**Cyber threats** menace many users receiving scam mail that says their orders are being filled, that their order has been received, and they are charging a credit card for the goods (not true), and will be processed or arrive on a specific date. Send this straight to SPAM. As a precaution, you might check with your card provider to make sure, but chances are, your message did not even mention a specific card - all

designed to get you to answer to obtain personal information. Don't click on anything or call a number the scammers supply. If the mail lists a vendor you do business with, contact the vendor to report the ruse. Ask vendors to secure deliveries and keep neighborhood stalker thieves at bay. Invest in a security system, especially those with cameras to monitor visitors to your home or place of business. Be sure electronic devices are safe from data theft. Change passwords to ensure integrity. Phone phishing scams are back with perpetrators pretending to be from the IRS, charities, Medicare, and Social Security. The scammer wants you to think they are "legitimate" in the message they are sending. Never send or respond to chain mail; send to SPAM. Phone calls: Hang up ASAP.

## CANCER and THE YEAR AHEAD

**Happy Birthday, Cancer!** You are the first Water Sun Sign in the Zodiac, and the Moon is the natural ruler of the 4<sup>th</sup> House of home and family, people who live with you, foundations, and the heart of domestic activity, what your home's vibration feels like, base of operations, household matters including decorating, design, renovation, and real estate; mother and sometimes father, your sixth sense, gardening, landscaping or plants, and your emotional temperature along with how you respond to others' plights. This section of the chart highlights parts of your life and personality that describe how you interact with family members, work through issues, and solve related problems; what you like to do around the house; people you connect with in the home; how you prepare meals and what you eat; cooking skills and kitchen equipment. You express love via making favorite treats in the oven. Many Cancers are natural chefs and enjoy cooking. In contrast, some of them claim they can count on one hand how often they use the oven in a given year. When a Cancer has a kitchen located in the front of the house, chances are they eat out frequently. Born under the sign of the Crab, you are both a water sign and the second action-oriented Cardinal sign fulfilling your mission to explore and share the depth of your feelings that may be repressed due to shyness or stemming from emotional wounding. With the Moon as your ruler, and its house location and sign in your chart, you'll gain insight into how your personality manifests. Impeccable work habits aid you in fulfilling goals. Look for indicators of what makes you unusually sensitive. You'll crawl into your shell to avoid confrontations or addressing how you are hurting, and toxic people who stifle you. Your excellent memory is one of your most treasured assets. **This year the Sun enters Cancer on June 21 at 5:14 AM EDT and leaves on July 22 at 4:07 PM EDT.**

Jupiter is the benevolent planet that has dominance over areas where you feel adventurous, enthusiastic, expansive, prosperous, and ready for travel. Early in the year, Jupiter swept through your solar 9<sup>th</sup> house in Pisces. As we enter your Sun sign territory **Jupiter resides in Aries and will turn retrograde on July 28 at 8 degrees of Aries while it moves through your solar 10<sup>th</sup> House of responsibility and authority, most likely stimulating your appetite for a career change, a promotion, raise, a significant shift in duties, or a change in the status quo related to family.** By October 28, retrograde Jupiter makes it back to Pisces and your solar ninth house of **the higher mind, advanced education, in-laws, foreigners and their cultures, long-distance travel, philosophy, religion, publishing, and writing.** The planet of optimism started out on December 20 in Pisces offering you a taste of what is to come in 2022. Jupiter lived up to its love of travel this year occupying two signs and two houses. The planet of riches goes direct on November 23 EDT. **Those of you born June 21-July 22 feel the impact of Jupiter in Pisces at various times this year. Be**

