Cyber Threats: If the real estate market is hot in your geographic area, expect frequent calls from telemarketers asking if you want to sell your home. Many calls originate from investment firms or busy realtors who are very low on inventory. Continue to protect your computer from hackers by backing up daily and making sure preventive software is working. Nothing hackers tell you is true so don't follow their direction if you are contacted. Check your security software as soon as possible. Report the extortion attempts to the FCC and to your ISP provider. Send other types of E-mails requesting your mailing address to SPAM. If you suspect someone is posing as a company you do business with, notify the company, and follow their security instructions. Be safe, change passwords, even ISP providers!

GEMINI and THE YEAR AHEAD: Happy Birthday, Gemini! This birthday year begins with your sign ruler, Mercury, direct in Taurus until June 11 when it enters Gemini for the remainder of your sun sign period. Your Sun Sign rules the chest cavity, hands, arms and shoulders and lungs in the communication-oriented 3rd House of brothers, sisters, cousins and other relatives as well as neighbors, classes and workshops, communities, education, transportation (all forms including commuting, purchasing and repairing of vehicles and methods you choose for travel), media interests and networks, (phones, computers, faxes, Internet, social networks), writing and the diverse facets of your mind, especially how it works and the impact it has on your mental state. Mental versatility is a key asset you proudly embrace. The 3rd house of the chart, regardless of Sun sign, describes your intellect, how you think, the way you converse with others or form creative relationships. Gemini's natural ruler is Mercury, and its symbol is the Twins making you simultaneously an air and a mutable sign displaying Yin and Yang characteristics. You own outstanding deductive skills that help you analyze all types of problems while sharing your ideas with others. Contacts enjoy your charming sense of humor and the abundant amount of information you recall. You are extremely sociable, enjoy traveling, hosting events, and love to mingle while telling your stories allowing the people-to-people contact to recharge your batteries. Flexibility drives your ideal career letting you move around at will. You become restless with boring tasks that take too long to complete. This year the Sun enters your sign on May 21 at 3:09 AM EDT and leaves on June 21 at 10:58 AM EDT.

Mercury in Taurus in your solar 12th House emphasizes your desire to gather your thoughts and work on new ideas behind the scenes. When you have any down time, you prefer to catch up on pending chores, correspondence, finish a book, pay bills, or return phone calls. New creative enterprises claim your time after June 6 when Venus moves to Leo and harmonizes with Mercury in your sign, Gemini, to develop a winning product. Mars in Leo Squares Jupiter in Taurus during the first week of your sign's influence. Avoid disputes that could linger. During the Memorial Day holiday weekend, Venus in Cancer is trine Neptune in Pisces and is part of a Grand Trine with the Moon in Scorpio. Enjoy holiday festivities. **Venus wraps up in emotional Cancer on June 5, and moves to passionate Leo through the rest of June and most of July. Romance is in the cards.** Assess your values and emotions as you look at matters important to your heart, including conditions that affect your health. Schedule medical tests and make changes in health practices and eating habits. Your mind will be hyperactive through

