BIRTHDAY HIGHLIGHTS FOR SAGITTARIUS

Happy Birthday, Sagittarius! Your symbol is the Centaur, the sign of the Archer, the 3rd fire and 3rd mutable member of the Zodiac and natural ruler of the 9th House of the higher mind, religion, spirituality, the clergy, advanced education, law, publishing, in-laws, foreigners, religion, and travel to distant places. Jupiter rules your sign and leads you to a variety of adventures at home, at work, in sports and in distant places. Your color preferences are rich, deep colors like bottle green, dark blues, browns, and majestic purple shades. You enjoy stately trees such as birch, elm and oak that resonate with your sign. As a truth seeker you want to get to the bottom of things when you have questions and won't quit until you find out. Some call you "blunt" when you tell others exactly what you think, especially if they ask for your opinion. This year the Sun enters your sign on November 22 at 9:59 AM EST and leaves on December 21 at 11:20 PM EST a date which also coincides with the winter solstice. Most of the material in the following section also refers to individuals with Sagittarius on the Ascendant/Rising Sign.

Sagittarius, your birthday year starts out by wrapping up a year that played host to your signature planet, Jupiter, in Sagittarius. It started out on **November 9 for a year-long stay that ends on December 3 when the planet moves to Capricorn.** For the next few weeks, Jupiter occupies your 1st House of ambition, energy, innovation, planning, self, and projects that stimulate your mind and personal interests. This year you have been able to get in touch with your goals and add some meditation to the mix to fine-tune your vision. With Jupiter in your 1st House travel has been important and put you in touch with people of different cultures or in diverse countries. Diet could be a bit off so continue to monitor quantities or richness of food in this cycle. Savor the dreams that came true. **Jupiter in Capricorn visits your Solar 2nd House of assets, money, income streams, material goods, salary you earn and how you prefer to spend it and opportunities to sign up for enriching courses or degree programs with an eye on career advancement.** Jupiter resides here until December 20, 2020, along with Saturn and Pluto in Capricorn and could be your most active house in the coming year with that lineup. The transit could mean greater demands on your time and increased responsibility via promotion, reorganization or a new job. You could also be juggling schooling and a full-time job. You'll have a chance to revisit your budget and assess savings to verify the money is there to meet spending goals for goods or services. **With Saturn in Capricorn going full steam ahead in your 2nd House of income, resources, money you earn, assets and developmental opportunities, especially those that affect work and career, you are really short on down time and find responsibility increases since Jupiter joined the group, including eclipses that have affected the momentum in this house.** What can you do to minimize tension and a frenetic pace? Find ways to move forward at a progressive but not exhausting pace. **The pressure is on when Saturn visits your solar 2nd House and it will be here until December 17, 2020.** Those of you born from December 10-22 experience the most activity from this Saturn transit from now to the end of your 2020