aware of the shifts in schedules and travel plans and recognize the need to adjust routines, assess relationships or slow down the pace of projects to address the Big Picture while Jupiter is in Pisces. You could also benefit through unexpected gifts or trips involving people at a distance. You may take a long-desired vacation. From May 10-October 28 those of you born June 21-July 1 feel the greatest impact from personal responsibility while Jupiter is in early degrees of Aries. Enjoy the benefits from raises, recognition, and career accomplishments during this developing period. They will escalate in 2023. **Saturn occupies Aquarius this year and most affects you if you are born July 2-19 in your solar 8<sup>th</sup> House. Right now, Saturn is retrograde until October 23 and gives abundant clues about what aspects of finance, debt, and investment needs work over the next year.** Saturn highlights restrictions and responsibility. If there is anything you're planning to accomplish related to debt management, now is the time to develop a viable strategy, either eliminating it or taking on new debt such as a mortgage or construction loan. Certain areas of your life are complex now especially in the aftermath of the lingering fallout of Coronavirus that may affect both you and your partner. Get a handle on delays and reorganize financial priorities at home and at work. Be patient yet objective and seek expertise if you need assistance. Schedule leisure time and enjoy social activities to take a break from workaholic tendencies. Eliminate rigid patterns you may have developed while you cultivate a clearer perspective and tweak goals that enhance success. Don't take on another's debt. Purchase goods and big ticket items during non-retrograde periods. Validate decisions and timelines by keeping your astrologer, attorneys, advisors, and subject matter specialists on speed dial when critical situations occur. **Uranus in Taurus travels through your Solar 11<sup>th</sup> House of associations, friendships, groups, organizations, goals, hopes and wishes.** Cancers born July 1-12 will be busier than ever and will feel the most impact from Uranus this year as you examine choices regarding long-term career, personal, and professional goals. Exert independence, assess memberships in associations, groups, and friendships, and expand contacts. Enjoy the benefits of inspiring and positive relationships. Pursue your cherished dreams to use your talent and let wisdom display your strengths. Renew connections with mentors and special friends. You may have benefited from Jupiter's compatible presence in Pisces and received a raise when Jupiter moved to Aries as a result of your outstanding contributions to restore equilibrium in the workplace. New conditions such as the price of gasoline may curb personal and business travel suggesting you use more Face Time or Zoom meetings in lieu of using expensive resources to do business. Uranus abruptly demands action, sometimes ignoring others' feelings when quick action is needed - neither a Cancer nor a Taurus trait. Money disagreements are more quickly resolved with your employer's resources in a solvent position to fund improvements. If you have planets from the 10<sup>th</sup>-18<sup>th</sup> degrees of Cancer, Virgo, Taurus, or Capricorn, you'll experience the benefits of the unpredictable and spontaneous Uranus energy. Take note of where the fixed sign eclipses in Taurus and Scorpio hit your chart this year and analyze choices, assessing how they affect your values. Stay calm by practicing yoga, deep breathing, meditation, and exercise to lower your blood pressure and create clearer space. Uranus occupies Taurus exclusively during 2022-2023 and goes retrograde from August 24 through January 22, 2023. Ignite the power of your cherished goals. **Neptune resides in its home sign, Pisces, and compatibly syncs with your Cancer Sun, now turning retrograde from June 28-December 3 in your solar 9<sup>th</sup> House** of the higher mind, advanced education, journalism, accelerated business plans, foreigners, medical and legal specialists, politics, publishing, in-laws, long-distance travel, and spirituality where it will remain until 2025. This year's

transits are especially meaningful to those of you born July 12-19 with planets at 20-25 degrees that highlight life's deeper spiritual and philosophical perspectives. Cancers savor getaways to water destinations and will eagerly pack their bags when lifted restrictions signal that it's safe to travel and your intuitive vibes say "go". Trips to the beach, lake, sharing seaside meals, cruises, or dramatic waterfall settings attract you. Many of you benefit at last from much-delayed reunions with relatives, schoolmates, soul mates and long lost friends. Higher education and foreign travel expand desirable communication options. Eliminate confusing information by engaging both inner and outer insight to validate or reject what you learn. Change routines and internalize new directions. The primary benefit of this Neptune transit accelerates psychic and intuitive ability. Creativity flows with Neptune's presence and opens your understanding of reflection and the dream state. Let go of energy-eating co-dependent relationships and disengage from ungrateful people who don't even thank you for your caring gestures. Use professional guidance to pursue career, educational, and lifestyle matters. Plan get-togethers or celebrations with friends and family. **Pluto in Capricorn (now retrograde in motion until October 8) connects with Cancers born July 17-22 in your solar 7<sup>th</sup> House of business, personal and romantic partners, medical practitioners and advisors, roommates, collaborators, the public, consultants, and legal practitioners.** How are you addressing pressing issues related to personal and business partnerships that are motivating you to make changes that bring relief? What are you learning about new people entering your circle and those that are already present? Challenges may revolve around intimacy, shared roles, responsibilities, social interactions, and how skillful you are at managing business matters. You have been dealing with the karma cleaners associated with Pluto for 14 years, a long time to juggle any lingering stress related to important relationships. Now is the time to let go of them and assess the value of actions you have taken. You'll have to address existing conditions if you are already in a relationship that is making you miserable. Stop holding in the pain and embrace decision-making. Partnerships are multi-layered and so is Pluto. Slow and steady does it in terms of letting go. Pluto prefers regeneration encouraging you to heal, find satisfying work, and enjoy fulfilling relationships. If you are a Cancer born with the Sun and some planets in the other Cardinal signs, Capricorn, Libra, or Aries from the 25<sup>th</sup> to the 28<sup>th</sup> + degrees, you will experience amazing insight when Pluto's challenging aspects occur. Check with your astrologer to understand the conditions evolving in your chart. With **Pluto in Capricorn** moving through your 7<sup>th</sup> House your goal is to attract positive attention, find personal happiness and stability in relationships and drop partners who stifle independence. Review your life goals and prod your tender Cancer heart toward a more fulfilling path. Enjoy benefits with those you love, cherish them, and have fun along the way. Pluto goes direct on October 8, 2022.

