Enjoy the information available for planning important strategies and selecting compatible dates. **Happy Birthday to AG, RA, CB, RB, DS, TE, JF, CG, KP, MG, BT, and PJ.** #2 The scam of the month is random callers saying they are interested in the home you have for sale and when you assure them, you don't they continue to probe to see if you want to sell yours anyway or know someone who does. They want you to give them contact information. Hang up. The other one is supposedly an email from someone you know telling you that a friend they think you know has been killed in an accident. The party "contacting you may have been hacked." Delete immediately. Think twice about accepting Facebook

friends that you don't know. Requests show up after you make a public comment about an article or a show. The party often flatters you by commenting on what you said about a topic of interest and of course, they say they don't normally make these requests to be a friend but want to get to know you. Ignore or block.

TAURUS and THE YEAR AHEAD

Happy Birthday, Taurus! Your Sun sign often relates to greening of the earth with ample spring rains. You're a gracious sign that blooms with good manners, class, sensible decision-making, artistic flair, and resourcefulness. Ruled by Venus, Taurus oversees the income-oriented 2nd House of earnings, salary, potential, and power, all the money available to you, how you spend your hard-earned cash, the goods and services you desire, personal development, material possessions and people who provide you with related services including those in the banking, financial services, self-improvement and teaching industries. You seek lucrative work and profitable contracts. Although you like to stick with the familiar and enjoy security, when work no longer provides satisfaction, you seek a better option making use of highly polished skills and your gifts of diplomacy and tact. Born under the sign of the Bull, you are both an earth sign and the first of four fixed signs. Changing your mind doesn't come easily. You work through hard obstacles with passion and a strong determination to overcome them. Some material in this section applies to those with a Taurus Ascendant or a heavy concentration of Taurus planets. Consult your astrologer for full details. This year the Sun enters your sign on April 20 at 4:14 AM EDT and leaves on May 21 at 3:09 AM EDT. **Jupiter in Aries occupies your solar 12th house and creates movement in your fertile mind to give birth to new ideas to showcasing your talent and leading you toward new rewards. Those of you born with the sun at 23-30 degrees of Taurus have time to revisit goals while Jupiter wraps up its Aries transit on May 16 and moves to your sign for a compatible conjunction in the year ahead. Visualize success.** This transit happens every 12 years based on activity in your solar first house and affects important decisions, especially if you have planets residing in this house. Bond with work authorities, professional affiliates, and personal friends showcasing your strategies and building a strong network with your team to strengthen efficiency, commit to goals, and help others get back on track if they are adjusting to changing routines. You could be in the limelight for your performance and innovative contributions to improve worthy causes. A promotion could be in your future. **Jupiter moves to Taurus on May 16** and spends the last seven months of the year in your sign, moving retrograde on September 4 and turning direct on December 30. Jupiter affects all members of your sign this year, especially those born April 20-May 7 and starts out 2024 at 5 degrees of Taurus wrapping up its year-long cycle on May 25 before moving to Gemini for the remainder of 2024. Training improved your credentials in recent months. Explore the most desirable options that help your dreams come true. **Restrictive Saturn in Aquarius played out in your highly active solar 10th House and**

stimulated your desire to strengthen your career options by making adjustments to any goals, schedules and plans that needed renegotiation in the past few years.