June 27 while Mercury is in Gemini. Mercury will be in challenging aspect to transiting Neptune in Pisces which often creates confusion or distorts facts. Verify information and evaluate what you learn without jumping to conclusions. Make contractual and financial decisions after you validate what you learn. **Mars starts your cycle in Leo on May 21 and spends the rest of your Sun sign period in your solar 3rd house of communication, contracting, and mental exploration.** Invitations to gatherings with neighbors or relatives pour in and you have decisions to make about attending. You'll hear from siblings, who want to make summer plans for vacations. Look at options for vacation venues that interest you or for collaborative projects with neighbors. Discuss value differences and how proposals fit in with your plans. **Jupiter started the year in Aries in your solar 11th house of career, ambition, authority, honors, work projects, and the status quo.** The planet of expansion moved quickly through Aries and went into Taurus on May 16. The expansive planet will go retrograde on September 4 in your solar 12th house and goes back into Taurus on December 30 EST highlighting plans that are on your drawing board for the remainder of 2023. Enjoy opportunities while Jupiter is in Taurus to negotiate a raise, look for a promotion, strengthen ties with caregivers and make medical appointments that give you a leg up on any physical issues that have bothered you this year. Jupiter in Taurus give you a chance to brainstorm with collaborators and make plans for a new initiative. Some of you could change your sphere of interest based on new proposals that could lucratively increase your salary. Entertain a new job offer if you are interested in a physical move or would like to purchase a new residence. The writers among you may start a new book or enter into a contract that gives you income stability. Let dreams come true as you take a much desired trip with your partner. Enjoy summer adventures with loved ones. Work on goals and look for changes in patterns after Jupiter moves to Gemini in late May 2024. **Saturn entered Pisces on March 7 and is residing in your solar 10th House moving through a 2-1/2 year stay in the department of career, ambition, authority figures, goals, and family status . The planet of limitations will turn retrograde on June 17 and go direct on November 4 EDT, a day before DST begins. This year Saturn most affects Geminis born May 21-30** bringing a few challenges your way related to career matters, reorganizations, or a change in leadership. You could be adapting to a new set of work conditions, responsibilities, a new assignment, or setting parameters for a new contract and hiring skilled workers to perform the assignments. Your workload may increase as a result of the carryover matters that need resolution. Expect disruptions in schedules and workforce acquisitions. Seek out challenging assignments or accept a temporary work detail that makes full use of your outstanding communication skills. You may be heavily involved in publishing, teaching, and writing assignments that bring out your flair for innovative resolutions. **With Uranus in Taurus transiting your 12th house of seclusion, 2023 most affects those of you born June 5-16 throughout your birthday cycle.** While located in the 12th House, this chaotic planet alternates between making you feel wildly liberated or exhausted from fending off provocative behavior that annoying contacts create. You may demonstrate a few outbursts, and in a weak moment may disclose information you were not really ready to share. Control impulsive behavior including spending or divulging your innermost thoughts while in the company of clashing personalities. Adding to the unexpected conditions that could arise is the presence of one more eclipse in Taurus in this house on October 28 that stays relevant through spring 2024. Even if you aren't expecting it, Uranus could bring you multiple job offers, close encounters with hyper personalities, changes in direction regarding assignments, the theme of publications, or a change in format for key elements of your work. The

eclipse is compatible to transiting Saturn in Pisces in your solar 10th House. What you thought you knew about others in authority positions, is likely to change and influence the course of action you take related to career and family in the year ahead. Disclosures may reveal secret affairs, how you are revamping your physical appearance, or important facts about your health. Themes subject to Uranian jolts include private matters, psychic insight, holding back and retreating, healing your mind and body, secret enemies, hospital visiting, rehabilitation, secret enemies, widows, orphans, and charities. Uranus wants to unclog emotional drains by using the seclusion of the 12th House to recover from accumulating tension. Examine what is not working; then let go so you can focus on future plans. Eliminate interaction with unfulfilling people or conditions that are dominating your life. Uranus in Taurus vacates the sign in July 2025. Make plans for the new cycle you are manifesting. Find renewed creativity while you work on inner peace. Those of you recovering from an illness benefit from taking mental health and stress breaks. As a big journal keeper, monitor ongoing changes and measure progress. Contact your astrologer to sort out the conflicted periods to get a sense of timing for executing goals. Uranus will be retrograde from August 28-January 26, 2024. **Neptune in Pisces falls in your solar 10th House of authority, ambition, career matters and workplace-related relationships, interactions with those in charge, parents and family status as well as current goals. What issues have risen to the top of your priority list in 2023? Your Gemini sun is likely to experience a period of confusion when in contact with transiting Neptune in Pisces - nothing you can't handle. Those born June 13-20 experience the biggest impact as you move through the confusion in 2023 and early 2024.** The first and tenth houses are primary targets for change. This transit puts a reality check on you if you have been in a fog regarding career and life transitions. Gemini spars with Pisces planets since the Neptunian energy is in strong conflict with the organized thought processes you prefer. Annoying circumstances at work create confusion and spotty communication. Isolation may have helped you seek shelter from the uncertainties that took over your workspace. Take the time to talk through problems and comfort workmates who are dealing with work or personal issues. Share ideas, hold meetings, brainstorm solutions, and make decisions about how to be more effective in the evolving work scene. Use Neptune's creative side to effectively modify the work environment. Avoid daydreaming and loss of valuable time when you spend too much of it on trivial matters. Neptune has been in this house since 2011 identifying coping mechanisms to settle your work and family environment. Don't escape the necessary problem-solving steps. Research facts, seek solutions, and take the clearest path when answers emerge to restore balance. Meditate to relax and calm your restless mind. Enjoy dreams and take note of patterns and themes. A powerful Neptune transit stimulates psychic ability, gives you a feeling that you are traveling, while using your imagination and creative writing skills. Use your gifts to demonstrate passionate, powerful expression of the written and oral word. Watch your career sector for signs of growth and promotion. Neptune is retrograde from June 30-December 6, 2023. **Pluto in Capricorn connects with Geminis born June 18-21 in your solar 8th House of finances, debt, and money you owe, credit management, estate matters, joint assets, winnings, wills, sex, birth, death, regeneration, and psychological depth.** This house has hosted Pluto since 2008. This year the intense planet moved briefly into Aquarius on March 23 to give you a preview of what the energy may be like when serious, yet humanitarian Aquarius takes the reins. Pluto here will be very fleeting at 0 degrees and will turn retrograde from May 1- June 11 at this degree before returning to Capricorn, although still retrograde, on that date.