Sudden blow-ups may occur that send you packing if you have been doubting your continued allegiance to the group. Look for solid, new relationships entering your life as you embrace new avenues to strengthen connections and expand networks. Pay attention to any wake-up calls that tell you these associations are no longer viable. Develop goals and philosophies that give you awareness of the direction you want to follow in the coming year. Put your name in the hat if you’re ready to take on a new assignment or leadership role. Decide where you want to be in the coming year. Schedule an appointment with your astrologer for a deeper look at the opportunities that affect your work and leisure time during the coming year. Activity in this house continues through mid-May of 2023. Enjoy the efficiency.

The first solar eclipse of 2023 takes place on April 20 at 12:13 AM EDT in Aries at 29°♈ 50’ in your solar tenth house of career, ambition, authority, recognition for achievements, organizational matters, and the status quo.** When an eclipse lands in this house you often receive reminders to adhere to commitments or forge new ones with compatible sources. ## THE PLANETS' ACTIVITY JUNE 21-July 22, 2022

**The Summer Solstice occurs on June 21 at 5:14 AM EDT, the longest day of the year.** The Moon in Aries is conjunct Jupiter in Aries and Mercury in Gemini and in harmonious aspect on the 21<sup>st</sup>. The week starts off on a very upbeat note and exudes harmony making it a great time to meet up with friends and loved ones or pursue romantic interests. Monday's sextile between Mercury and Jupiter in Pisces gets positive support from the Moon in Pisces conjunct sexy Neptune and soulful, serious Pluto in Capricorn. Outer planet Uranus is along for a harmonious ride nudging Venus to join the circle and see what it is like to have a good time. Continue the momentum through the 26<sup>th</sup> before you head back to the work scene and real world demands. The U.S. is a Cancer country feeling intense pressure. Keep your eye on the shifting conditions affecting our Nation noting where conflicts occur world-wide and how they continue to affect us. Eclipses take 6 months to a year to play out and a lot can happen during their cycles. The two that occurred on April 30 and May 16 are the last until October and November. **Mercury the messenger planet is in Gemini, its natural home planet through July 5 when it moves rapidly through Cancer before finishing the cycle in early Leo starting July 19.** Take advantage of smooth transitions for meetings, finishing up assignments, and laying the groundwork for a vacation cycle when Mercury trines Saturn ahead of the Moon opposition to Saturn late on the 2nd. Three planets are retrograde in the heavens - Saturn, Neptune, and Pluto, to be joined by Jupiter on July 28. Finish work on projects you already started. **Venus enters Gemini on June 22 and moves to Cancer on July 17 through the remainder of the**

