**Cyber security Threats:** Be sure you monitor all accounts and sources of privileged information to stay secure. As I write this, scams denoting undeliverable packages are surging for goods that you did not order to lure you into divulging account and credit card numbers. Some scammers hope you don't remember that you don't have an account or membership at the places cited. Don't open documents requesting your signature that sound convincing but will create loss for you if you respond. Send to SPAM or contact known vendors to report the issue. **Cyber security** is a powerful way to protect all your documents and financial holdings. Warnings come daily to put you on alert. Thieves pretend to be vendors such as Amazon, FedEx, UPS, or your I-Phone provider- do not open any attachments. When in doubt call your provider directly. A slick pitch can be costly, and you'll pay for something you didn't request. Check warrantees.

### **SCORPIO'S BIRTHDAY SUMMARY**

**Happy Birthday, Scorpio!** Enjoy your birthday cycle and all its passions and insights. You are the 8<sup>th</sup> sign of the Zodiac, the 3<sup>rd</sup> of 4 fixed signs, and the 2<sup>nd</sup> of 3 water signs. Pluto is your natural ruler (Mars also claims original ownership) heading the deep space-oriented 8<sup>th</sup> House of other people's money, resources from joint funds or unusual places, psychological matters, mysteries, sex, death, birth, rebirth, estate matters, mortgage loans, goods of the dead, consumer debt, crimes, assets or investments as well as liabilities, the subconscious, travel between the worlds, and complex human needs. Your spirit is very intense as you show fierce determination, can be very stubborn, and take a serious approach to obligations. When your psyche needs it, you rise out of the ashes like the phoenix tackling issues when the going gets tough and bounce back via rebirth of your spirit. While most Scorpios are passionate about life, certain Scorpios demonstrate behavior that creates blind spots, identifies martyrdom, doubts most of what they hear, or depicts a pessimistic view of life. If you are ready for a new outlook, only you can change the picture. Work with transiting Pluto in Capricorn (in its waning phase) to dissolve edgy moods and doubt. Your colors are dark reds, maroon, magenta, oxblood, wine, dark browns, and black. Uplifting experiences help you heal internally and aid in problem solving. Scorpio rules the private parts of the body; all 30 degrees of your sign relate to one of them. This year the Sun enters Scorpio on October 23 at 12:21 PM EDT and leaves on November 22, at 9:03 AM EST. Some material in the following section may apply to individuals with Scorpio on the Ascendant and/or other Scorpio planets, including the Moon.

**Jupiter started the year in early Aries at 1° , in your solar 6<sup>th</sup> House of work, health, and daily environment.** Changes you began late last year in this house resurface and call for analysis and decisions after close examination of routine conditions. You could be celebrating a successful new beginning in team harmony, with a boss, or in executing plans and a reorganization. If this Jupiter transit affected

your profession via a raise or promotion, your ecstasy is all about successful transactions that create much desired success. Health improvements are most welcome via better medical care. Jupiter zipped right out of your solar 6<sup>th</sup> house on May 16 and landed in Taurus in your solar 7<sup>th</sup> house of romantic or business partnerships where conditions improved or prosperity expanded for mutual benefit. This year Scorpios born October 23-November 9 see the most action. Those of you born November 10-22 profit through May 25, 2024, when Jupiter completes Taurus and enters Gemini. Planning is your thing, so take advantage of evolving enterprises. This Jupiter in Taurus cycle moved rapidly through the sign, then paused to take a retrograde break on September 4, turning direct again on December 30. When direct in motion, Jupiter completes the Taurus journey next May.