Stern taskmaster Saturn has fortitude, and you have met its demands by internalizing changing work conditions designed to promote health, safety, and efficient work practices that improve your business model. Taurus, although you don't like change that is what you will get this year especially if you are born May 13-21 while Saturn finished out its 2-1/2 year cycle in Aquarius. Modify your goals, start a new position, make plans to retire if it suits your goals, or take that dream vacation. Note that Saturn has moved to Pisces as of March 7 where it occupies your solar eleventh house of associations, groups, friendships, professional organizations, goals, and wishes. During the remaining months of 2023, Saturn most affects those of you born April 20-29 as you welcome change and begin a new venture, free yourself from undesirable ruts, and alter your pace before accepting a new job or taking a bucket list vacation with your sweetheart. Transiting Neptune in Pisces is also in this house inspiring you to enjoy and implement your dreams. Work joyfully with new networks and build a creative vision. Saturn in Pisces will be retrograde this year from June 17-November 4, possibly creating delays in plans or compelling you to rethink strategies. Use tenacity to bring more stability and joy to your life despite the challenges. Treasure your gifts and use them to facilitate desirable results. Call your astrologer, coach, headhunter, business advisor, or realtor depending on your life plan. **Uranus in Taurus is shaking loose in your sign in your solar 1st House of action, assertiveness, enterprise, individuality, passion, and self-image and most affects those born May 5-16 this year, remaining in your sign through April 2026.** Those of you with dates in the limelight are subject to Uranus shakeups periodically throughout your 2023 birthday cycle. Transits like this create turbulence demanding that you tie up loose ends so you can manage the next round of perplexing challenges that seem never-ending and hit you out of the blue. **Uranus sits right in the center in your solar 1st House** will probably affect many of these themes or those affiliated with the actual house Taurus occupies in your birth chart. The result of dealing with a Uranus cycle in your sign is that it brings disturbance and change, and that frustrates a Taurus since you don't really like disrupting your life. For example you may have thought you were starting a new assignment but the job that came through was nothing like you anticipated. You want control over what is happening close to you and that is not always possible during a Uranus transit. You could display a temperament change that shocks those who know you. Sort out the breakthrough and get to the bottom of the shift that has taken place. Do prepare for surprise visitors, health changes, financial windfalls, and work shifts related to leaders or mission. Uranus started out the year retrograde and went direct on January 22. It will turn retrograde again on August 28 and move direct on January 27, 2024. Use stable practices, maintain safety practices, monitor security, and build trust levels. Make the most meaningful changes possible. Be aware that one Taurus eclipse lands in your first house on October 28, while a Scorpio eclipse will be in your solar seventh house at 14 degrees on May 5. **Neptune in Pisces is blissfully touched by your sign, Taurus, especially in this cycle, for those born May 13-21 in your solar 11th House** of goals, wishes, friendships, your employer's assets, political connections, professional affiliates, and organizations. This intuitive transit aids in neutralizing some of the disruptive Uranus tension. Maybe you've noticed an internal calmness that penetrates your psyche, one that is soothing and allows you to practice reflective thinking. Neptune attracts you to the behavior and mindsets of diverse individuals or groups so that you can determine the value of keeping these relationships versus dropping them from your A-list of desirable contacts. Note those

inner signals that allow you to attract positive individuals who speak truthfully with no tall tales, mixed messages, or fuzzy explanations that distort facts and drain your psyche. Nail the Trickster energy. With this sextile aspect from Neptune, you meet the type of people you want to cherish in your life - caring people with similar philosophies who value your mindset and purpose. This transit strengthens psychic intuition which you can use well to adapt your timeline during this insightful birthday cycle. Decide what works best for you and plan fun and enjoyment for your down time. Neptune goes retrograde from June 30 EDT-December 6, 2023, EST. Use movement and melody -- dance, listen to music, enjoy comedy, and tune in to favorite dramas to satisfy your expansive mind during this unusual time. Volunteer at shelters or food banks, enroll in self-development classes, or pursue creative arts classes.

Pluto in Capricorn has occupied your solar 9th house since 2008 and this year affects you if born May 18-21 in a powerful and transformative way in the solar 9th House of long-distance travel, publishing and journalism, foreigners, in-laws, advanced education, languages, spirituality, legal matters, professional opinions and culture. The planet of deep transformation moved into Aquarius briefly this year on March 23 to give you a teaser sample of what life may be like when the regenerative planet moves to Aquarius permanently in 2024. This year Pluto goes retrograde from May 1-June 11 EDT. The 2023 transit continues to work slowly to help you realize that you have tools to release the blocks that are occupying your higher mind. Let go and clarify the truth once you remove the blocks. Awaken your consciousness to allow Pluto to help you see the reality you've been avoiding. How would you benefit if you threw out the unwanted baggage? Tear down those walls and crammed spaces! Even if you don't have issues with every theme listed, you could know others who are dealing with related dilemmas. Review plans for handling financial matters, travel, higher education, publishing, relationships with in-laws and health. Consult specialists who provide you with critical advice that affects your medical, legal, spiritual, financial, or professional interests. Update records so that you can easily make changes that positively affect your life. Enjoy 9th House themes involving advanced classes or degree programs, travel, metaphysics, publishing or writing, interactions with in-laws or exchanging information with individuals from other countries or cultures. Attract an abundant flow of positive energy this year knowing that this long journey through your house of the higher mind is coming to a close. Create joyful moments to let your spirit soar as you embrace intense change from the inside out. Your psyche runs deep and craves release from the ghosts of the past. Let your loving heart compliment your world.