Pluto will finally turn direct on October 10 EDT. Since Pluto occupies this house in its waning degrees and is compatible with transiting Uranus in Taurus and Neptune in Pisces, enjoy the interim opportunity to assess what has been in the way or blocking your progress in your solar 8th house. Eclipses in degrees of Taurus and Scorpio will show favorable connections this year. Give Pluto a chance to complete this mission to unearth mysteries that you have buried most of your life in your psyche. Lighten your spirit as you let go. Address personal power struggles. You may shed burdens in the form of debt, karma, and stifling relationships. Improve finances as you organize paperwork. Pluto pressure has been building here since 2008 and transforms much of the old method you have been using. The 2023 cycle feels more secure. As the natural ruler of the 8th House Pluto highlights what merits dissolution and elimination at long last. Certain Geminis will pay off mortgages in the next two years, settle estates, or make solid investments. Update insurance papers, wills, and legal documents. If you have dealt with grief during the past year, be sure to acknowledge it by showing your vulnerability and comforting others. Heal intimacy and any communication issues that exist between you and your partner. Acknowledge troubling differences; lack of trust zaps relationships. Later born Geminis may welcome babies into your lives. Use humor and develop an upbeat attitude to enjoy a quality life that brings true happiness. Communicate clearly. Early born Geminis may take a few short trips before mid-June.

In 2023 a total of four eclipses occur. Two of them are in fixed signs and occur in your solar 12th and 6th houses in May and late October. **The first solar eclipse of 2023 occurred on April 20 in Aries at 29° ♈ 50' in your solar 11th house at 12:13 am EDT, a New Moon that affects associations, friendships, goals, groups, hopes and desired plans.** You may take a strong interest in humanitarian projects or accept a leadership role in a company that works with transforming home, professional, or neighborhood environments. You could join new organizations and become very active in promoting related goals. Be sure to take care of your health and allow time to recover from intense work pressure or physical ailments. Your stamina improves with the right balance. You'll gain sudden insight into how you will proceed in the future as many patterns are changing in work or related to personal interactions. **A lunar eclipse occurred on May 5 in your solar sixth house of work in Scorpio at 14° ♏ 58' 1:34 pm EDT that affects your daily routines, fitness, health, food choices, sense of organization, pets, and team activity.** Your workload is likely to increase along with interactions involving workmates and professional contacts. Assignments seem to tap in to your critical thinking skills and will give all facets of your communication prowess a workout. A large volume of communication revolves around editing, writing, and problem-solving as well as managing a team. Assess what you need to get the job done. Meet challenges with a level head and be sure to negotiate. Call on advisors if you need help to untangle pressing discord. Cooperation brings recognition and rewards. Preventive care protects your health. **The year's final solar eclipse falls in Libra on October 14 at 21° ♎ 08' at 1:55 p.m. and affects your solar fifth house of children and their interests, adventure, amusements, entertainment, recreation, romance, sports, and risk-taking for speculative ventures.** You will learn much about special people in your life and will have opportunities to strengthen bonds, connect through vacation venues, engage in a budding romance, or get engaged or married. Life dynamics have changed since the Pandemic faded. Be aware of important events, timeline adjustments, and new enterprises that claim your time. Compliment teams, students, and athletes. Make the most of harmonious connections