cycle. Financial matters are at the core of your activity. You could be involved in looking for a new income stream, making career changes or applying for a new position; retirement could be an option and if you are already retired, you'll be looking at expenses vs. pension amount and may seek supplemental employment if you want more money to meet your living expenses. Sagittarius relishes higher education and often spends money on advanced degrees, certification programs, self-improvement and on-line coursework. Be sure to set some cash aside for emergencies. **Right now Uranus is retrograde in Taurus through January 1 in your solar 6th House of health, daily routines, fitness, nutrition, organization, colleague interactions, health and pets through the end of 2020 and beyond.** The influence of this transit is strongly on health and work place issues, so pay attention to what is happening related to these themes to be prepared. Be ready to initiate pending changes when Uranus moves direct and your movements strengthen your goals. Shift out of the rut and embrace new energy patterns. You have the prep time to manage any sudden shifts that come through regarding health, people and pets. Enjoy fulfillment in manageable ways. **Neptune in Pisces is in contact with your Sun if born December 9-16 while it moves through your solar 4th House of home, foundations, hearth, physical space, parents, family and real estate/land for the remainder of 2019 and throughout 2020. On November 27th,** this planet goes direct in motion after going retrograde on June 21. Stay clear-eyed and alert to bypass a Neptune blitz. This condition makes you go into a dreamy state or a fog since the aspect is hard on your Sun in Sagittarius. To experience less chaos, adjust your focus, clean your glasses and slow down to charge your intuition so that your mindset gets back in focus on reality about people, in your romantic or work life, your health providers and your daily routine. Your sign experiences the hard aspect called the square during the next year if you were born on any of the dates mentioned above. Enjoy attracting spiritual energy to your auric field to gain greater insight about yourself, family, and individuals connected to your home. Address any illusions about who they are, what makes them tick and what has you confused about the relationships. Neptune in this house calls attention to energy in the physical environment when toxic materials are present; be sure to control them if you suspect they exist. Let no one in your base of operation disrupt your equilibrium. You don't like feeling out of control and that sometimes happens when Neptune occupies the 4th house. Find peace, create positive energy and let joy enter your home environment. Host parties or expand your social circle inviting warm, caring individuals to visit. Savor new inspirations as they unfold! Enjoy the lightness. **After spending the last 10 years in Capricorn, Pluto continues to move forward in your solar 2nd House of income, resources, values, assets, self-development, and how you desire to earn your living; it now affects those of you born December 12-17 through the rest of 2019 and all of 2020. Slow-moving Pluto advances only 3 degrees a year since it turns retrograde for 6 out of 12 months and will do so again on April 25. Examine your finances while Pluto is in aspect to your Sun.** A 2nd house Pluto transit usually calls for a thorough examination of your budget and debt consolidation. With Saturn also transiting this house, along with another two eclipses, you'll get several hints about taking care of spending and keeping plans current. While Sagittarius loves to spend money and take a few financial risks, Capricorn reminds you that you have to pay back the mounting debt when your binge is over. Be very discreet. Get in touch with what has meaning for you to make sure your life goals represent your desires. Enjoy recreational pursuits, which keep you young in spirit and fit in body as long as they don't strain your pocketbook. New

kindred spirits connect with your style and escalate the flow of chemistry. Embrace those who hold similar values and exude rapport. Exciting adventures unfold in 2020.

Eclipses strongly affect communication and travel this year. **The start of your 2019 birthday cycle began with the July 2 solar eclipse in Cancer in your solar 8th House of joint income, debts, mortgage loans, sex, birth, death, income from new sources, investments, wills, goods of the dead, and deep psychological matters. This eclipse wraps up on January 10, 2020.** It served as a challenge to you to keep your debt load manageable. Relevant circumstances may call for an immediate sale of real estate or property, goods of the deceased, a cut in income as a reason to pare down debt; investments may not pay off forcing a sale to cut your losses; criminal activity or security breaches affect accounts, a partner's work layoff occurs; or an inheritance arrives that changes your life. **The 4th eclipse of 2019 occurred in Capricorn on July 16th, a lunar eclipse in your solar 2nd House of income streams, how you want to make a living, mortgage and personal loans, goods of the dead, your psyche, birth, death, sex and regeneration. What circumstances are driving activity in your household?** This eclipse plays out until December 26 when the final solar eclipse of 2019 falls in Capricorn in this house. You may find a reason to seek legal or financial counsel. Pick dates wisely for court appearances. Keep excellent records and gather details. As soon as you can catch your breath make changes that give you greater freedom from financial burdens. Some Sagittarians have complex spiritual experiences. Nurture the space and energy in your home. Research you started early in 2018 pays off. Create shortcuts and organize your routines for maximum efficiency. **The final solar eclipse of 2019 occurs on December 26 in pragmatic Capricorn, again in your solar 2nd house of earned income, resources, spending habits and personal development.** What irons do you have in the fire for 2020 regarding how you make your money and how likely are you to change jobs? **You'll get yet another eclipse hit in the 2nd House on July 5, 2020 this one a lunar eclipse in Capricorn** and that one will end the Capricorn-Cancer eclipse cycle that has been present in your life for the last two years. You could make some profound statements about how you want to deal with income, and how you want to earn it in coming years that could shock those close to you. Think things through and seek advice. When you least expect it, you the solutions are there for the taking. A total of 6 eclipses occur in 2020. **The first lunar eclipse of 2020 occurs on January 10th in Cancer 20°@ 00' in your solar 8th House of joint income, debts, mortgage loans, sex, birth, death, income from new sources, investments, wills, goods of the dead, and deep psychological matters. This lunar eclipse wraps up on June 21, 2020 at 00°@ 00' when the first Solar Eclipse of the year takes place in sync with the summer solstice.** You hear surprising information related to income streams of you or your partner, family members health including surgery, or the quality of communication regarding funds management and distribution of assets. Have a solid financial plan in place. It is very magnanimous of you to surprise someone with a financial gift and speak the language of the Law of Abundance. Don't allow others to foist their debt load on you. Suggest counsel for those who are not objective about eliminating debt. If you are selling a home, wait to buy a new one. Sit on your cash until your vision materializes and circumstances are right. Embrace renewal. **The second lunar eclipse of 2020 occurs on June 5 in Sagittarius in your solar 1st House of action, excitement, implementation, inspiration, planning and passion.** Note that a new eclipse pattern begins with this sign shift and opens up your possibilities for exciting experiences over the next two years. Eclipses here relate to emerging