**Saturn in Aquarius has occupied Aquarius since December 17, 2020, rapidly finishing this 2-1/2 year cycle on March 7 after affecting conditions in your solar 4th House of home, foundation, family, parents, domestic affairs, relatives or roommates in residence, redecorating, remodeling, landscape design, real estate related to sales, purchases, exchanges, and rentals, and the end of matters.** Beginning March 7, 2023, Saturn moved to Pisces and will visit the suns of those of you born October 23-November 1 when Saturn extends harmonious vibrations from this Pisces transit. **Now Saturn in Pisces occupies your solar 5<sup>th</sup> house of romance, children, sports, recreation, enterprise, and vacations.** Pisces, like Scorpio, is a water sign and Saturn here could affect the flow of your plans, giving you a chance to adjust them to maximize profit and pleasure. Use Saturn's direct motion to get the best results for ongoing plans. Embrace the greater understanding and connection you have now with those close to you. Saturn's retrograde period started on June 17 and ends on November 4 allowing you time to perfect plans, study timing, and adjust your vision. Some of you may find true romance and could accept or offer a marriage proposal. Added responsibility calls for better planning for interacting with children and teams. Stay upbeat and accept social invitations for greater joy. **Uranus in Taurus** travels through your Solar 7<sup>th</sup> House and especially affects **Scorpio individuals born November 6-17** through the end of your birthday cycle in your opposite sign, Taurus, affecting personal and business partners, roommates, the public, astrologers, consultants, medical and legal professionals. For the remainder of this year and 2024, Uranus initiates shake-ups that may occur in both personal and business relationships, including those individuals who live with you, family members who return home, or with collaborators, or consultants whose expertise is important to you as you ask for advice to modify your life circumstances. Uranus creates unstable or unexpected conditions. The norm in a typical Uranus cycle is chaos and if this erratic planet opposes your Sun, anything goes. Pay attention to details if your birthday falls on the dates listed in this section. What worries you now? What part of your life needs the most help? Generate the picture of your life that will make you happiest and manifest the ideal outcome. **Neptune is in Pisces all through your birthday cycle and connects with your Sun through the end of your Scorpio dates if you are born November 14-21 while it moves through your 5<sup>th</sup> House of children, dating, vacations, social life, recreation, sports, risk-taking and romance. Currently Neptune is retrograde from June 16 until December 6, 2023.** The 5<sup>th</sup> is a social and romantic house indicating that a Pisces Neptune moving through it favors your Scorpio planets and creates romantic, sensual, and psychic cycles. **In 2023 Neptune most affects those born mid-November to the end of your sign dates.** Avoid clashes with difficult people and grab on to Neptune's collaborative approaches to communicate

openly about deep feelings, preferences, and old resentments. Control reactions to information you learn by being sensitive to others' thoughts and hurt feelings. Be honest in communication with those close to you, including children in discussions, especially if they are shy and reluctant to express themselves. Break down unnecessary barriers, so that life takes on a more satisfying emotional direction. Be firm but loving. Neptune often brings a bout of confusion, but you can't blame fuzzy thinking on why you don't want to make changes or analyze people and conditions. Manifest happiness and cancel fear patterns to move forward smoothly. Eliminate Neptune's haze and move toward a safe spiritual haven that inspires confidence. Meet new people and date if you are single. Strengthen bonds with children and show them your playful side. Dissolve a poverty consciousness while you embrace the Law of Abundance. **Pluto in Capricorn is another planet getting ready to move out of an extended period of time in this current sign. In 2023 it is still in your solar 3<sup>rd</sup> House of communication, computer equipment and cell phones, cyber security, education, mental outlook and how your mind works, people who live near you, cousins, siblings, the neighborhood, transportation, and technology.** This year Pluto made a brief splash into Aquarius from March 23, then turned retrograde on May 1 at 1° of Aquarius and returned to Capricorn on June 11. While briefly in Aquarius, Pluto mostly affected Scorpios born October 22-23. Pluto turned direct on October 10 and most favorably affects those of you born **November 19-22** while preparing you to work on a variety of mental challenges before finalizing decisions in the coming year. Stay calm when discussing differences of opinion with your partner and don't get into loud bickering or neither one of you will figure out a plan that leads to peace. Follow a path deep within you to succeed in resolving angst. Add new skills or hobbies to your portfolio that address your long-range goals and career or life aspirations. You can achieve success if your birthday falls on the above-mentioned dates. Pay attention to facets of your life and stuck conditions. Pluto helps you shed old baggage. Let this Pluto transit in Capricorn help you assimilate new patterns that influence life goals. Share your deep insight with others. If other planets occupy this house at 26-29 degrees of Capricorn, Pluto visits each of them this year and through January 20, 2024, when early Aquarius returns, turns retrograde on May 2 and back into Capricorn where it finally completes its long cycle in November and begins a lengthy uninterrupted journey in Aquarius from November 19, 2024-March 8, 2043. Scorpios born November 18-22 are especially affected by these last Capricorn dates. Eliminate rigid conditions or opinions that release you from inner bondage. Let go of hang-ups to experience the freedom you desire. Greet 2024 with optimism and clear insight to feel joy, inner peace, and prosperity in the intimate corners of your soul.