Your birthday cycle includes all 4 of the eclipses prominent during 2023 that will begin to occur this month. Two eclipses take place during your birthday cycle. The houses to keep an eye on in the year ahead are your solar 12th house, 7th house, 6th House, and 1st house through your 2023 birthday cycle. Still relevant is the November 8 lunar eclipse in Taurus at 16°♄ 01' that highlights your appearance, initiatives, planned activity, passion, personality and self- image in your solar first house. If a new job is in your plans polish your resume. Some of you may be freelancing, working flexible hours or starting a new business this year. Take a healthy break if making a job change is your plan. **The first solar eclipse of 2023 occurs on April 20 in Aries at 29° ♈ 50' in your solar 12th house, a New Moon that offers introspection, attractive deals, and drives your personal goals. in Taurus at 10°♄ 28' in your solar 1st House of self-image, appearance, initiatives, planned actions, passion, personality, and drive.** It's all up to you to keep your goals on track

and deliver what you promised. Make necessary adjustments to improve health conditions. With more rest you easily meet deadlines and keep your life in balance. Work on your personal appearance, a demand that eclipses in the first house often make. Expect some adjustments in work routines or surroundings. Finances could be all over the map - from no raises and pay cuts to a nice bonus or promotion. **The first lunar eclipse of 2023 falls on May 5th in Scorpio at 14°♍ 58' in your Solar 7th House of relationships that covers personal, intimate, and business connections including consultants, collaborators, legal or medical professionals, roommates, open opponents, and the public.** This eclipse is more relevant if you have planets in your 7th house. Be sure to assess any problems with relationships affiliated with this sector that you discovered last fall. You'll strengthen positive connections or possibly sever ties with those that are too challenging. Open the door to discuss any difficult conditions and acknowledge why the relationship is not working for you, especially while Uranus is in opposition to this space. Solutions heal hurts.

The year's final solar eclipse falls in Libra on October 14 at 21°♎ 08' and affects your solar 6th House highlighting your daily routine, health nutrition, work environment, colleagues, organizational acumen, and animal companions. You'll probably face some surprises in what you discover about overall efficiency in your workplace and could take remedial action to strengthen teamwork, reinforce or modify work practices, and manage timelines. For greatest success, be a good listener and ask for feedback and suggestions. Highlight organizational goals and stay calm and flexible to modify the environment for a new picture in late 2023-24. **The year's final lunar eclipse takes place on October 28 at 5°♉ 09' in your solar 1st House of action, assertiveness, passion, image, and self-interest.** If your birthday falls around April 25-27, take safety precautions, keep calm and contain emotions, expect some drama to hit you out of the blue, and then look forward to a feeling of liberation. With the right tools and development of solid goals, you could enter 2023 on a productive note. Make time for recreation, exercise, and enjoyment. Eclipses in your sign bring the unexpected to Taurus born with planets around 5 degrees. Be aware that transiting Uranus in Taurus will be in this house also although not conjunct this eclipse. Embrace new adventures while you enjoy worthy blessings. Be encouraged by your more relaxed attitude and share your ideas. New opportunities broaden your outlook and heighten confidence. The previous sections may also pertain to those with Taurus on the Ascendant since they match the flow of your chart.