**Cancer period.** The vibes are socially-oriented and celebratory, perfect for fun, parties, romance, and special connections especially if you have Venus or other planets in these signs. **Mars occupies Aries, the sign of its ruler until July 5<sup>th</sup> through the end of July bringing high energy, assertiveness, adventure, and humor to those of you looking for a break from boring routines.** Note where these two signs are present in your chart and schedule favorite events. Avoid strained interactions, impulsiveness, or arguments. Watch the planet of war as it acts on the world stage with its plethora of fractured agreements, incompatible political ideology, and confusing communication. Avoid flighty fibbers. If you have Mars in a strong aspect to any planets in your chart, steer clear of testy individuals. Mars leaves Taurus after mid-August. Use its stable energy to wrap up projects and take time for vacation in July or August. Others cooperate when the environment is steady. **Jupiter is retrograde in early Aries during this cycle and most affects Aries - March 26-30, Gemini - May 27-11, Cancer - June 27-July 1, Virgo - August 27-September 2, Scorpio - October 29-November 2, Sagittarius - November 28-December 2, Capricorn - December 27-31, and Aquarius January 26-29, all born at 6 to 8 degrees of their signs.** Aspects for the fire and air signs are harmonious; those for water or earth are challenging. Jupiter changes signs, back to Pisces in October where it shows compatible interaction with Neptune. This month stay in touch with your spiritual insight and enjoy the creative expression of art, entertainment, and music. Analyze facts carefully before making decisions. **Saturn in Aquarius travels over the 24<sup>th</sup> and 23<sup>rd</sup> degrees in retrograde motion this month most affecting those of you born February 11-14, May 13-16, August 15-18, and November 15-18 by sending hard aspects your way. Saturn favorably affects fire signs Aries, Leo, and Sagittarius and air signs Gemini and Libra born with Sun, Moon, or planets at 23-24 degrees of these signs.** You feel the effects if you are a member of these signs and have planets on these degrees. Fixed signs are in the spotlight now with a number of planets in opposition, square or conjunct one another as well as the interaction with the 2022 eclipses in Scorpio and Taurus. Examine challenges and trouble spots. Then select workable solutions ensuring those involved that all opinions counted and received consideration in your decision-making exercise. Show cooperation and logic on the 7<sup>th</sup>, speak up on the 17<sup>th</sup>, and share your intuitive savvy for the rest of the Cancer period.

**Uranus in Taurus travels over the 17<sup>th</sup> and 18<sup>th</sup> degrees this month giving you bubbly energy when the Moon favors both Uranus and Neptune on the 30<sup>th</sup>. Steer clear of tension for the rest of the week though when Mars squares the Moon and Pluto in Capricorn which in turn opposes the Moon in late Cancer.** Individuals born with planets at 16-18 degrees of Taurus born May 6-10 are most affected now as are Aquarians born February 4-8, Leos born August -12, and Scorpions born November 8-12 with Uranus in hard aspect to your Suns. Release pent up anger that lingers over the holiday before the next weekend. Expect emotional frustration and a rebellious feeling either within you or emanating from those in your circle. Let it go by the 10<sup>th</sup> to enjoy the last day of the summer weekend. Venus squares Neptune and sparks disagreements over leisure time choices, money, and travel plans. Be discreet. Better vibrations occur when you keep the mood optimistic and focus on improving your attitude, appearance, and leisure time. Shop, purchase summer clothing, and enjoy your growing self-confidence. Uranus in Taurus harmonizes well with Cancer, Virgo, Capricorn, and Pisces individuals born with planets at 17-18 degrees of their signs this month. Be charitable. **Neptune goes retrograde early on June 28 at 25 degrees in**