By now you have experienced 3 of the 4 eclipses of 2023 with 1 more of them about to affect your chart late this month. This year two of the eclipses take place in your chart's angular houses, the first and seventh houses, one in the 12<sup>th</sup> house and one in the 6<sup>th</sup> house of work. **The first solar eclipse of 2023 occurred in Aries on April 20 at 29° 50' in your solar 6<sup>th</sup> house of daily routine, health, nutrition, work environment, colleagues, organizational aptitude, and pets.** You were probably surprised when this eclipse hit and you discovered conditions about the efficiency of work practices, commitment among staff, and attention to meeting the timeline. Be sure to listen to feedback and strengthen communications while focusing on critical goals. When challenges emerge, be sure to address them immediately. **The first lunar eclipse of 2023 occurred on May 5 at Scorpio 14° 58' in your solar first house of action, assertiveness, independence, passion, and self-interest.** This position

energized you and drew you to new pathways which you will embrace for the rest of the year through spring 2024. Take advantage of networks that open the door to successful leads and newfound enterprises. Enjoy the freedom. **The second solar eclipse of 2023 occurred on October 14 in Libra in your solar 12<sup>th</sup> House at 21°♎ 08' changing your focus to introspection, a look behind the scenes, healing your mind and body, mysticism, psychic phenomena, secrets and recovery.** Enjoy some much deserved down time to reflect on next steps and plan your future. If you are a writer or performer, work on your next project. Edit your resume if you are seeking new work or changing careers. Consult professional advisors if you need help sorting out key life contributions. Reconnect with mentors and favorite networks. The final lunar eclipse of 2023 occurs in **Taurus at 5°♉ 09' on October 28 in your solar 7<sup>th</sup> House of relationships that include personal and business partners, putting the spotlight on you and close associates including advisors, collaborators, consultants, legal and medical professionals, open enemies, the public, and roommates.** Review the status of relationship issues you have been dealing with for the past year. What has changed? If you have planets occupying this house, expect revelations of any problems you're having with principals to surface. It's possible you will be opting out of personal or business relationships. Strengthen existing bonds and fulfill partnership goals. Find workable solutions. A passive attitude will only give you fodder for a separation or permanent rift. **On March 25, 2024, the first lunar eclipse of the year occurs in Libra at Libra 5°♎ 07' in your solar 12<sup>th</sup> House of privacy, healing from illness, emotional wounds, or surgery, secrets and shame, visiting the sick, psychic matters, and getting plans ready to reveal in the near future.** Just chill if you have been working too many hours or take a sabbatical if you need a break from an awful job. Most of the pressure is on you to make your goals happen and to make adjustments to schedules. Work on solutions to resolve pressing problems. Take a look at personal habits and make modifications this year. Keep goals related to your health and physical body. No doubt the eclipse gave you a reality jolt and involved you with medical, behavioral, and fitness specialists to improve and heal. Address fears and make sure your action plan is part of your daily routine. Improvement lies ahead. **The first solar eclipse of 2024 takes place on April 8 in Aries at 19°♈ 24' in your solar 6<sup>th</sup> house of daily routine, health, nutrition, work environment, colleagues, organizational aptitude, and pets.** Determine what changes have occurred since the 2023 Aries eclipse and continue the organizational shifts that are necessary to overhaul company practices. Consider the outcome of newly implemented practices and how well you can integrate them into the daily environment. Be sure to engage the team in feedback and suggestions for improvement if this is a major part of your job. You'll win the support of co-workers and may easily experience success and a worthy boost of confidence. Transform your attitude and physical health. The information in this section strongly applies to those of you with Scorpio Ascendants, a stellium of planets in Scorpio or the Moon in Scorpio. Check for details with your astrologer. Enjoy a happy, healthy, and prosperous year. Two more eclipses occur in 2024. a solar eclipse at **25°♋ 41' on September 17, and a solar eclipse at 10°♈ 04' on October 2.**