Famous Taurus personalities include: Carmen Electra, Queen Elizabeth II, Craig Ferguson, Adele, James McAvoy, Tina Fey, Jessica Lange, Eric Mabius, Andie McDowell, Jack Nicholson, Shirley MacLaine, Al Pacino, Renee Zellweger, Jason Lee, Penelope Cruz, Jay Leno, Jessica Alba, Andre Agassi, Tony Danza, Daniel Day-Lewis, Jerry Seinfeld, Elaine May, Michelle Pfeiffer, Archie Mountbatten, Uma Thurman, Kirsten Dunst, Willie Nelson, David Beckham, Bridget Moynahan, John Daly, Carla Hall, Patti LuPone, James Brown, Mary McDonnell, Elisabeth Rohm, Dwayne Johnson, Audrey Hepburn, Mark Zuckerberg, Randy Travis, Stephen Colbert, George Clooney, Cheryl Burke, Charles Grodin, Carla Hall, Tony Blair, Eva Peron, Iggy Pop, Enrique Iglesias, Billy Joel, Rosario Dawson, Candice Bergen, Bono, David Gergen, Gabriel Byrne, Katherine Hepburn, Stephen Baldwin, Dennis Rodman, Harvey Keitel, Stevie Wonder, Cate Blanchett, George Lucas, Debra Winger, Janet Jackson, Pierce Brosnan, Tori Spelling, Dennis Hopper, Chow Yun-Fat, Nora Ephron, Busta Rhymes, America Ferrara, and Cher.

PLANETS' ACTIVITY APRIL 19-MAY 20

The 53rd Anniversary of Earth Day occurs on April 22, emphasizing healing our earth, focusing on natural processes, energizing green technologies, and offering innovative thinking that can restore the world's ecosystem. Note that two planets are going retrograde in the next month - Mercury in Taurus on April 21 and Pluto in Aquarius on May 1.

As we head into Taurus territory, **Mercury moves rapidly through Taurus, in the company of the Sun and Uranus and turns retrograde on the 21st at 4:35 AM EDT resuming direct motion on Mother's Day, May 14 at 11:17 PM EDT.** Be sure to revisit old issues that have not been resolved and work on already started projects that you can clean up, finalize, and release once Mercury goes direct. Don't sign important papers or make major purchases without checking your chart with your astrologer. Be mindful of travel plans which could be delayed or altered. **Just before we change signs on April 20, note the first Solar Eclipse of 2023 falls in Aries today (4/20/2023) at 12:13 AM EDT at 29° 7' 50'.** Expect bold moves, unexpected changes in circumstances on a universal level such as the SpaceX Starship that launched on a test flight and exploded in midair this morning over the Gulf of Mexico. Right in line with the eclipse energy comes the massive Fox News settlement with Dominion Voting over the false defamation charges. Another eclipse occurs on **May 5, a lunar eclipse in Scorpio at 14° 38' 58'.** The influence of this eclipse lasts for six months that alerts you to check with reliable sources before making important decisions that affect family and finances since this eclipse has an erratic relationship with opposing Uranus in Taurus. **Venus starts this cycle in Gemini on friendly terms with rapidly transiting Jupiter in Aries. Venus moves quickly through Gemini and into Cancer by May 7.** Venus in Cancer enjoys the camaraderie with Saturn in water sign Pisces that can lead to development of new or renewed romantic relationships and create harmonious conditions for developing plans and cooperative ventures. Enjoy a playful couple of weeks during this period. Decide what you want from relationships and share the limelight so both parties feel the joy. Be sensitive to others' needs in personal or business alliances. At home base show loved ones how much you care about them and value contributions they make to your life. **Mars, the planet of action, is enjoying the limelight in Cancer through the end of the Taurus cycle and moves to Leo, on May 23.** Mars contributes to the romantic and plan-friendly period you experience. For many Taurus, Cancer, and Pisces, this might be a good travel week, or a time when you have much success completing errands, shopping, or finishing old business. Neptune contributes to a spiritual esthetic or psychic awareness and abundant energy for helping you make sense of the information you are receiving. Make room for new opportunities. Table those household chores until the weekend to make room for excellent career vibes which highlight a high energy cycle. Reflect on news about how others go out of their way to help humanity. **Jupiter in Aries travels at a rapid clip in this sign and by May 16, the benevolent planet moves to Taurus where it remains through the end of December. The expansive planet will turn retrograde on September 4. Check your chart to see where the Jupiter in Aries transit occurs in your chart.** It will most affect you this month if you have planets at 25-30 degrees of Aries, Cancer, Libra, and Capricorn (earth and water signs) and after May 16, if you have planets at 0-1 degree of Taurus, Cancer, Virgo, Capricorn and Pisces that may attract a variety of