that pique your curiosity and interests. **The final lunar Eclipse of the year makes an appearance in Taurus on October 28 at 5° 09' at 4:24 p.m. EDT and falls in your Solar 12th House of hidden matters, privacy, secrets, healing after illness or visiting the sick, charities, metaphysical and spiritual insight, intuitive experiences, unknown enemies, and behind-the-scenes planning.** It is especially significant if personal planets fall on the Moon on this eclipse date or if you have natal Taurus planets at this degree. You have been vigilant regarding the sudden jolts you receive from transiting Uranus in Taurus which affects activity in this house. Under your watchful eye, you have developed ideas that stimulate your writer's gene and management acumen allowing you to create articles and books that cover real world conditions - workplace dilemmas, health conditions, medical breakthroughs, war, the state of the economy, and shortages of goods. Use the rich material you discover when you probe the world of metaphysics. Words heal. This year is ideal to seek new outlets that display your talent. Keep at least two options on the front burner. Make the most of them and carve out a revised career path. Enjoy the momentum of your birthday year. Part of this section may also apply to those of you with Gemini on the Ascendant or those with multiple Gemini planets. Enjoy new ventures.

Additional fixed signs undergoing a challenge with this transit are Leo born August 11-15, Scorpio born November 11-15, and Aquarius born February 6-12. These signs may be dealing with conditions that shift the dynamics in their world and do so unexpectedly with little or no warning. Life may manifest several unplanned turns over the next year months between this planet of the unexpected and the eclipses in Taurus and Scorpio. Stay calm and poised under stressful circumstances. Uranus transits affect weather patterns (think hurricanes, tsunamis, tornados, earthquakes, volcanic eruptions, lightning and thunderstorms) that produce flooding and structural damage, as well as fires, auto, plane or train crashes and unleashes threatening war games (Russia, Ukraine, North Korea, South Korea, Israel and Palestine, Iran, China, Afghanistan, the U.S., and Syria,) that affect the lives of citizens in the US and abroad. Expect unusual increases in all types of insurance for your vehicles or home. Uranus is in an 84-year cycle since it began its journey in Taurus in 2018. The impact affects the economy, key financial conditions, inflation, the price of fuel, values, market stability, employment and work conditions and unearths instability in global relations. Wish on a star! **Retrograde Pluto re-enters Capricorn on the 11th giving you a chance to clear away a build-up of stagnation in the house in your natal chart that holds this transit. Pluto goes back to the 29th degree of Capricorn for the rest of the month affecting the Suns of members of this sign born at the 29th degree approximately January 18-20.** This Pluto transit relates harmoniously with spontaneous Uranus in Taurus and reflective Neptune in Pisces. Pluto tackles deep, critical matters and may offer tough choices for leaders engaged in working intensely to bring economic and physical relief to people who have lost homes, good health, and financial security. Many parts of the world are dealing with threats of war and a shortage of supplies. Focus on family and home. Understand that Pluto is urging us to find new solutions to change the status quo. On a personal level, shed old baggage by assessing conditions, clarifying plans, and carefully executing strategies. Where have you felt stuck during this planet's long transit which started in 2008? Face it and win the freedom you desire. Develop a plan to deeply integrate what you find to complete inner healing. What emotional clutter bogs you down is ready for release. Shed the painful memories that produced it and kept you engrossed in fear. The past is a reminder of old experiences that are no longer valid as you grown in wisdom. Blast through anger. Embrace what you want for your heart and start living the life you desire. Note the house where Chiron is **transiting** in your chart; this is important in 2023-24. Where does **natal** Chiron reside? Be aware of any aspects that occur with transiting and natal Chiron. These wake-up call set you free. Use helpful