### **PLANETS in ACTION OCTOBER 23 through NOVEMBER 22**

**This month's big events are the last two eclipses of 2023. The first one occurred on October 14, a solar eclipse in Libra, at 21°♎ 08' and the final lunar eclipse of 2023 which occurs on October 28 is in Taurus at 5°♉ 09'** which will affect the charts of Libras born October 7-9 and send strong aspects to other air or fire signs born on the 20-22<sup>nd</sup> degrees of Gemini, Aquarius, Aries, and Sagittarius. Taurus, Leo, Scorpio, Aquarius. Two weeks later the final lunar eclipse of 2023 occurs on October 28 at 5°♉ 09' affecting the charts of Taurus born April 25-27 and sending hard aspects to other fixed signs, Leo, Scorpio, and Aquarius born with planets around 5 degrees. The eclipse opposes the Suns of early Scorpions. Conditions could benefit earth signs Virgo and Capricorn, and water signs Cancer and Pisces, in this cycle. Taurus has Uranus in its sign at this degree in retrograde motion, so be prepared for the unexpected and an outcome that depends on the positions of the rest of your natal planets. Readers may feel shaky or ungrounded in erratic space. Remember that eclipses create intense conditions that start to manifest a few months before their actual occurrence. Stay positive and visualize the picture you desire to bring a new reality to your life. Individual natal charts tell the story of how you are faring in this chaotic time where many conditions on earth send confusing signals. **Another change of importance is that Daylight Savings Time ends at 2 AM on November 5. Mercury resides in Scorpio now conjoining the Sun and Mars and moves to Sagittarius on November 10 EST.** Swiftly moving energy gives the Universe just the shot of adrenaline it needs to move those who are stuck waiting for a rescue. Emotions are high this month especially in areas where you have a vested interest - your work, favorite pastimes, and romance. You'll be raring to go on Tuesday the 24th when the Sun trines Saturn in Pisces and the Moon trines the Sun, Mercury and Mars, conjuncts Saturn, and the Moon sextiles Jupiter. You can focus on anything and win - one of the best days of the month trines Mars leading up to Tuesday's solar eclipse in Scorpio. Election day, November 7, 2023, is action-filled and brings rewards to candidates with favorable charts. **Venus in Virgo is compatible to members of earth and water signs through November 8 showing an interest in planning for holiday shopping, organizing projects, and finding clothing sales.** When Venus moves to Libra, the focus shifts to relationships, romance, and organizing a party or other social event. **Mars is in Scorpio sending vibes of commitment to work projects,** people who want to engage with you, plans you are projecting, and creating closure on important