benefits to your plans via a trine or sextile aspect to your Sun. On the other hand, if you have 0-1 degrees of Leo, Scorpio, or Aquarius, you could experience the hard square or opposition after May 16, that could bring you a few delays in your immediate plans. Jupiter conjunct your Taurus sun brings a cycle of prosperity for several months and either planned or spontaneous advancements. Stay out of contaminated water or environments where suspicious plants spring up that could result in difficult to detect infections. Manage critical medical needs under the direction of skilled physicians.

Saturn in Pisces moves direct in motion now occupying 1-4 degrees of the sign. Those born with planets at these degrees of Pisces, Taurus, Cancer, Scorpio, or Capricorn feel the greatest impact and possibly harmony in executing plans during this cycle. Do all you can to complete tasks and projects in the month ahead. Those of you with 1-4 degrees of Gemini, Virgo, Libra or Sagittarius may experience a few snags in your progress or delays in business or travel plans. Emotional conditions could be taxing for some of you. The inconjunction aspect causes tension when it occurs near any of your planets or sensitive points. Look for art and entertainment venues to fill your down time. Keep your eye on how the business world and economy interact. Be mindful of the health of citizens, violent behavior in this country, and elsewhere on the planet. Major crimes continue to surface in the news begging for solutions.

Uranus creates additional shakeups in Taurus igniting 16-19 degrees of the sign. Note conditions in global and personal arenas for clues. Taurus born May 6-11 feel the blast more intensely now. This challenging energy forms new patterns that could also affect Leos born August 8-14, Scorpios born November 9-14, and Aquarius born February 5-10. Have you been affected by this emotional volcano known as the Uranus in Taurus transit? Those born May 9-11 could feel the pressure of Uranus on their Suns on these dates. Although Taurus has a safety-conscious nature, the sudden chaos occurring in various parts of the world and our own home turf makes an impact on the world stage in a very turbulent manner as daily reports sum up the damage from war, political conflict, medical crises, personal differences, the economy, including oil prices and rising inflation. Medical breakthroughs in the U.S. provide care and supplies to those in need. Keep safe. How has your life changed? The employment picture is evolving rapidly. Many organizations have agreed to put employees on a 10-hour day, 4-days-a-week work schedule, to accommodate staff. Others work limited hours, some employees work from home, others have been laid off, placed on furlough, or lost their jobs. If you are looking for a new job, examine the latest innovative discoveries especially in firms that are working on medical or technological breakthroughs and need human capital resources. Travel, plan reunions with family, and find the balance you desire in recreation and fun.

Neptune in Pisces affects individuals born March 16-19 during this time and has an impact on your work, family, and important plans. Water signs Cancer and Scorpio, along with Pisces, are more receptive now to intuitive vibes if born with planets at 26-27 degrees of their signs; Gemini, Virgo and Sagittarius with planets at these degrees encounter challenges regarding identity theft, computer viruses, misdirected text messages, scam mail and phone calls, written information, vague clauses, partially completed work, respiratory issues, and allergic reactions to airborne odors and fragrances. Due to unplanned

