**LIBRA'S BIRTHDAY HIGHLIGHTS: Happy Birthday, Libra!** Many challenging conditions affect your life this year along with family and friends triggering changes in routines. You usually hang in there and manage your time well, by staying optimistic. Matters of interest include family members who are ill, health care, home projects, money matters, moves, relationship issues, renovations, safety, social engagements, sports, and your work environment. You could experience frequent demand for your help or services while you find ways to stay in touch with all your contacts. Libra is the second air sign in the Zodiac with love Goddess Venus ruling your sign. Partnership-oriented Libras strongly identify with the 7<sup>th</sup> House of romantic, business, and professional connections, roommates, the public in general, advisors, counselors, diplomats, doctors, lawyers, recruiters, other experts, and your shadow self. Many Libras enter careers that make use of excellent communication skills, as well as social, mediation and diplomatic skills where you thrive on providing courteous, thoughtful service to clients, customers, and networks. Organizing events such as fundraisers, or social functions like dances or proms are your forte. You love order and prefer that all tasks come together instead of falling apart and abhor upsetting surprises when parts of your plan fall apart. Libras ooze with creativity and artistic talent enjoying pursuits involving the use of hands. Your sign either devotes a huge amount of time on the Internet or avoids media outlets restricting most types of Web communications. You value information exchange and spend a great deal of time on the telephone. Air signs relish timesaving devices buying the latest equipment to remain tech savvy, upgrading your Smart phone with the latest APPS and desirable features. A number of Libras are uber-sensitive when criticized for their flaws, blocking out messages instead of absorbing the context. Ironically, some of your best analytical prowess comes to life when you listen to what others say and help them work through difficult problems. In the 2022-23 cycle, keep relationships harmonious. Rewarding careers for many of you include the field of artistic expression, communicating, consulting, coaching, design, instruction, management, mediating, medicine, psychology, sales, servicing client needs, and teaching. You shine when absorbing unique information to build new skills that highlight your best qualities. Improve task management by working on creative avoidance, indecision, or procrastination. Solve relationship issues that involve others' feelings. Eliminate tension via stress management and exercise. Libra rules the kidneys, pancreas, lower back, and urethra. This year the Sun enters your sign on September 22 at 9:04 PM EDT and leaves on October 23 at 6:36 AM EDT.

**Jupiter started the year in Pisces at 0°, in your solar 6<sup>th</sup> House of work, the daily environment, health, nutrition, pets, and organization.** Most likely changes you began late last year in this house resurface for completion with a close examination of workplace conditions. If you hire or manage staff, you could be assessing the strengths and key skills of the team to prepare for emerging work tasks. Certain Libras may be reorganizing your own kitchens. Jupiter remained in Pisces until May 11, 2022, when it moved to Aries for a short preview run and subsequently turns retrograde on July 28 in your solar 7<sup>th</sup> House of partners before moving back to your 6<sup>th</sup> house and Pisces on October 28, 2022. Those of you born September 23-October 23 saw a flurry of activity while Jupiter traveled in Pisces and made appropriate adjustments to your goals. At this writing, Jupiter is still in Aries in retrograde motion and stimulates personal and business partnership matters in your solar seventh house. Take advantage of new opportunities and develop strategies that improve relationships while you organize to maximize efficiency. Include exercise and healthy eating habits to stay fit. While Jupiter completes its cycle in Pisces from October 28 through