enterprises, body changes, responsiveness to ideas of your higher mind; bucket list journeys, and insight for turning your developing plans into successful accomplishments. Sagittarius, target change carefully, make travel part of the picture balance it with restful down time. Regroup after challenging schedule changes and stick with desired plans. **Two end-of-year eclipses occur during next year's Sagittarius cycle that I will cover in the 2020 newsletter. One takes place on November 30, a lunar eclipse in Gemini in your solar 7th House of partners, and two weeks later, a Solar Eclipse occurs in Sagittarius on December 14 in your solar 1st House.** These passages may also apply to those with a Sagittarius ascendant. Celebrate your birthday in adventurous style.

Kennedy, Jr., Robert Goulet, Jerry Ver Dorn, Tina Turner, Bruce Lee, Caroline Kennedy, Jimi Hendrix, Ed Harris, Jon Stewart, Garry Shandling, Christel Khalil, Ben Stiller, Bette Midler, Woody Allen, Britney Spears, Nelly Furtado, Melissa Archer, Monica Seles, Lucy Liu, Rena Sofer, Rick Savage, Randy Gardner, Dame Judi Dench, Richard Jenkins, Stone Phillips, Julie Harris, Steven Bauer, Joy Reid, Daryl Hannah, Julianne Moore, Jesse Metcalfe, Kara Dioguardi, Felicity Huffman, John Malkovich, Michael Nouri, Dick Butkis, Kirk Douglas, Jay-Z, Jeff Bridges, Steve Buscemi, Marisa Tomei, Dan Butler, Tyra Banks, Sinéad O'Connor, Beau Bridges, Taylor Swift, Donny Osmond, Dame Judi Dench, Kenneth Branagh, Christina Onassis, Teri Garr, Jamie Foxx, Patty Duke, Don Johnson, Taylor Swift, Adam Brody, Benjamin Bratt, Liv Ullman, Milla Jovovich, Brad Pitt, Katie Holmes, Keith Richards, Steven Spielberg, Christina Aguilera, Jake Gyllenhaal, Alyssa Milano, Jane Fonda, Kiefer Sutherland, Phil Donahue, Ray Romano, and Samuel L. PLANETS' POSITIONS FROM NOVEMBER 21-DECEMBER 21

Individuals on the planet, especially in the U.S. and those affected by weather disasters, out-of-control fires in California, political upheaval, warfare and mass killings, set their sights on a healthier world and yearn for an optimistic future. People with heavy transits and eclipse hits that have influenced the state of personal relationships desire balance and peace. Evidence of government mismanagement of the Constitution have surfaced in the news almost daily for months. Impeachment hearings are underway during Mercury retrograde, influenced by the transits of Uranus, Mars, Saturn and Pluto, highlighting how these planets are interacting in the U.S. chart and in the natal charts of those under scrutiny. As we approach the holidays and embrace the celebratory nature of the season, let's seek the truth, find solutions, address the rage that leads to faulty judgment and dissolve negative thinking patterns. Welcome the new year with a prosperity consciousness, fresh eyes and a kind heart. Visualize your future and take it in a positive direction.

