IMPORTANT DATE

JULY 4: Independence Day

ANNOUNCEMENTS: Congratulations to DB on winning May's drawing of a \$10 gift certificate to apply toward a future consultation. Monthly drawings are open to all clients who book a consultation of one hour or more. June's award will be a \$10 coupon to use toward your next appointment. A birthday shout-out goes to SL, MB, JS, DG, PL, MZ and me. Llewellyn Moon Sign and Sun Sign Books are out for 2020 now. Check for annuals and calendars at your favorite bookstore or order online from Llewellyn. **NOTE:** No office hours July 2-4.

Cyber threats escalate each month as do the number of threats from neighborhood stalkers intent on stealing delivered goods. Make special arrangements with vendors to secure deliveries and keep the thieves at bay. Invest in a security system to monitor visitors to your home or place of business. Be sure electronic devices are protected from data theft. Change your passwords to insure integrity. Contact firms you do business with regularly if you receive notice to supply any personal information in response to an e-mail request. Phishing scam flags show: **unusual sender addresses** - they look real but have some odd discrepancy; **lack of personalization** from a firm that says your account was compromised; **unusual URLs** directing you to a website; **misspellings** - one of the biggest clues that a scammer is after your data and wants you to think they are the "real deal" in the message they are sending to request private information or account numbers. Never send or respond to chain mail.

CANCER and THE YEAR AHEAD

Happy Birthday, Cancer! Yours is the first Water Sun Sign in the Zodiac and Cancer is the natural ruler of the 4th House of home and family, people who live with you, foundations and the heart of domestic activity, what your home's vibration is like, base of operations, household matters including decorating, design, renovation and real estate; mother and sometimes father, your sixth sense, gardening, landscaping or plants, and your emotional temperature along with how you respond to others' plights. This section of the chart highlights parts of your life and personality that describe how you interact with family members, work through issues and solve related problems; what you like to do around the house; people you connect with in the home; how you prepare meals and what you eat; cooking skills and kitchen equipment. Many Cancers are natural chefs and have a strong affinity for their ovens; others claim they can count on one hand how often they use the oven in a given year. If their kitchens are located in the front of the house, they probably eat out a lot. Born under the sign of the Crab, you are both a water sign and the second Cardinal sign fulfilling your mission to explore and share the depth of your feelings that may be repressed due to shyness or stemming from emotional wounding. The Moon is your ruler and its house and sign in your chart show how your personality plays out. Assertive work habits aid you in fulfilling goals. When you feel particularly sensitive, you crawl into your shell to avoid confrontations or toxic people. A good memory is your treasured asset. All four angles of your chart are in high focus this year with special attention to the 1st and 7th Houses as well as the 10th and 4th Houses that have Cardinal signs on the solar cusps. This year the Sun enters your sign on June 21 at 11:55 AM EDT and leaves on July 22 at 10:51 PM EDT.

Jupiter represents areas where you feel adventurous, enthusiastic, expansive, prosperous and ready for travel. As we enter your Sun sign territory **Jupiter in Sagittarius is retrograde and moving through your solar 6th House of work, health, daily environments, colleagues, organization, pets and nutrition. Those of you born July 6-11 feel the impact most and feel the need to adjust routines or slow down the pace of projects to give more time to quality control.** Certain Cancers examine work relationships, contracts and areas in need of organizational realignment. Moon children working on health matters examine nutrition, food allergies and fitness routines. Be sure to schedule health checkups and get a second opinion if surgery is recommended. Look for ways to compromise with colleagues and take the lead in fostering harmonious exchanges. The writers among you have your work cut out for you in tweaking themes, editing, merging and presenting top-notch products. **In six months, Jupiter moves to Capricorn (December 3) where it occupies your 7th House of business and personal partners, spouses, roommates, collaborators, professional connections, and the public and remains until December 20, 2020.** With Jupiter in the 7th House, relationships get a workout and you could deal with a full gamut of experiences: mergers via marriage or business partnerships, joint contracts or purchases, taking on a roommate or renting space in your home or business, breaking up with intimate partners or dissolving business agreements. This partnership house is probably the most important one in the next few years because so many planets are converging there along with several eclipses. Be prepared for unexpected routines, windfalls, excitement, tension and clearer understanding of roles. **Saturn moved into your opposite sign, Capricorn, in late 2017 and will occupy your solar 7th House until March 21 when it moves briefly into Aquarius in your solar 8th House, and then via retrograde motion moves back to Capricorn from July 2, 2020 through**