delays, you could be working on revisions of goals, plans, routines and physical structures. Healthwise, check your feet and wear shoes outdoors. Breathe in air as pure as you can get it, and monitor food and water quality. Protect lungs from pneumonia. Have a checkup if a persistent cough affects your health. Frequently update electronic equipment to safeguard privacy. Widespread hacking, fake mail, and scams related to social media and financial institutions are surging. Report them and help put those criminals out of business! Develop your personal and spiritual desired goals and pursue them. **Pluto in Aquarius resides at 0 degrees of this sign. Check the house in your chart where Pluto is present to assess likely issues and blocks that need your attention. Solve related problems while this teaser transit is in effect. The transit will lightly brush your sun if born January 20-22, April 20-22, July 23-25, and October 23-25. You could feel incredibly productive and eager to tackle new issues. When Jupiter enters Taurus on May 16 it will create a strong square to the Suns of these signs. Productivity may soar.** Pursue goals and interests thoroughly and take your time. Examine financial programs, budgets, government funds and any resources that are likely to undergo cuts or extreme shifts leading to a change in the status quo (think interest rates, food, and gasoline prices). Regroup around May 16 when the Jupiter shift creates a position called a station that could highlight personal dealings, health, anger matters, covert operations and secrets. Those of you born around 0 degrees of fixed signs Aquarius, Taurus, Leo, and Scorpio could feel both energized and inspired by this transit. Aries, Cancer, Libra, and Capricorn are likely to feel the delays or inertia from this planetary traveler. Where are you noticing delays? Does it seem like you're suspended in air? Readers report canceled plans or the delay in filling orders along with receiving the wrong product from trusted vendors. What a mess that is to unravel mistakes when notable vendors keep making the same errors, another condition that drives prices up. Be aware of price gouging - higher prices and shrinking product sizes. Eagerly embrace a renewal of outlook and the release of temporary, undesirable baggage. Anticipate a new beginning with this year's Pluto sign change! Welcome the Karma cleaners to help you remove blocks that led to rigid outlooks. Watch for exposés of fraud and secret information on the global level. **Chiron, the Wounded Healer travels over 16-19 degrees of Aries,** most affecting those born April 6-11. With your desire to lead, Aries, determine when it is time to take charge of your life to build self-confidence and the go-getter style that describes your psyche. Start by addressing old issues from the past that have disturbed your subconscious with unwanted or distracting tension and fear over what might be buried at the pit of your stomach. Muster up the courage to act on your feelings. Once you're ready to face the truth, open the door to identify positive information that will lead you to your cherished goals. Be sure to contact your astrologer to define important dates and trends. Each chart is unique and benefits from personal interpretation that relates directly to you. Get ready for a round of deep release to heal your churning emotions while you dislodge every fragment of the angst you have buried. Start by getting the good night's sleep you deserve. Buy a new mattress or a very supportive new pillow that protects your neck and adds to your sleeping comfort. Press the start button to enthusiastically search for desirable interests and preferred social, business, or romantic relationships. Just ask and watch as you grow spiritually and mentally. You'll experience a new perspective during this powerful Chiron cycle. Feel free, welcome truth, and cherish the unfolding path to your soul's center. New inspiration ahead!

The coronation of King Charles III and Camilla as king and queen consort of the United Kingdom and other Commonwealth realms is set to take place on May 6, 2023, at Westminster Abbey in London at 11:00 AM Greenwich time. You can catch the ceremony on TV beginning at 6:00 AM EDT. Details are still emerging about the ceremony and a final list of who will attend. Information has not been made available to guests who have accepted the invitation. The coronation formalizes "the monarch's role as the head of the Church of England and marks the transfer of their title and powers." Charles became king immediately upon his mother's death last September and this ceremony marks the official moment Charles will be crowned King. After the Archbishop of Canterbury performs the religious ceremony, he will hand the King the Royal Orb and the Royal Sceptre, and crown the new King. The newly crowned King and Queen will return to the palace with other members of the royal family in the Coronation Procession at 2 PM. At that time members of the Royal Family will gather on Buckingham Palace's balcony to wave to the crowd and observe a military flyover. Communities are invited to share food as part of the Coronation Big Lunch. The Coronation Concert will be held at Windsor Castle. American Idol judges Katy Perry and Lionel Richie, who have worked with King Charles on charitable initiatives, have been invited to the coronation and to perform at the concert. The first rehearsal for the coronation ceremony took place on April 18.

