair treatment? I appreciate your advice and counsel.

A. As soon as I looked at your natal planets, as well as the position of transiting planets on the day of your appointment, November 6, I could see why the interview never got off the ground. For one thing the Moon (public) had moved to Gemini, the sign opposite your both your Sun and Moon in Sagittarius; Saturn in the heavens in Sagittarius was conjunct your natal Sun (taxing your nerves and dimming your light), and in harsh aspect to Mars in Pisces (energy and passion). This combination does not go well for going after a new job. On top of that, the interviewer's behavior was pushing hot buttons instead of allowing you to demonstrate a more positive perspective of your talents. Perhaps your nerves got in the way of what you wanted to communicate when the interviewer was rude to you. What you describe is not considered "unfair" or discriminatory treatment but seems to fit the bill as obnoxious. The woman did not ask you any improper questions, make disparaging remarks or do anything illegal. You can't file a complaint of discrimination based on what you stated. The interviewer did not seem competent in her job and may not have been properly trained. How did you learn of the opening? Who put you in touch with the company? Was it a recruiter or a referral? Let that person know what happened. If a company allows dysfunctional interviewing techniques in recruitment, you have to wonder whether it is a company you want to pursue. For greater clarity, I suggest having a full chart analysis done to include identifying dates that work well for job interviews.

Q. I'm dating a Sagittarius male born December 8. I am an Aquarius born January 22. We have common interests in travel and outdoor activities, and have fun and enjoy these times. Our emotional behaviors and family outlook differ, and we argue over these points more frequently than I would like. I am troubled by his impatience which often shows up as a temper tantrum, teeth gritting and clenching fists when he doesn't like what he hears. He looks like a time bomb ready to go off. He has never hit me but did shove me once and has been known to break household items or punch doors. I am thinking of breaking things off as the tension is increasing more each week. Do you think this relationship has a chance? Or, are my instincts correct?

A. I think you nailed it and it is time to run in a new direction. What has your partner done about his anger and tantrums? Have you discussed your unhappiness and fear? Have you set any boundaries? Astrologically, you have a Leo Ascendant and that puts your Aquarius Sun in the 7th House of partnerships. Eclipses with one exception are going to hit your 1st and 7th Houses throughout 2018 and are giving you the signal to either clean up relationships or leave them behind. Your friend's Sun falls in your 5th house of recreation, dating, sports, social life and entertainment along with Mars, a planet often associated with stamina, sports, sexual chemistry and energy patterns which you share. When natal Mars is on an individual's Sun it can mean the person has an anger management problem when other planets reflect the evidence. Saturn has been in Sagittarius for 2-1/2 years and has brought burdens or difficulties into his life - he may not have dealt with them and is responding to the pressure by demonstrating his edgy behavior. This Sun/Mars pattern is in hard aspect to your natal Venus in Pisces and does not work with your more fragile psyche, so you don't feel understood emotionally. His Venus in Aquarius falls in your 7th House of relationships and experienced an eclipse hit in August, probably coinciding with the time you started noticing the relationship was not working. Perhaps there was an anger incident either

before or after August 7. I am sure you know what to do and I wish you success in going your separate ways. Thankfully, you have not yet made a life commitment.

Thank you to all who sent in questions and comments about last month's newsletter. I'm glad you enjoyed the Scorpio issue and welcome your thoughts once again.