September 29. Saturn is all about restrictions and responsibility. You'll need extra hands and lots of space to juggle partnership demands or projects that materialize and arrive with complex details. Stay flexible and let go of rigid patterns to enjoy some down time and recreational pursuits. Seek counsel for marriage or partnership ventures that need a new perspective. If part of your lesson is to gain freedom from the angst of these associations, you will either separate or file for divorce. Other Cancers take in roommates to increase income and manage household expenses, particularly in 2020. You may also buy a second home and offer it for rent part of the year. Contractual agreements are part of your world in 2019-20. Consult attorneys, advisors and subject matter specialists to maximize benefits. **Uranus went full-steam ahead in Taurus on March 6th and spends the next 6.5 years** traveling through your Solar 11th House of associations, friendships, groups, organizations, goals, hopes and wishes. Cancers born June 26-July 3 feel the most impact from Uranus this year and confront choices regarding goals, independence, groups and friendships. The edge is off since Uranus in Aries is no longer aggravating you and stifling growth or keeping you in toxic relationships. Address your fondest dreams now and watch your momentum grow as others acknowledge your talent and wisdom. Uranus demands action and speeds up the process so get ready. And if you have planets in the first 10 degrees of Cancer, Virgo, Taurus or Capricorn, you feel the impact of surprises and unpredictable Uranus energy. You won't please everyone you meet so enjoy the benefits that come your way and sync them with your goals. Practice yoga, deep breathing, meditation, and exercise to lower your blood pressure and create calmer space. Uranus occupies Taurus exclusively during 2019-2020 and compliments your power. **Neptune in residence in its home sign, Pisces (resonating beautifully with your Cancer Sun) is now retrograde from June 21-November 27 in your solar 9th House** of the higher mind, advanced education, journalism, accelerated business plans, foreigners, medical and legal specialists, politics, publishing, in-laws, long-distance travel, and spirituality where it will remain until 2025. This year's transits especially affect those of you born July 8-14 and highlight deeper spiritual and philosophical meanings. Many Cancers gravitate to getaways and trips to water-based locations, the beach, meals on the water, cruises or cascading waterfalls. Others benefit from reunions with relatives, schoolmates, soul mates and long lost friends. Enjoy both inner and outer journeys paying attention to "foggy" information and looking for ways to clarify what you learn. Studies accelerate your passion to change routines and find new life perspectives. Integrate the benefits of this Neptune transit so you are more alert and intuitive than ever. Neptune embraces the psychic mind and dream state. Check out of co-dependent relationships. Seek professional guidance in career, educational and lifestyle matters. Plan joyful get-togethers and parties with kindred truth seekers. **You have had Saturn very close to Pluto in Capricorn (now retrograde in motion until October 2) as it connects with Cancers born July 12-18 in your solar 7th House of business, personal and romantic partners; medical practitioners and advisors, roommates, collaborators, the public, consultants and legal practitioners.** If you found a relationship commitment or are still looking, give this coming year a chance to bring you the changes you desire. If you are already in a partnership, you may need to bring existing conditions to a head that call for your decision. Which facets of partnership challenges annoy you the most? Pluto may move slowly yet you can't hide from the truth and the nagging persists until you act in your best interest. With eclipses occurring in the 7th and 1st houses and Jupiter joining the house on December 3, you're ready to end cycles that have no meaning and build on new directions. Bye-bye, baggage. Pluto relishes regeneration leading you to heal and

find new work and relationships. If you are a Cancer born with the Sun and some planets in the other Cardinal signs, Capricorn, Libra or Aries from the 20th-24th degree, you will experience solid impact from Pluto's opposition. Check in with your astrologer to understand the upheavals taking place in your chart. With **Pluto in Capricorn** in your 7th House your goal is to bask in the positive attention, personal happiness, stability and insight you attract to meet your goals in life. Acknowledge your tender loving Cancer heart and open the chambers to discover new paths. Make the joy you seek work with honesty and humor. Life is good!