Mercury just moved direct in Scorpio on the 20th after a 3-week retrograde period. A significant number of readers reported incidents that occurred during this cycle: important papers went missing temporarily, false alarms due to a smoking oven, power outages with no identification of the source, missing mail, confusing messages, computer malfunctions, delays in work productivity, canceled or rescheduled appointments. I hope you used this down time productively to shred unnecessary papers, clean out closets and files, work on projects already in progress and get ready for the holidays. You'll be glad you did. **Venus starts out in Sagittarius and quickly**

moves through Capricorn beginning November 26 where it remains during this cycle. You get the green light to move into a holiday spirit mindset by tackling your “to do” list and managing chores. The love planet moves to socially conscious Aquarius on December 20 and shares company with friends and groups. **Mars is in regeneration-oriented Scorpio** as we start your sign and looks for ways to lighten the spirit by engaging in entertainment venues, hosting gatherings, getting the house decorated and purchasing holiday foods and gifts. **Those of you born December 19-22 experience the last few degrees of Jupiter on your Sun which has brought you luck in money, love and adventure during the past year. As of December 3, Jupiter occupies Capricorn for the next year and affects individuals born December 22-26** through the end of this cycle who experience the conjunction of this benevolent planet - windfalls, bonuses, celebrations, lucky breaks and trips. An eclipse on December 26 at 4° vs shifts the direction of your life. Countries likely to be affected by upcoming eclipses are Libya, Saudi Arabia, and the Democratic Republic of the Congo with strong Capricorn and Cancer polarities. Watch the news. Reaping benefits now are those born from the 1st through 4th degree of water signs Scorpio and Pisces or the 1st - 4th degrees of Virgo and Taurus. If you are a Cancer born June 22-26, you may feel some opposition to plans due to others’ objections. Aries and Libra born with planets at 1-4 degrees meet a few financial challenges or contractual changes. Work out details, review plans and look optimistically ahead to the new year. **Saturn in its home sign, Capricorn since late 2017** most affects those born January 7-11 during this cycle. Schedule health checkups and follow a sound program for stabilizing physical stamina. Progressive vibes occur for those born May 6-10 and September 8-12, and favors Scorpios and Pisces born with planets at 17-19 degrees of your signs. Maximize the value of increased energy and passion for your favorite things. Saturn travels in favorable aspect to Neptune in Pisces giving a boost to cherished values, loving relationships, spiritual matters and your health. Those born April 5-9, July 8-12, and October 9-13 feel the effects of Saturn’s demands and look for ways to make adjustments. Globally, there is a strong urgency toward restoring order and trust and moving away from the political angst alienating nations that formerly held the U.S. in high esteem. Although old structures collapsed, replacement strategy brought more questions with little stability. One planet, **Uranus in Taurus**, is retrograde as we start this cycle and most affects Taurus born April 22-25; Cancers born July 22-24, Virgos born August 24-27 and Capricorns born December 23-25. Unusual changes in direction may occur to shake up your life or schedule. Individuals born around these dates benefit from unexpected boosts in relationships, recognition, rewards and surprises from meeting new people. Leos, Scorpios and Aquarius born with planets at 2-3 degrees of your signs experience challenges in these matters. Explore the source to restore balance. The early degrees of Jupiter in Capricorn make a beautiful trine aspect to Uranus in Taurus and manifest technological discoveries, inventions and entrepreneurial expansion. **Neptune is retrograde in Pisces** and goes direct on November 27th. Currently Neptune degrees most affect individuals favorably if born March 5-8, and those born July 6-9 and November 7-10 with insightful vibes and intuitive breakthroughs. Enjoy the peace and relaxation. Those born December 5-8, September 7-10 and June 6-9 meet with challenges stemming from hazy interpretation or poor judgment. Lingering issues need attention and emerge with little warning; thankfully, solid solutions emerge, and you embrace their merit. A Saturn-Neptune sextile this month has a mystical connotation that speaks to the humanitarian works of others who reach out to the less fortunate. Savor the caring, energizing vibes. Build meditation, visualization and yoga into your daily routine. Enjoy the attraction of