December 20, you'll feel satisfaction for a job well done. On that date, Jupiter returns to Aries and gets ready for a complete run in your solar seventh house in 2023. **Saturn in Aquarius is moving through your 5<sup>th</sup> House of children, creativity, entertainment gambling, socializing, sports, risk-taking ventures, romance, and teaching or coaching others at a steady clip in 2023, having entered this house on December 17, 2020. This year those of you born October 3-19 feel the strongest impact from Saturn's influence.** Saturn turned retrograde on June 4 and will end the retrograde period on October 22 in the late degrees of your Sun sign's cycle. Although Saturn continues in Aquarius throughout 2022 and early 2023, **those of you born on the dates listed above will feel the most impact in the remaining months with a harmonious trine to your Sun.** The cycle looks beneficial for completing ongoing projects, finding a romantic partner if you are single, scheduling business travel, or completing plans to start a new business. While in the 5<sup>th</sup> House in Aquarius, Saturn offers clues regarding restrictions that affect leisure time, participation in sports, attendance at school, vacations, and speculation. Expect travel and entertainment bargains to attract customers. **Uranus in Taurus (now in retrograde motion through January 22, 2023) is in a challenging aspect to your Sun and** contacts the solar 8<sup>th</sup> House of Libras born October 3-13 through your birthday period in October 2022 and through January 22, 2023. The inconjunct or quincunx aspect prevails, an annoying stress giver that keeps you busy while you release the snafus that accompany this transit. The 8<sup>th</sup> house deals with phobias and unreleased tension in your love life, the state of your finances, and partnership assets. Regardless of the state of the Pandemic, now considered over, be sure to keep up with vaccinations. You're equipped with excellent planning skills so stay on top of financial matters, reduce debt, raise your credit score, and review partnership assets, legal papers, and wills. It takes Uranus 7 years to go through a sign, so each Libra will get a turn one way or the other to deal with matters in the natal house where it appears in your chart and the one where Uranus resides during this transit. Although interest rates have gone up again while I'm writing this section, consider refinancing if you haven't done this as long as you find a fixed attractive rate. You may have experienced unexpected developments in August after the 24<sup>th</sup> when Uranus turned retrograde and brought attention to partnership assets, puzzling conditions surrounding relatives, birth, death, estate matters, and regeneration. While in Taurus for the next few years, your 8<sup>th</sup> House of joint finances, investments, debts, karma, deep feelings, sex, your psyche and inheritances remain areas that claim attention. Be alert to unexpected disclosures and hidden agendas. If undergoing relationship changes, take the time to analyze facts and get to the bottom of sketchy information. Ask the right questions. If toxic relationships have been a problem, take a break from them and work on healing your soul. Be objective regarding others' behavior. Seek joint counsel to sort out the disconnects. Settle estate matters for family members, adjust your will, and strengthen investment holdings. **Neptune in Pisces contacts your Libra Sun via the inconjunction aspect (yes, again) in 2022-23 if you are born October 13-20 in your solar 6<sup>th</sup> House of work, health, daily environment, exercise, co-workers, pets, schedules, and nutrition.** Neptune is retrograde from June 28 until December 3 in this birthday cycle suggesting that you prepare to address odd issues connected with this house that have been prominent more than once during the year and continue into 2022-23. This stress-inducing aspect alters the pace and context of your daily life and/or work environment including people in it. No doubt you have been the recipient of many confusing messages, or about faces regarding the direction the work will take, even where you will be performing your work. Have you noticed the reactions of workmates and colleagues?