This year's eclipses affect you as follows: **The first solar eclipse of 2019 in Capricorn fell on January 5 in your 7th House of personal and business partners, spouses, collaborators, roommates, advisors, the public and legal or medical professionals and your shadow side.** Its influence lasts until July 2 (solar eclipse). Saturn and Pluto in this house create new responsibilities and shape important plans that need your attention. Examine the quality of interpersonal communication and schedule discussion time with advisors to keep on top of emerging issues. What is discordant in your life? Have you met someone new since your last birthday? Visualize the ideal picture and get in touch with your feelings so you can move forward. **The second full moon eclipse that influenced your birthday year was the January 21st Full Moon eclipse in Leo that occurred in your solar 2nd House of income, personal development, assets, spending habits, resources and what you value. It plays out through July 16 and beyond.** What is going on with work and career options? Are you bored? If so, you may be ready to take a risk and start interviewing for a more challenging assignment. Decide on the perfect income level to meet your needs and save for your future - it is never too early to think about your retirement nest egg. Some of you may retire this year and are making plans with financial advisors. Opting for an internal promotion? What are the organizational networks like? Hope you take advantage of them before Mercury goes retrograde on the 7th or after August 15th when more viable opportunities occur. Spend time and money on talent development, college courses or self-help psychology. **The 3rd eclipse of 2018 is a Solar Eclipse in Cancer in your solar 1st house of self, personal interests, appearance, assertiveness, activity, innovation, passion and implementation of plans.** Eclipses in this house call for action, decisions and taking the lead in managing your life. Examine your physical self also and make changes that enhance fitness and wellbeing. A makeover does wonders for self-confidence. A new wardrobe perks up your spirit. Charities will love your generosity when you lighten your load by giving gently used items to those with less. Medical practitioners may also have answers to health solutions - be sure to get more than one opinion if pondering surgery. Fame or publicity allows you to look at who you are and put plans into action to embrace new experiences. Energy in this house continues through mid-2020. Take pride in what you do and enjoy the blessings. **The second lunar eclipse of 2019 falls in Capricorn on July 16th in your solar 7th House of business and personal partners, spouses, soul mates, roommates, advisors, collaborators, the public and legal or medical advisors.** Saturn rules Capricorn, often a sign of a shift in responsibilities. Situations you have been dealing with since late 2017 and especially since January's solar eclipse, surface and move toward much needed action and completion. Examine the history of relationships and move on to the likely future of them. This house is loaded with planets and you won't have down time with Saturn, Pluto, and in early December Jupiter moving in to amplify the action. People in the shadows come through or attention from the public pays off and not without your hard work and commitment to objectives. Talent gets a boost. Use the extra money that comes your way to feed

your savings account and pay off debt. Look for a fresh start in relationships, some of them personal and some of them related to business. Perhaps you welcome new family members to the fold. **Much like the January 5th and July 16th eclipses, the third 2019 Solar Eclipse falls in your 7th House of partners on December 26th in Capricorn and serves as a spot check in evaluating progress you are making in the area of relationships.** Cancer, certain contacts think you work too much and want you to tweak the workaholic gene in favor of some fun. Understand what it takes to minimize the impact of saying “yes” all the time. Do clean out those files and use the shredder to dispose of sensitive papers. If you are looking, keep alert to find the perfect job to enjoy your career and earning power. With this powerful eclipse in your house of recognition, examine your options. Lay plans for a quality life, enjoyable contacts and cultivate meaningful connections. Keep confidence levels high and use astute solutions for solving challenges. **The next full Moon eclipse that falls in your birthday cycle occurs two weeks later on January 10, 2020 in Cancer in your life altering 1st House of self, physical appearance, health, action and opportunity. Expect a high development period in major life fields.** You may be so busy that you disregard signals from your body to slow down and smell the roses. Part of you responds to strong mental vibes and a brain that seems to be working overtime. Be sure to have an eye check-up if you feel vision is changing.

Another full moon eclipse that falls during your current birthday cycle occurs on June 5 in Sagittarius in your 6th House of everyday routines, organizational aptitude, pets, health, fitness, workplace colleagues and nutrition giving these themes a good workout as the lunar nodes begin to change signs. You should be well on your way to executing shifts in your operating plans and assessing critical next steps and contacts. You may be hiring staff, evaluating performance or conducting training sessions. Pets may need attention. The eclipse is tailor-made for focusing on fitness, nutritional changes and health. Be sure to schedule an appointment with your astrologer for a deeper look at the opportunities that affect your work and leisure time during the coming year. This section may apply also to individuals with Cancer on the Ascendant or in part to those with multiple Cancer planets including the Moon.