matters before the Sun moves to Sagittarius on November 22 and Mars moves to Sagittarius a few days later. Ask children if they would like to make their own Halloween costumes this year instead of buying ready-made outfits. Mars in Scorpio opposes Uranus in Taurus on the 5<sup>th</sup> reminding you to be safe in travels. Solve problems without impulsive decisions. **Jupiter is retrograde in Taurus all month conjunct Uranus and can shake up the calm on Monday, the 13<sup>th</sup> with Mars in opposition.** Right now Jupiter most affects those in Taurus born April 28-May 3 with the conjunction on their suns. Make decisions with both personal and business partners regarding social events, allocation of funds, a career decision, or managing personal growth. Resolve any partnership issues that may come up. Do comparison shopping before making joint purchases to maximize personal benefits. Jupiter makes aspects with other planets during November - Mercury, Mars, Venus, and Saturn. Those with degrees in their signs from 8-11° should take note - Taurus, Leo, Scorpio, Aquarius. Be cautious before signing agreements. Honor commitments. Favorable aspects affect water and earth signs - Cancer, Virgo, Capricorn, and Pisces with these degrees. **Saturn is in Pisces during this cycle traveling over 0-1 degrees of the sign and most affecting those born February 18-20 as it makes its way through the 2-1/2 year cycle it began on May 16.** Virgos born with planets in their sign on these degrees feel the opposition energy; early born Geminis feel the tension as do early born Sagittarius. Cancer and Scorpio feel energized and Capricorn gets ambitious. Assess conditions in your life that could use help or create worries for you. Determine what you want to address. Avoid getting in the middle of others' arguments. Make adjustments to any routines that put you in a rut. **Uranus in Taurus** is retrograde this month traveling over the 20<sup>th</sup>-21<sup>st</sup> degrees of the sign and **most strongly affecting Taurus born May 10-13.** Those born in the other fixed signs, Leo, Scorpio and Aquarius with planets at 20-21 degrees release their stubborn streaks and let go of strategies that haven't been working. Success may come to earth signs Virgo and Capricorn with these degrees or water signs Cancer and Pisces who may receive a raise, a gift, or an unanticipated windfall. Uranus may affect those of you who have been in a slump, possibly over money matters, family discord, or career issues. Stop resisting change when your heart can more easily respond to the release from stifling restrictions. Use affirmations and positive self-talk while you embrace the benefits that lie ahead. Globally, the U.S. has aided less prosperous or downtrodden countries, yet certain U.S. citizens have been highly critical of our Leader's benevolent gestures by siding with unfriendly or unethical regimes in warring countries. **Neptune in Pisces** has been retrograde since June 30 EDT and turns stationary direct on December 6 EST. It most affects those born March 14-17 this month who will benefit greatly when the confusing Neptune patterns dissolve and clarify the truth you would like to have revealed. Once you embrace reality, you'll be glad you had time to dream and visualize a new outlook on life. Others most affected by this transit are Geminis, Virgos and Sagittarians born with the Sun at 24-25 degrees of their signs who are experiencing relationship confusion and life uncertainties. Assess key areas such as your household, workplace, health, or the quality of relationships and be honest about the conditions. Cancers, Scorpios, Tauruses and Capricorns born with planets around this degree benefit from the transit and continue to remove blocks in diverse departments of life. During the retrograde cycle, be alert to allergic reactions to medications, toxic environmental conditions, contaminated food, and poor air quality. As we approach Thanksgiving, the Sun and Mars provide abundant positive energy to manifest harmony, team rapport, and happy exchanges when the family gathers at the start of Thanksgiving week. Bond with friends and explore productive networks. Allow plenty of time to travel over the

holiday. Early Mars in Sagittarius squares Saturn in Pisces just ahead of Thanksgiving, so avoid arguments. Serve up hugs and kisses along with favorite pies to make the holiday a warm and loving event.

**Pluto in Capricorn** is direct at 27-28 degrees during this cycle and most affects those born January 17-19 while also affecting the other cardinal signs with placements at 27-28 degrees - Cancer, Aries, and Libra who experience challenging vibes that alert you to watch for privacy breaches, leaked secrets, lost papers, and confidential disclosures. Filter queries and avoid those who ask too many questions. Where do these degrees fall in your chart? Check it out to release blocks and solve annoying problems. Pluto owns the subconscious mind and knows where the skeletons are buried, including wounded relationships, tellers of tall tales, or those who assume a phony façade at the personal or global level. Headlines could be hurtful and loaded with revelations with several shock factors. Accusations fly, courts will be busy, and politics strained by those who want to block progress. You'll be asking questions, too. Figure out what you can successfully address. Watch what happens to the fate of leaders who don't value truth and resort to embellishing reality. Scorpio speaks to revelation and rebirth. Use holistic health practices to refresh your spirit and enjoy the freedom of changing your world! **Chiron the Wounded Healer is in Aries** in retrograde status at 16-17 degrees and affects individuals born April 7-9. Channel courage while you address fear. Sleep well to release energy that relieves you of old blocks and negative memories. Open your mind to greater love and joy. Cherish your powerful heart and embrace only what attracts love. Affirm your convictions daily so that dreams come true. Discover the depth of love that awaits you. Be good to your body. Exercise, stretch muscles, practice yoga, eat well, and visualize perfect health. Love is your soul's aphrodisiac.

### PEOPLE, PLACES AND TOPICS IN THE NEWS:

The month of October has seen high activity in Congress to select the next Speaker of the House, the agony of the Israel-Hamas war unfolding before our eyes, the promise of aid from the U.S. for both that conflict and continued support for Ukraine. This week we saw President Biden travel to Israel to show his support of solidarity with the atrocities that are affecting Israel and Jews around the world. Individuals on both sides of politics praised his sensitive handling of this facet of world conditions.