What speaks loudest? Be sure to talk with others if you notice behavioral or attitudinal changes. Neptune stimulates your inner knower making you more psychic than ever. You just “know” things. If you are under treatment for an illness, look for any changes in your condition, an altered diagnosis, or medications that need adjustment. Check for allergic reactions and be sure to inform medical practitioners who may be baffled, a strongly Neptunian phenomenon. Be sure to obtain a second opinion and watch what you sign, or your bills could be very steep. Neptune in this house natively or by transit often triggers allergic reactions to medications. Avoid exposure to long Covid. Your work environment is subject to adjustments, and you may be agreeable to a change that challenges your mind, fulfilling a desire to be more creative. Enrolling in a certificate program could give you a competitive edge in the job market if you are looking. Stay conscious and don't give in wasting hours with excessive daydreaming or you won't be able to keep up with your workload. If you have germophobe tendencies, take heed. Keep alert to bypass the Neptune fog. Look into opportunities for growth or more personal satisfaction. When Neptune passes through the 6<sup>th</sup> House, you could be romantically attracted to eligible co-workers or collaborators. Assess whether new personal partners compatibly meet your emotional needs. Get a professional opinion on your natal chart comparisons to validate your feelings and fine tune your goals. Clearheaded action paves the way for success. **Currently, Pluto in Capricorn is in retrograde motion as the Sun moves into your sign, going direct on October 8 in your solar 4<sup>th</sup> House of home, parents, family structures, family in general, roommates, base of operation, domestic affairs, real estate and home improvement matters. This position meshes with Libras born October 19-23 during late 2022-early 2023. Pluto stirs deep within you to help you see sensitive matters and fear in a new light. As a member of a Cardinal sign you continue to feel the vibes along with Cancer, Aries, and Capricorn** in terms of these themes. Since 2008 you have coped with diverse changes in outlook and attitudes, releasing baggage and wanting to wipe the slate clean at home. Examine all that relates to your home and family, not necessarily at the same time, but as circumstances surface. The shift includes: projects and schedules and how they affect your lifestyle; living spaces, family dynamics, property care, health and welfare matters, renovation and real estate. **Examine affected family relationships and situations** while Pluto makes a harsh aspect if your birthday falls on the highlighted dates. Tension aggravates what you're holding back. How successfully have you released blocks that relate to the home? Pluto creates conditions that put you in touch with your fears. Never fear the stress-givers. In 2023, Pluto moves briefly into Aquarius on March 23 through June 11 before returning to Capricorn, dropping hints to early Libras born September 23-24 about how the regenerative planet will behave in your solar 5<sup>th</sup> house. In the remaining degrees of Capricorn, Pluto wants you to acknowledge the blocks and completely release what you have buried deep in your psyche that confuses others. You may not realize the contradictions that exist. You may have to cope with major emotional adjustments via losses of key people in your lives both physically and emotionally. Work on healing your soul. Pluto helps you let go. Seek help, use tact, and work through demanding encounters with family members. Find the healthy and harmonious spirit that lives within you and celebrate the rebirth taking place in your home.

## SEPTEMBER 22-OCTOBER 23 PLANETS

This newsletter begins with Mercury retrograde in Virgo, going direct on October 2 and returning to harmonious Libra on the 11<sup>th</sup>. Expect your schedule to need a variety of adjustments that call for setting new meeting times or dates, issues related to correspondence, tabling the start of new projects, instead editing or finishing work already in progress. Spend time doing research on jobs or planned purchases, returning phone calls, and boxing goods for charity giveaways as you clean out closets or garages. **Venus is in resourceful Virgo until September 30 when it moves to sociable Libra until October 23.** Single Libras may meet potential partners. Those in existing relationships have a chance for romance and healing compatibility issues. Fill your calendar with invitations to parties, weddings or special events. Order gifts to arrive in plenty of time. Plan fall entertainment without traveling too far to enjoy some much-deserved fun. **Mars is in Gemini** all month stimulating spontaneous trips and frequent conversations. You could feel more energetic during this cycle and will be open to appreciating more facets of life, sharing new experiences with friends and family. Maintain your vehicles, tackle household cleaning and yardwork, and congratulate yourself on being ready when the weather patterns shift. Tie up loose ends in your work and personal life, planning holidays, organizing closets, and setting goals for the rest of the year. Show appreciation for the treasures in relationships. **Jupiter wraps up several months in Aries on October 28. While still in the fiery, energetic sign, you could act like a whirlwind, checking off accomplishments on your long list of tasks. Aries born with planets at 1-5 degrees see the most activity.** Be selective at sales to start holiday shopping or use the pickup option at neighborhood stores to have packages wrapped for mailing. Check your address book for changes, buy your greeting cards, begin writing them so you get them in the mail well ahead of the anticipated backlog of holiday mail. Book vacation plans or schedule small gatherings with an eye on travel restrictions. Avoid scheduling surgery or medical exams until after Mercury goes direct on October 2. Cancer, Libra, and Capricorns born with 1-5 degrees of your signs contend with a few challenges while Gemini, Leo, Sagittarius, and Aquarius benefit from successful financial conditions during the transit period. The new moon in Libra on the 25<sup>th</sup> opposes Jupiter suggesting that you postpone travel for a few days. **Saturn moves direct in Aquarius as of October 23** and remains in this sign for the rest of the year. Currently Saturn makes aspects to individuals born February 6-9 at 18-19 degrees; and favorably affects transactions for Aries individuals born April 7-10, Gemini born June 8-11, Libra born October 11-14, and Sagittarius born December 10-13. Fixed signs like Taurus born May 8-11, Leo born August 10-13, and Scorpio born November 10-13 face a challenge or two. Review important papers such as wills, contracts, proposals, and pending legal matters. Get advice from professionals if you need to make adjustments. Maximize stability in light of lingering economic issues as you look for ways to balance financial conditions. Take an active role in health matters. Boost your energy by getting plenty of rest, exercising, and eating nutritious food. Pay attention to advice from experts in their field regarding health management. Get boosters or flu shots to stay safe. Send