Famous Cancers include: Prince William, Cyndi Lauper, Juliette Lewis, Carson Daly, Bruce Campbell, Kris Kristofferson, Meryl Streep, Elizabeth Warren, Randy Jackson, Joss Whedon, Anna Paquin, Carly Simon, George Michael, Chris Isaak, Chris O'Donnell, Tobey Maguire, John Cusack, Kathy Bates, John Bradshaw, Richard Lewis, Vincent D'Onofrio, Dan Aykroyd, Liv Tyler, Pamela Anderson, Princess Diana, Lindsay Lohan, Tom Cruise, Elizabeth Hendrickson, Hunter Tylo, Tom Stoppard, Gina Lollobrigida, Geraldo Rivera, Neil Simon, Huey Lewis, Edie Falco, Dalai Lama, former President George W. THE PLANETS' ACTIVITY JUNE 21-July 22, 2018

The Summer Solstice occurs on June 21 at 11:55 AM EDT, the longest day of the year. Two eclipses occur during the Cancer cycle. The next solar eclipse cycle

begins with the New Moon Eclipse in Cancer on July 2 and the next Full Moon eclipse takes place on July 16 in Capricorn. If your birthday is on or around these eclipse dates or you have planets in Cancer, Capricorn, Libra or Aries around 11 or 24 degrees, the year may be exceptionally eventful for you. The Ascendant or the Moon play a big role if an eclipse falls on, opposes or squares either; ditto, the door to the 4th or 10th Houses. Eclipses strongly affect countries and leaders with planets in the eclipse signs. Look now at Sudan, Algeria, Burundi, Somalia, Venezuela and Zaire. Keep an eye on activity involving Iran and Iraq as conditions heat up for conflict. Hold off making any important decisions until a week after the eclipses occur. Remember that eclipses take 6 months to a year to play out and a lot can happen during their cycles. **Mercury the messenger is completing a fast transit in Cancer through June 26th emphasizing family matters, reunions, social gatherings and food management before moving to Leo and turning retrograde at 4° Leo on July 7 and then moving back to Cancer on July 20, where** it stays during the rest of Cancer's cycle and moves direct on July 31st at 11:58 PM EDT. Be prepared to alter plans, travel, deadlines and appointment schedules. Currently, four retrograde planets are traveling the heavens - Jupiter, Saturn, Neptune and Pluto, to be joined by Mercury on July 7. Check appointments and proofread documents on June 21-26 when Mars makes hard aspects to Mercury. **Venus travels in Gemini until July 4th and moves into Cancer** through the remainder of the Cancer cycle. The vibes are celebratory and call for fun, parties, romance and sociable connections especially if you have Venus or other planets in these signs. **Mars occupies Cancer until July 2nd and moves to Leo for the remainder of the Cancer cycle and promises good humor, playtime, passion and games for those clamoring for a work break.** Look at your chart to see where these two signs are present and examine ways to go after your heart's desire. Mars creates positive aspects to Mercury until Mercury goes retrograde on July 7 and alters the pace of your momentum. Watch the world stage with this aspect which could set the stage for shifts in agreements, political ideology and control. Avoid those who stretch the truth. If you have this conjunction in your chart, avoid conflict with others. **Jupiter is retrograde in Sagittarius and will go direct in August** while positively affecting Sagittarians born December 6-9; Leos born August 8-11, Aries born April 4-7, Libras born October 8-12 and Aquarius born February 4-7. Those experiencing challenges include Pisces born March 3-6, Geminis born June 6-9, and Virgos born September 7-11. Jupiter travels in a hard aspect to Neptune this month reminding us to avoid public or political deception and to review facts carefully before making decisions. **Saturn in Capricorn travels near the Moon's South Node as it nears the eclipse degree occurring on July 16. Saturn is in retrograde motion affecting those of you born January 6-11 as well as cardinal signs Aries, Cancer and Libra born with Sun, Moon or planets at 15-19 degrees of these signs.** You feel the effects if you are a member of these signs and have planets on these degrees. Cardinal signs are in the spotlight now with the number of cardinal planets in opposition or square to one another. The first eclipse in the emerging cycle falls in Cancer on July 2. Make domestic decisions wisely and communicate clearly avoiding emotional outbursts. Gravitate toward activities that bring joy to family situations. Core issues come up for examination and call for solutions especially if you are born January 6-11. Work with intuitive insight that accompanies a favorable transit from Neptune. Keep an eye on medical and physical ailments that affect mobility and need attention. Let go of the past to find peace of mind. **Uranus in Taurus travels over the 5th and 6th degrees this month giving your mind or plans a good jolt if you take things for granted.** Taurus born April 25-28 are most affected now as are Aquarians born January 24-27, Leos born July