**Pisces and goes direct on December 3; those born March 15-17 feel it the strongest this month; also affected positively are Cancers, Capricorns, Scorpios, and Taurus born with planets around 25 degrees of their signs.** If you are a mutable sign, Gemini, Virgo, Sagittarius, or Pisces born with planets at 25 degrees of your sign, take extra precautions when signing legal paper, leases, wills, or when considering major purchases, negotiating agreements, or entering new relationships or partnerships - business or personal. Check fine details of proposals that appear too tempting to turn down. Monitor incoming phone calls from unknown sources to keep personal information away from scam artists. You could feel loved and cherished when Neptune makes a romantic aspect to the Moon on the 18<sup>th</sup>. Welcome new people into your life, especially potential romantic partners. Ask questions and share your philosophy. Psychic insight accelerates while Neptune connects with your Sun. Enjoy the action stories, mysteries, police encounters, or crime-solving dramas you prefer and test your insight to solve the cases while you watch. Record your dreams and enjoy the truth they awaken. **Pluto in Capricorn is retrograde through October 8.** This slow moving planet hovers around the 28<sup>th</sup> degree and most affects Capricorns born January 18-20; Aries born April 18-20, Cancers born July 20-22, and Libras born October 21-22. Where is Capricorn hanging out in your natal chart? You'll find the spot where Pluto is traveling and identify issues that make you feel stuck. Pluto is most powerful around the time of the full moon on the 13<sup>th</sup> when it leans on you to develop stronger unity among team members or partners. Get the job done! Summer fun is waiting for you. Pluto opposes the waning New Moon in Cancer on the 30<sup>th</sup>, in mid-afternoon before it moves to Leo for a bout with a lighter energy on the 1<sup>st</sup>. Pass the time by cleaning out closets and organizing loose ends so you free up space to enjoy a weekend outing. Act on pending decisions after the 16<sup>th</sup> and verify dates for plans and medical procedures. Close the door on manipulative tactics and any negative energy that may affect your personal life. To avoid toxic conditions, let go of troubling situations that create greater anxiety. Welcome the emerging transformation and let the good vibes flow. The Full Moon in Capricorn on the 13<sup>th</sup> generates productivity when partners offer help to get the job done. Monitor medical and physical ailments if you have been dizzy or experience low blood pressure. Report your symptoms to your doctor. You may need a prescription change. **Chiron in Aries is turning retrograde on the 19<sup>th</sup> this month at 16° ʹ 26ʹ.** Now it affects the charts of Aries born April 5-7 by challenging you to **assess inner pain, address dilemmas, and choose viable solutions.** If you still have old stuff giving you painful memories, move freely to a worry-free state of mind. Clear your environment so that you can shed old wounds and leave the pain behind. Visualize what you want to replace the painful memories, and instead let the healing energy soothe your soul. Aries is a lover of freedom. Open your heart to accommodate newfound joy.

## READERS' CORNER

Thank you for the feedback and comments you sent during the past month revolving around the article about respecting the boundaries of others when you are a guest in another's home. I am amazed at the number of readers who have been dealing with similar issues that often go unaddressed when guests visit and seem to leave their manners behind. Thank you for validating your experience with the content of the article. This month's question revolves around overhearing gossip at a party about someone related to you and wondering how to react to the news. Comments welcome.

**Q.** I am a Cancer born June 28 with a daughter who is getting married early in 2023. Members of her wedding party hosted a gathering for mothers of the bride and groom, key friends, and other close relatives to get a feel for how many invitations will go out and who should be on the invitation list, as well as on the wedding shower invitee list that they will host. While I was mingling with attendees I overheard a discussion by one of the bridesmaids telling a friend that my daughter doesn't want to have children until after age 35 but hasn't yet told the groom-to-be. I was horrified as my daughter is turning 30 in September and it doesn't seem fair to her fiancé not to know her feelings or that she would consider keeping it from him as the wedding date approaches. How should I handle this secret? Should I tell him or confront her first? I am not the type to make a scene and said nothing at the gathering. Thank you.

**A.** You are a Cancer born June 28 with a Sun square to both your daughter's Libra Sun on September 27 and your daughter's partner born March 31. I can understand why you feel trapped in the middle of a delicate topic that you had no idea existed until two weeks ago. Let's start with the Sun positions of the bride and groom which are opposite one another and reflect different life views and attitudes. Mercury (how your mind works, communication) in each chart is opposite as well - his is in Taurus and hers is in Scorpio. Transiting Saturn in Aquarius is creating tension he doesn't even know about and is putting pressure on her Scorpio placement via the harsh square aspect which she is choosing to ignore for now. This year's eclipses are in both Taurus and Scorpio. This secret may come out even before the Scorpio eclipse of October 25 pries it loose if she doesn't come clean. The Moon indicates stress and unexpected exchanges triggered by the eclipse on your daughter's Mercury. The couple may get into a spat that escalates and could lead to exposure of information in more than one area that is being withheld. Your role is to do nothing with the couple as this is their personal issue. You could talk to your daughter about what you overheard to validate the disclosure. Her bridesmaid was very indiscreet in sharing private information so loosely. If what the bridesmaid said is true, then ask her how she plans to handle her feelings about birthing children. Encourage your daughter to speak to her fiancé as soon as possible. The main source of friction is secretive communication. Stay calm and be willing to listen to what your daughter has to say.