positive, healing thoughts to people on the planet. Stay alert to painful, global and local revelations. **Uranus in Taurus moves in retrograde motion covering 18-17 degrees of the sign this month. It most affects Taurus born May 11-7** as it aggravates annoying issues that mess with your stamina and irritate concentration. This is part of that 7-year rough ride through Taurus which demands attention in specific areas depending on where it falls in your chart. Uranus goes direct on January 22, 2023. Other signs annoyed by Uranus include Aquarius born February 9-6, Leo born August 13-10, and Scorpio born November 13-10. The zodiac's members who benefit from this transit are Capricorns born January 11-6, Cancers born July 13-10, Virgos born September 13-10, and Pisces born March 11-8, especially while transiting Uranus makes favorable aspects all month. Expect positive feedback on your work, unexpected cash, a winning lottery ticket, a bonus, a great deal on a vehicle, or a sought-after household acquisition.

**Neptune is in its sign ruler Pisces in retrograde motion at 23 degrees through the end of this cycle and affects individuals born March 15-13. Look at your chart - wherever you have these Pisces degrees denotes the area of your life that desires breakthroughs and a much-needed clarification regarding confusing messages, allowing you to work through perplexing problems.** Uranus in Taurus and Pluto in Capricorn in favorable aspect may be helping with critical work or home focal points or relationships. Those with water sign ascendants around 23 degrees or the Sun at 23 degrees (Cancer, Scorpio, and Pisces) experience strong access to your subconscious via processing information through dreams, psychic vibes, vivid memory recall and intuition; ditto if your rising sign is earth. Many on the planet are suffering desirous of compassion now, especially those who have lost loved ones, homes, their health, assets and the will to live. Seek help from experts who can provide emotional support or assistance with financial burdens. Donate to worthy causes; a little goes a long way. In these challenging times, supplement food banks so those low on cash can eat nutritious food. Praise the generous people in your life for showing how much they care in numerous ways. Keep excellent health records, get yearly check-ups and schedule a flu shot and COVID-19 booster this season. Find joy, share a laugh and enjoy entertainment via films, plays and other art forms like music, crafting, and sewing. Do puzzles, play word games, and read books while the transit passes. Acknowledge your successes and build self-worth. **Pluto turns direct in motion in Capricorn on October 8 at 6:56 PM EDT on the Suns of Capricorns born January 13-15 while it stations at 26 degrees.** Members of other signs should look at any planets, points or houses where you have 26 degrees of Capricorn, especially those who have Cancer, Libra or Aries at this degree. The closer the planet is to a conjunction (around the same degree) the greater the importance. If you have been struggling with hard times, illness-related burdens, financial shortfalls, relationship discord and losses, a reversal in direction may occur during the coming months. Suddenly, secret matters come to light revealing karmic conditions. Keep a low profile on the 20<sup>th</sup> if you have this strong degree. Identify and heal your personal anger issues; on a global level, keep your eyes centered on world conflict in Ukraine and Russia and stay alert to manipulation via hostile language and revelation of plans that work against what heals humanity threatening the safety, harmony and prosperity of the nation and allied countries. Keep safe medically and physically as you welcome autumn. Embrace the deeply transformative benefits of transiting Pluto. If you change your attitude, you change your life. In this Sun in Libra report **Chiron is retrograde in Aries at 14-13 degrees all through the Libra cycle and most affects individuals born April 4-7 who feel bewildered over revelation at deep levels that affects mental and physical**

**healing while they are in the process of clearing old fears.** Know that you have courage capable of facing what you fear while releasing the positive energy that attracts greater happiness to your life. Study reality before making drastic changes. Continue to make future plans while simultaneously seeking counsel and embarking on compatible new directions. Stay calm and watch those rocks in the road crumble. Clear the blind spots you've been hiding. Watch rigidity dissolve before you. It will not hold you back. Let go and allow this transit to set you free. Schedule time with your astrologer to identify strategic insight and favorable timing.