28-31 and Scorpios born October 28-30 with Uranus in hard aspect. Expect unforeseen circumstances to occur related to banks, answering services, household and garden maintenance including appliances, social media programs, mechanical equipment, cars, travel plans and your daily routine. Contacts may seem hard to reach. On a positive note, Uranus now works well with Cancer, Virgo, Capricorn and Pisces individuals born with planets at 5-6 degrees this month. Harmonious signs benefit creativity, innovation and unique ideas. **Neptune goes retrograde in Pisces on June 21 and goes direct on November 27; those born March 8-10 feel it the strongest this month; also affected positively are Cancers, Capricorns, Scorpios and Taurus born with planets around 18 degrees of their signs.** If you are a mutable sign, Gemini, Virgo, Sagittarius or Pisces born with planets at 18 degrees of your sign, be cautious when signing papers, considering major purchases, negotiating agreements or entering new relationships. Thoroughly check details of proposals that sound too good to be true. Love at first sight, while romantic, may be a pipe dream - ask questions. Intuition and psychic vibes could be sky high with this conjunction. You may want to get into police or detective work because your brilliant deductions hit the nail on the head. Record your dreams and see how they make sense in your world. **Pluto in Capricorn is retrograde through October 3.** This month it hovers around the 22nd to 21st degrees and most affects Capricorns born January 11-14; Aries born April 10-13, Cancers born July 13-16, and Libras born October 14-17. Review Capricorn's house in your chart to note where Pluto is traveling and identify what makes you feel stuck. Pluto is most powerful around the July 16 eclipse which connects with the degrees Pluto is now transiting. Table major decisions either right before or for at least a week after the eclipse - you'll find that vital information is missing that is crucial to your plans. Select dates for surgery carefully. **Chiron in Aries is direct until July 9 when it moves into retrograde motion. Right now it affects the charts of Aries born March 25-27 and challenges you to find answers to persistent dilemmas.** You may have painful memories rattling around in your brain. Use quality time to create a positive state of mind and environment for assessing old wounds and visualizing the ideal healing conditions. You love freedom, so let go, experience release and embrace joy.

PEOPLE, PLACES, EVENTS, AND TOPICS IN THE NEWS

The Gemini newsletter generated several comments on current events, the new baby in the Royal Family, activity in our government and questions about the players on the world stage. Many readers enjoyed the information about James Holzhauer, Doris Day and the American Idol Show.

Venezuela: This country has been dominating the headlines in 2019 since the January 5th eclipse and transiting Saturn in Capricorn opposed its Cancer sun. The upcoming July 2 eclipse is conjunct its natal Sun listed as July 5, 1811. The battle for leadership plays out between President Nicolas Maduro and his opponent Juan Guaido (who declared himself the national leader in January 2019 and was supported by 50

countries including the U.S. while Russia and China continue to back Maduro) in the timeframe through next spring. Hyperinflation is plaguing the national economy causing many citizens to flee the country for other South American nations, the U.S. and Spain. Stay tuned.

Gloria Vanderbilt Cooper: This talented artist, fashion designer, actress, author, heiress, and much married socialite was born on February 20 in New York City and died on June 17 surrounded by family and friends. In the 30's she was known as "the poor little rich girl" in a bitter custody battle between her globe-trotting mother and matriarchal aunt, Gertrude Vanderbilt Whitney, who was granted custody of her niece. Gloria is the mother of CNN anchor, Anderson Cooper. She claimed her only successful marriage was to his father, Wyatt Cooper. Many of us buy and wear her trendy jeans, the fashion item everyone wanted to own when they made their debut in the 1970's. Ms. Vanderbilt died of advanced stomach Cancer. Her natal chart shows Pluto in Cancer at 10+ degrees (slow growing cancer that was probably there for a long time), at the degree of the upcoming July 2 eclipse. Besides her talent in design and art, she acted on stage in several venues and on numerous television shows and wrote books. The world will miss this talented icon.