kindred spirits. **Pluto in Capricorn moves closer to transiting Saturn in Capricorn this month and prepares for the January 12 conjunction, a showdown of sorts, that makes accountability a household word.** World-wide interest in scenarios unfolding in the U.S. escalates. Never has there been a greater interest in getting at the truth. The rights of others come into play. Management practices come under scrutiny. New platforms emerge while Pluto digs deep for secrets and they continue to surface in the form of hearings, tell-all books, media appearances, behind-the-scenes research and activity, sudden exposure, competition, spy tactics, cybercrime and rumors. Pluto is strongly positioned in the USA chart and within 2 years the US will experience its Pluto return which I'll cover in future issues. On a personal level **Pluto joins the Suns of those born January 11-14** and penetrates the minds of those interested in making meaningful internal change while exposing ideas that benefit from rebirth. Many individuals let go of fear and toxic shame under this transit. Others challenged by this transit are Aries born April 9-12, Cancers born July 12-15 and Libras born October 14-17. Consult your astrologer for advice on emerging releases that are unfolding if your birth date is among those cited. Enjoy freedom from old garbage and welcome the karma cleaners to rid your life of unnecessary burdens in the next year. **Chiron in Aries** is retrograde and moves in direct motion on December 13. This planetoid most affects Aries born March 20-22, revealing the secrets to letting go of old resentments that pop up in every day chatter as well as in mental space. Release is imminent to heal the pain in your mind, body and spirit! Examine what makes you whole. Good deeds benefit humanity and allow inner balance and energy to blossom. Wherever Aries falls in your chart you have options for creating a desirable picture and making your dreams a reality. Celebrate the passion you bring to social and financial successes. When you connect with others on a higher plane, you make lasting peace. May the holiday season bring a caring environment and give you a reason to smile. Cheers to the quality of life.

PEOPLE, PLACES AND TOPICS IN THE NEWS

Several readers asked about the impeachment hearings and the many players who are making appearances as witnesses or officials conducting the presentation of information. I cannot possibly cover all the birth dates of those appearing in this space. Here are a few highlights involving the hearings and others in the news.

The Final Four on Dancing with the Stars: Once again we move to Sagittarius just ahead of the finale of this Season 28 competition with 4 contestants remaining to compete on November 25. Several very talented dancers have captured votes and remain in the competition: **Cancer** Ally Brooke and her partner **Taurus** Sasha Farber, **Libra** Hannah Brown and her partner **Gemini** Alan Bernsten, **Scorpio** Lauren Alaina and her partner **Virgo** Gleb Savchenko, and **Virgo** Kel Mitchell and his **Libra** partner, Witney Carson. So far, the strongest scores have gone to Ally Brooke, Kel Mitchell, and Hannah Brown. One of these talented individuals will be the champion and winner of

the coveted Mirror Ball trophy. Congratulations to all who made it to the finals and to the professional dancers, judges, hosts and crew who keep quality entertainment alive. Which of these pairs holds the key to success? Vote for your favorite! **Note:** a high level of disappointment was expressed over the elimination of James Van Der Beek on November 18 via judges' choice to save one of the bottom two contestants. The judges and Ally Brooke were severely criticized. None of them deserved the blame. Both Ally and James are the most talented dancers on the show. James had just experienced a sad personal event when his wife lost the baby she was carrying, and he had a somewhat weak night on the dance floor. Viewers of DWTS have a strong say in selecting the winner and their vote drives the results. Sometimes popularity has a hand in the outcome as voters select their favorites. Neither James nor Ally should have been in the bottom two if talent was the guiding factor. Not everyone votes for the best. Perhaps the show will find a way to modify the voting structure.