### PEOPLE, PLACES, AND TOPICS IN THE NEWS

Although Coronavirus continues to threaten the health of citizens worldwide, it is no longer considered a Pandemic. The surge continues in Florida. New boosters are available to keep you protected from the currently circulating subvariants, BA.4 and BA.5. The CDC is also recommending flu shots this fall to combat an anticipated harsh flu season. Hurricane activity is just getting started with the season lasting through late November. Wildfires rage out west forcing hundreds of thousands to flee their homes. Climate change plays a heavy role in this dilemma. Keep safe. Politics are leading headlines with the mid-term election less than two months away. President Biden's approval rating has jumped. He and Dr. Biden were in London for the Queen's funeral on Monday. This week he addressed the U.N. over the U.S.-China policy, met with Philippine President Ferdinand Marcos, Jr. to strengthen relationships and mend the rocky past with this Pacific Island nation. Ukraine and Russia conflict is still in a state of unrest. Many believe the Kremlin is in a state of crisis. Gas prices are lower but inflation has just led to another raise in interest rates.

**America's Got Talent (AGT):** This highly successful performance show just completed Season 17. **Voters selected the outstanding Beirut, Lebanon, dancing troupe The Mayyas as the winner** of this year's competition. Coming in second is **pole dancer, Kristy Sellars, a Gemini born May 28 in Australia.** Third place winner is country music singer, **Drake Milligan, a Gemini born June 1 in Mansfield, TX, who already released a full-length album and has a concert tour in progress in several cities. Check his website for dates.** Another top act was **Metaphysic, an AI Artificial Intelligence singing group who you are likely to see in Las Vegas with their mesmerizing act.** Hope you voted for your favorite. **This Year's Judges:** **Simon Cowell, a Libra born October 7; Sophia Vergara, is a Cancer born July 10; Heidi Klum is a Gemini born June 1; Comedian Howie Mandel is a Sagittarius born November 29; Host Terry Crews is a Leo born July 30.** Applause for the amazing Season 17.

**Queen Elizabeth II:** The longest serving monarch in Great Britain, 70 years on the throne, was born in London on April 21, 1926, with a Capricorn Ascendant and the Moon's South Node conjunct it - often a sign of fated events to come. HRH was born with a stand-alone sun in Taurus on the cusp of her natal 3<sup>rd</sup> house. Her Moon, Ceres, Neptune, and Dark Moon Lilith are all in royal Leo in her natal seventh house of

relationships and the public - how appropriate. At the time of her death, Pluto in late Capricorn (release, regeneration) was transiting in her first house, while a stellium of Aquarius planets in that house - East Point (release), Mars, Jupiter and Juno, received the conjunction of Saturn in Aquarius (health condition) here, showing the weakening of her body. Her mind was sharp to the end when we note that two days before her death, Queen Elizabeth appointed the new Prime Minister, Liz Truss, to her new position. An eclipse in Scorpio on May 16 fell on the Queen's Saturn in Scorpio, right ahead of the Jubilee celebration indicating the life force was ready for transition. Recall that the Queen was unable to participate fully in every event. I noted also that her fourth house is an indicator of what happens at the end of life. The Queen loved the verdant environment at Balmoral and that is where she chose to be in accordance with her Venus-ruled fourth house. I was a long admirer of the Queen when I learned years ago that she broadcast inspiring radio messages of encouragement to the children of the UK during World War II. During the war HRH served in the Army, learned to be a mechanic, and became a truck driver. Her spunk was admirable. Now she is reunited with her Soul Mate, Prince Philip. May she rest in peace.