Cancer Women in 2020 Presidential Race: One of the latest entrants to the race among Democrats is **Marianne Williamson**, a Cancer born July 8 who aspires to create a new political possibility that elevates the standards of American democracy. Ms. Williamson is an American author (13 books), lecturer and activist who was born with a powerful Uranus, Sun, Venus conjunction in Cancer, the Moon in late Capricorn, Jupiter in Taurus, several planets or points in Leo and Libra and passionate Mars in Scorpio. **Elizabeth Warren** is another Cancer born June 22 also with a Uranus, Sun, Part of Fortune conjunction in Cancer, Juno and Venus in Cancer, the Moon in Taurus, Mars and Mercury in Gemini (communication), a Leo Ascendant with Pallas and Pluto in Cancer, Saturn and Ceres in the 1st House in Virgo and Jupiter in Aquarius in her 6th House of daily activity. She is potently qualified as a financial advocate with her fine analytical mind and thorough study of issues. Senator Warren read the entire eye-opening Mueller Report. Her chart shows increased visibility unfolding in the next few years making her a leading candidate for the race. Stay tuned to next week's Presidential debates.

READERS' CORNER

Thank you for the many questions, feedback and comments you sent during the past month highlighting the woman who wanted help on solving problems affiliated with in-law visits that lasted a month or more at a time. Several individuals discussed similar dilemmas. Readers asked for more problems that cover workplace, relationship and real estate issues. I'm glad you enjoy this section. Here are this month's queries.

Q. I am a Cancer born July 4. At the time of my 2014 birthday consultation with you, you told me that I was experiencing a Pluto opposition to my Sun and that this would not happen again in my lifetime. Why is that? The problems lasted all year and some are still around. You also mentioned that I have the Moon in Capricorn that would experience Pluto effects. The issues I have had relate to my health and relationships. I seem to be dealing with more of the same this year. I have also read

that the U.S. is experiencing a Pluto return. Please explain the importance of Pluto. Thank you.

A. Pluto transits bring up matters that have become stagnant in our lives, that we may be ignoring, and need attention. Pluto is a slow moving planet. It can take from 12-20 years to get through one sign, so an entire Pluto cycle takes approximately 248 years to move through every sign. Pluto is in Capricorn now and moved into this sign January 26, 2008 (teaser entry and moved retrograde back into Sagittarius) before its ultimate entry on November 27, 2008. Pluto will finally leave Capricorn on November 20, 2024. This planet spends six months of each year in retrograde motion and moves only about 3 degrees per year, which is why it takes so long to move through a sign and why you will never repeat these aspects in your lifetime once you complete this long cycle. The last time Pluto was in Capricorn was 1776, 233 years ago when America won her independence from England! Now Pluto is nearing the degree of the U.S. Pluto called a Pluto return and stirs the pot of foreign relations that need attention. In your chart, the first conjunction of Pluto to your Sun dropped hints to fix your physical body and get to the bottom of uncertainty in personal relationships. Now Pluto is on your natal Moon at the same time as the July 2 Solar eclipse nears the position of your Sun. Your emotions factor into these transits and the reality of what to do to release from unsatisfactory conditions plays out for the next year. Health matters have called for new routines, a change in medical practitioners and possibly surgery to correct long-standing conditions. Overall, both health and personal relationships are moving in more positive directions. You could move, too, in this year of change. Enjoy the shift that represents a new beginning.

CONFIDENTIAL TO POLITICAL DILEMMAS: You have a right to figure out that you no longer support the candidates you voted for in the past and have the option to change your political party affiliation. You do not owe any friends, colleagues or relatives an explanation as you rework your conscience and drop out of organizations that no longer represent your philosophy for governing. Since you decided that the current direction is too critical and mean-spirited rather than unifying, living in your truth matters most. In the coming months, you will meet and get to know individuals that are more compatible to your mindset. Learn all you can about emerging candidates. Then, be sure to vote!