people and conditions in your life to examine options and release pain including all disappointing work conditions that disrupted your goals, schedule, and desired accomplishment. While you're healing, take the time to call old friends, meet up with people from your past, and take part in favorite summer activities that include family, friends, and relaxing experiences. PEOPLE, PLACES, EVENTS, AND TOPICS IN THE NEWS

The escalating prices of consumer goods seem unlikely to shift in the immediate future with gasoline at an all-time high in the U.S., the disconcerting difficulty in meeting demands for goods and services, and the escalating cost of monthly utilities in many communities. Homeowner insurance and auto insurance premiums are soaring in several states. Be optimistic yet firm in bringing these concerns to elected officials so they may lobby for fairer premiums. In my state, Disney just canceled a \$1 billion project that would have relocated 2,000 jobs to Central Florida amid a dispute with Gov. Ron DeSantis, who has passed multiple bills targeting the company after it opposed one of his signature policies. Josh D'Amaro, who oversees Disney's parks, sent an email to employees Thursday saying the Lake Nona Town Center development in Orlando - which had been on hold and faced criticism within the company - has officially been canceled and that employees won't be relocating from California to Florida. Abortion and women's rights are sure to be a factor in the upcoming presidential election, as will the rights of LGBTQ people's lives.

American Idol: Concludes ABC's Season 6 (21 seasons total) on May 21 with three talented finalists competing to become the next American Idol. **Iam Tongi, Virgo** (born September 1, 2004) in Kahuku, HI, **Megan Danielle, Sagittarius** (born November 25, 2003) in Douglasville, Georgia), and **Colin Stough, Leo** (July 28, 2004, in Amory, Mississippi) are hoping for your votes during the 3-hour finale on Sunday. All three finalists are approximately the same age and are ready to record their music. Be sure to vote. Some very good contestants got away including Wei Ani and Zachariah Smith. You'll hear more about them in the future. Congratulations to all who participated. The show's principals are Host, **Ryan Seacrest, a Capricorn**; Judges: **Katy Perry, a Scorpio**, **Lionel Richie, a Gemini** and **Luke Bryan, a Cancer** deserve applause for the outstanding *work they* do to support contestants.

E. Jean Carroll: The American journalist, author, and advice columnist whose work appeared in Elle Magazine from 1993 through 2019, was born in Detroit, Michigan on December 12, 1943, and raised in Fort Wayne, Indiana. She was married twice and moved to New York City after her divorce from her first husband, where she married an anchorman based in NYC and divorced in 1990. Jean is in the news after suing and winning a lawsuit against Donald Trump, the former President, on May 9, 2023, that found him guilty of sexual abuse and defamation of E. Jean Carroll who was

subsequently awarded \$5 Million dollars by the anonymous jury consisting of six men and 3 women who unanimously found the former president guilty. The verdict came in at 3:08 PM EDT, New York, NY time and the chart for the event fully supports the win and compliments E. Jean's chart. She is a Sagittarius born at the time of the full moon in Gemini conjunct Saturn with three other placements in Gemini - Uranus, Vesta, and Mars showing her communication and writing skills. Ironically, the defendant is also born at the time of a Full Moon in Sagittarius that not only opposes E. Jean's Sun, but also her Moon. Jupiter in the verdict chart was approximately the same degree in late Aries as the April 20 Aries eclipse in the 8th house showing the money to be awarded for injuries - Chiron the Wounded Healer is there in Aries. The Verdict chart's 8th and 9th houses hold a stellium in Taurus, one of the signs in high focus this year with eclipses and the presence of Uranus in Taurus. Stay tuned because this ruling is a win for both E. Jean and other abused women. Others may come forward as a result. Or E. Jean may sue her antagonist again for his appalling remarks on CNN's Town Hall held on May 10 in New Hampshire.