**King Charles III:** Upon his Mother's passing, King Charles III became the ruling monarch of the United Kingdom and is likely to espouse his support of traditional and classical architecture as well as belief in healthy urbanism and sustainability, stepping back from any role in direct advocacy while keeping with the nonpolitical role of the British sovereigns. The King is a tree planter and a tree hugger and has shown concern for preservation of the environment and climate change for decades. He is supportive of streamlining the monarchy and keeping public expenditure costs down. The chart of King Charles shows that he is a Scorpio born November 14, 1948. His Ascendant is Leo, fit for a King; he is going to be known as Charles R (for Rex) and has chosen his new cypher, CR, but first there will be a new official portrait before all the money and stamps in circulation can be replaced. He wore his new cypher on his tie bar during the Queen's funeral. King Charles has several Scorpio placements in his chart: Moon's South Node, Mercury, Sun, and Chiron; the Moon is conjunct the North Node in Taurus, exactly on Queen Elizabeth's Sun in Taurus (connection to his destiny), his love of beauty, artforms, plants, and architecture show at the cusp of his fourth house with Neptune, Venus, and Vesta at the door. The Part of Fortune in the eighth house shows inherited wealth. His Mother's Saturn sits on his Sun-Chiron conjunction showing both closeness and oppression at different life stages. Both were stubborn. Right now Saturn in Aquarius is close to crossing into the eighth house, an indicator of a shift in responsibilities. King Charles knew his Mother's life was drawing to a close, and his life and routines would be changing. Looks like he was well trained for this inevitable day. Let us wish him happiness, success, and wisdom as he takes on this complex role.

## READERS' CORNER

Readers made several comments about the employee whose ex-girlfriend had recently joined his company. He had concerns about seeing her on a regular basis because their work is likely to mesh on related projects. Most of you said not to sweat it because it is not unusual for individuals to meet dating prospects on the job. As long as they are discreet, they should be OK. I felt they might rekindle their relationship at some point. This month a mother talks about her generous son who is helping family members fund their upcoming weddings. **Thank you for your input.**

**Q.** My son is a Libra born October 12. He has an executive position in a well-respected firm. He draws a high salary and puts most of what he makes in savings after taxes and expenses are paid. Months ago he told me that he would gift his sister a large sum of money to cover expenses for her late 2023 wedding. Recently, my niece and her fiancé who planned to marry early next year ran into problems with the arrangements they were making because her fiancé lost his job in August. My son plans to give them \$20,000 next month for the wedding and told me that after the first of the year he will give them another \$5,000 for their honeymoon. Is my son being too generous? What advice should I give him regarding these actions. He says he doesn't want them to pay him back and only hopes they have a beautiful day and forever memories. Thank you for your advice.

**A.** Your son was born with the Sun in Libra with a Sagittarius Ascendant and the Moon in Sagittarius in his first house. Mercury and Mars in Libra favor his Sagittarius placements making him generous and outgoing, along with his natal Venus and Jupiter conjunct (lucky, prosperous connections) in Virgo and in excellent aspect to Uranus and Neptune in Capricorn. His Uranus-Neptune combination is less friendly to the Libra placements but are grounding and he is not one who will give away the store without making sure there is plenty of cash in reserve. With his Moon's North Node in Capricorn in conjunction in his second house of income, he is a saver who probably opened his first bank account in grade school and dropped all his extra dimes and Tooth Fairy money into his piggy bank as a child. Your son doesn't seem to need any advice and his actions show he has plans for sharing his money with cherished relatives. His kind spirit shows his actions can be life-changing for the recipients of his bounty. Right now transiting Jupiter is in Aries moving through his natal seventh house of marriage partners. His benefactors are two engaged couples. That seems like synchronicity at work to me. It might be February before your son shares his honeymoon gift with your niece and her fiancé. Meanwhile, be proud of your son and his caring heart.

Thank you to all who sent questions and comments about last month's newsletter. I'm glad you enjoyed Virgo's issue and welcome your feedback once again.