King Charles III is a Scorpio born November 14. His Moon and Moon's North Node fall in Taurus in the Kings' 10th House of Status and Career, exactly on the Sun degree of his Mother Queen Elizabeth II - what a confirmation of succession to the throne. Queen Camilla is a Cancer born July 17. The King's grandson, Archie Harrison Mountbatten Windsor, son of Prince Harry of Sussex, is a Taurus born on May 6. For details on attendance at the Coronation, check the press as new information is being released daily. May the King and his family enjoy the happiness and honor of this royal new beginning.

Check the IDOL website for details. The show's principals are Host, **Ryan Seacrest, a Capricorn**; Judges: **Katy Perry, a Scorpio**, **Lionel Richie, a Gemini** and **Luke Bryan, a Cancer**.

READERS CORNER:

Thank you for the messages you sent regarding last month's question on moving and considering a new location. Read that newsletter again if this scenario fits you. This month readers wrote about putting homes on the market, buying a new home,

and relocating to a much different location, some in their current country, and others in alternative countries. Four writers indicated they are Taurus, no doubt restless due to Uranus in Taurus near their suns.

Q. What Factors make a difference when considering a relocation to another geographic region?

A. Review last month's newsletter and consider using Astrocartography when checking out compatibility in a new residential city. A lot depends on where you are in your life cycle and what goals you have related to relocating. If career is important to you then you want a location that boosts your chances for success on the job. Find cities where your Sun, Mercury, Jupiter and Saturn lines are strong. If you crave peace and quiet, spiritual contemplation, artistic expression, and social relationships then strong Venus and Neptune lines work best. Mars is helpful if you are seeking adventure, high action, stimulating discussion, challenge, passion and a hectic vibe. I have worked with clients who did well with Mars on the Ascendant and others who found it (along with other conflicting planets) to be too harsh - a few individuals found they were in frequent conflict with others; another was accident-prone, others fell in and out of love; some attracted vehicle problems; one noted astrologer had theft incidents or violence directed at him in certain cities.

Don't relocate to a Mars line if you want to retire or have peace and quiet. Mars lines stimulate action of all types. Pallas lines give you a change of pace and a chance to create a beautiful home and make you an excellent problem solver because the Goddess of truth is very mental here. The Moon rising gives you a chance at happiness because you are more caring, loving and often intuitive; you will want to enjoy the amenities the chosen city has to offer. Jupiter benefits relationships, your health, strengthens your goals and attracts you to compatible networks. The Sun brings new relationships often leading to a long-term partnership or strengthens current ones. Pluto is resourceful and gives you inner strength and tremendous energy; perfect if you are involved in competitive sports, highly demanding physical work, the military or demanding business cycles. Your life and outlook undergo transformation here. Saturn is all about commitment whether personal or business and is often a good line for long-term employment or marriage partnerships. If you want to take things lightly, this is not the right location for you. Venus loves to party and create advantageous relationships; if you love recreation and culture, this is a good place to be.

Mercury brings out the writer, negotiator or communicator in you and may benefit your relationships with coaching, teaching, children, and education. Uranus brings excitement and the unexpected to your door; it may be hard to settle down or you have employment that takes you away from home frequently; it is also conducive to expanding humanitarian goals. Ceres lines are perfect if you work with children, want to have children or play a nurturing role with others via home care or a hands-on profession; having a green thumb is an added bonus. Vesta rising brings favorable conditions for focusing on goals and better concentration. Chiron rising may put you in touch with long-stifled feelings that are bound to surface and lead you to tools for letting go of old hurts. It is always nice to have the Part of Fortune in a prominent place when you relocate. If the city you choose has its Part of fortune in one of your angular houses (First, Fourth, Seventh, or Tenth), it often results in your dreams

coming true whether it is with perfect employment, a better feeling about your self-worth, meeting the ideal partner which may lead to a compatible marriage; excellent relationships with members of your family, a beautiful home or many visitors to your home, or a stepped up interest in entertaining in the home.

Thank you to all who sent in questions and comments about earlier newsletters. I will include more questions in Readers' Corner next month. I'm glad you liked the Aries issue and welcome your thoughts on Taurus.