Gordon Sondland: Trump faces allegations that he was going to withhold U.S. military assistance from Ukraine to place pressure on Kiev to investigate his potential Democratic rival in next year's U.S. presidential election. Sondland, the United States Ambassador to the European Union gave testimony on November 20 at the impeachment hearing centering on his knowledge of the Trump administration's attempt to bribe the president of the Ukraine into interfering with the 2020 election by looking at presidential rival Joe Biden's son Hunter's work with Burisma, a company based in the Ukraine along with irregularities in the 2016 election campaign. The President told President Zelensky to announce that he was investigating Biden, his son and the election and allegedly advised the Ukraine that they would not be receiving already obligated funds for military aid unless he did what the U.S. requested - the infamous quid pro quo. I suggest you read the details in various news organs that gather background information about all the individuals involved, including many whose names are coming up in these hearings. **Ambassador Sondland is a Cancer born July 16 in Seattle with a stellium of planets in Leo, the sign of the executive.** The most telling aspect I see is that he has Pallas (the truth teller) in Taurus and on the day of his testimony, transiting Uranus in Taurus was exactly on this 3° position in his chart. He named several members of the administration as being part of the action in the Ukraine demands. **Marie Yovanovitch, former Ambassador to the Ukraine,** testified on November 15 that she was fired after she was falsely smeared in a campaign waged by Rudy Giuliani to discredit her reputation after a successful 30-year career in government. She is a Scorpio born November 11 in Montreal. Transiting Uranus (jolts out of the blue) in Taurus is opposing her Neptune in Scorpio (skewed information that makes one feel helpless due to inflicted damage for which one is not prepared). **Alexander Vindman, a lieutenant colonel who listened to the July 25 phone call between Donald Trump and new Ukraine President Zelensky** and testified on November 19 that he "thought it was not proper to demand that a foreign government investigate a U.S. citizen," and worried about the implications for the U.S. government's support of the Ukraine. Vindman is a Gemini born June 6 in Kiev, Ukraine. He has a stellium of planets in Aries, including Mars, Jupiter, Chiron and the Moon, a sign of one disposed to a military career. Currently, Saturn in Capricorn is opposing his natal Saturn in Cancer in a T-square with Jupiter in Aries aggravating the depth of inner conflicts. Finally, **the House Intelligence Committee Chair, Adam Schiff, representing California's 28th District and presiding over the impeachment hearings is a Cancer born June 22 in Framingham, MA.** His chart shows Venus, Sun, Dark Moon Lilith and Mercury in Cancer (retentive memory skills), Moon in Gemini

(eloquent speaker) Saturn in Capricorn and Jupiter in Sagittarius, which, as I write this Schiff is experiencing a Jupiter return while he successfully covers a lot of ground at the hearings. Transiting Uranus in Taurus is right on his natal Mars in Taurus and opposing natal Neptune in Scorpio showing the need to use his superior analytical skills as he pours over copious amounts of testimony. More to come.

READER'S CORNER

Several readers commented on the woman who carpoled to college classes with a co-worker over the objections of her boyfriend. They suggested the arrangement was a good one and hoped the woman would show her significant other how much sense it makes to have a safe and economical solution to commuting. Sometimes all it takes is a change in routine to take a closer look at relationships. Here's a new perspective on relocating for a new position.

Q. I am a Sagittarius born December 20th and recently applied for a job in another city that I never thought I would get. I received a phone call on November 8 and a letter with a job offer on November 12 and will be moving in January if I accept. Mercury is retrograde as I write this, and I know that is not a good time for accepting a new position. What can you tell me about the timing of this change and whether it will be successful? Which aspects in my chart are driving the move? Did I do the right thing by agreeing to a video conference with my new boss and key staff on the 25th? The job sounds like it is right in my wheelhouse. I appreciate your advice and counsel.

A. So glad that you understand astrology enough to know that Mercury retrograde may create delays or confusion over timing of events. When you apply for any position, you have no way of knowing when hiring parties complete reviews of candidates so that offers can go out to those best qualified for the job. Even if Mercury is retrograde, it is never a good idea to procrastinate once you receive an offer because your inaction may be construed as a lack of interest. As I look at your natal planets, I can see why you have an edge in getting this job - glad you accepted. You have Jupiter in Sagittarius on your Sun until December 3, and Jupiter is moving through your natal 4th House of home and foundation, often an indicator that you will relocate. You were born with Mercury and Venus in Capricorn which fall in your 5th House of adventure, social life, risk-taking, entrepreneurial activity and romance. Your 5th House has been the location of eclipses since January and will continue to host another one in December and in 2020. The July 16 eclipse at 24 Capricorn fell on Mercury-Venus in the sign and shows you have a very engaging communication style, perfect for the new job. Before long, you may introduce some innovative practices to the team you're joining. The December 26 eclipse falls in this house but makes no aspects to your planets. Two weeks later, you'll experience an opposition eclipse on January 10 in Cancer at 20 degrees in your 11th House of friends and associates. What a nice position for making new acquaintances and joining professional groups in your new location. Your Virgo Ascendant is in harmonious aspect to both the January eclipse and your natal planets in the 5th House. I give these changes a thumbs up and hope you start planning a house hunting trip after your video conference so you can learn more about the new location. I wish you much success in your work and a happy life in the new town.

Thank you to all who sent in questions and comments about last month's newsletter. I'm glad you enjoyed the Scorpio issue and welcome your thoughts once again.