Ariana Madix: Readers asked about the chart of this member of the cast on Bravo's Vanderpump Rules whose onscreen and real life scandal erupted with a breakup earlier this year. Ariana was born in Melbourne, FL, on June 24, making her a Cancer with a stellium of planets in that sign along with Moon in Virgo, Pluto, the Moon's South Node, and Saturn in Scorpio (eclipse on May 5 on the Node's degree in her solar 5th house of romance) and fans learned of the secret relationship scandal involving her partner and co-star, Tom Sandoval, who was cheating on Ariana with her co-star, Raquel). With eclipses and transiting Uranus in Taurus in her solar 11th house of friendships, and the last Scorpio eclipse on Saturn in her chart last May 16, and another on Pluto at 2 degrees on the cusp of her house of romance on October 25, Ariana had been walking a rocky road with this relationship. Vanderpump Rules just presented the series finale. Ariana has options to continue writing, modeling, and discussing the fine art of bartending sharing mixologist tips as she did in her book, Fancy AF Cocktails that she co-wrote with her ex, Sandoval, whom she dated since 2014. Wishing you success in your new ventures.

READERS' CORNER

Thank you for the messages you sent regarding last month's question. Several readers commented on moves they made that were less than perfect and enjoyed the tips regarding relocation. Some of you indicated that you stayed too long in undesirable environments and would not make that mistake again. This month's Q and A segment deals with disappointment over rejecting an invitation. Let me know if you have experienced similar situations. I hope you enjoy the information.

Q. My mother was unable to accept a dinner invitation for Mother's Day due to a two-week work trip to a foreign country that would have begun two days after Mother's Day. My Mom would not go out two days earlier because she had multiple details to coordinate and to prepare for presentations while she was away. We won't be able to celebrate until Memorial Day weekend. I am very disappointed in her choice. What does my Mother's chart say about her selfishness. My husband says I should let it go. What do you see? She will turn 55 on June 1.

A. I have written about similar situations like yours and shared them in this column. What has been your experience with Mother's Day celebrations in the past?

Your Mom is a Gemini born with her Sun, Venus and Mars conjunct, along with her Moon and Jupiter in Leo in her 3rd house, and Saturn in Aries in her 11th house of friendships and groups. She has a very active energy base and relies on her Cancer Mercury to make sure she keeps her schedule straight and remembers to coordinate all the materials she will need when she travels - she likes to be prepared - may even brush up on her language skills. Your Mom's Ascendant is also in Gemini, so she is a double Gemini. As is often the case when one person is born in the sign before or after the other, conflicts may arise. Your mother has Pluto conjunct Uranus in Virgo in her natal 4th house of home and family. As a Taurus born April 27, the Virgo planets are compatible to yours but the location in your Mother's chart gives the impression that she can be unpredictable in her actions and doesn't usually change her mind about her plans or the way she manages her household. She may have learned valuable lessons along the way in how harsh it can be to show up unprepared in a professional environment. This year late Saturn in Aquarius in your natal chart's 4th house of home received a hard aspect from transiting Uranus in Taurus that left you feeling rejected and disappointed. Your Saturn actually falls in your Mom's 9th house of foreign travel, so this was not an easy trip for her when she honored her work contract. One thing about delayed celebrations for Mother's Day or other events, the pressure is off the parties with complex responsibilities, and they can party and relax when they return. Greet your Mom with a smile and a big hug and thank her for handling responsibility wisely. You two may not be on the same page in how you look at life, but nothing in her chart suggests she does not love you. Her Mercury in Aries is on your Moon, so she thinks of you often. You can celebrate her 55th birthday together. Plan a surprise. Celebrate Mother's Day around the upcoming holiday. Have fun.