Many individuals of note passed away during the last few months: Dick Butkus, David McCallum, Bob Barker, Bill Richardson, Michael Gambon, Ralph Isley, Dianne Feinstein, Piper Laurie, Brooks Robinson, Tim Wakefield, Billy Miller, Hadyn Gwynne, The 45 King, Mauricio Molino, and Lara Parker.

**Suzanne Somers was a Libra born October 16, 1946, in San Bruno, California.**

Suzanne was a multi-talented actress, author, singer, and business entrepreneur in the health and wellness field. Well known for her roles on Three's Company as Chrissy

Snow, and Carol Foster Lambert on Step By Step, Suzanne was absolutely beautiful and powerfully embraced comedy and her commitment to battling causes for those people and conditions in need of a champion. She had legions of fans and became well-known and rich when she invented the Thigh Master as a wellness tool that was an important purchase for many who desired a solid fitness routine. At the time of her death, Suzanne was experiencing a Uranus in Taurus return on her solar 8<sup>th</sup> House cusp, that opposed Venus, sometimes an indicator of a transition. Her chart strongly depicted her warrior spirit with her Sun conjunct Chiron in Libra and a huge stellium in Scorpio - Jupiter and Mercury trine her Moon in Cancer, and Juno, Mars, Part of Fortune, and Venus in Scorpio. Most of her Scorpio placements received hard aspects from eclipses in the last year, and the May 5 eclipse in 2023 was directly on natal Mercury, Juno, and Mars showing that she would most likely resume aggressive medical treatment. She died peacefully one day before her 77<sup>th</sup> birthday on October 15 in Palm Springs, CA, after battling an aggressive form of breast cancer for more than 20 years. Suzanne's husband, Alan Hamel, presented her with a poetic tribute hours before her death. No doubt these two were soulmates. Rest in Peace, Suzanne.

**Dancing With The Stars:** This popular show returned to the ABC Network this season featuring hosts Alfonso Ribiero and Julianne Hough along with judges Derek Hough, Carrie Ann Inaba, and Bruno Tonioli. On October 24, the show will feature a tribute to the late judge, Len Goodman who passed away in 2022. Contestants will reflect on their most memorable year in choosing their dance.

## READERS CORNER

I received a tremendous response from readers who enjoyed hearing how use of astrology can help you prepare for the challenges of life. That is what prompted me to send out a copy of the article from the 2022 Moon Sign Book, "How Your Moon Helps You Cope With Challenging Times." The article has appeared multiple times in Llewellyn's Newsletters. I'm glad you enjoyed it. Thanks so much for your feedback. This month we'll look at dating habits that need a new perspective. As always, I appreciate your feedback.

**Q.** I am a Scorpio born on November 6. I am dating a man born on May 4. We get along well but I am having problems with how he waits until the last minute to ask me out. I don't see him every week. He calls on either a Thursday or a Friday night and wants to go out the next day giving me little notice to prepare, decide on clothing choices, figure out whether dinner is involved, and often who we'll see. We have dated almost a year but he has yet to give me more notice when he wants to take me out. I have turned down dates with others waiting for him to call me because I enjoy his company most. I have also said no to invitations from friends, relatives, and co-workers and lately have begun to resent the last minute invitations from my boyfriend. What do you suggest I do to get my boyfriend to be more considerate, so that I know how to dress, whether or not we are going to have a meal out, or have dinner on my own to avoid hunger tantrums? Thank you for your assistance.

**A.** The very first thing I noticed about your question was that your birthdays both fall close to the degrees of 2023 eclipses, one in Scorpio (May 5) and the other in Taurus later this week (October 28). Your Suns oppose one another and you have been dating during a period that eclipses were occurring in both Scorpio and Taurus adding

intensity to the issue because you are not on the same page. I had to cut some of the details you provided about your dating frustrations, and propose that the next time you see him, you ask when he plans to see you again because you need at least a week's notice to confirm a date. That you suspect he is seeing others besides you is probably accurate and that is fine since you don't have a firm commitment, he told you that he has no problem with you dating others, but it is not agreeable that he is rude to you. You have further indicated that he has not let you know in advance about party details or about whether you would have dinner before or after an event, sent you to the snack bar during a sports event when you were extremely hungry, and did not bother to tell you that dinner was not part of the date on that occasion. What makes you want to date him other than physical attraction? If he calls again on short notice, tell him you already have plans and give him a proposed date when you will be available to go out. If this happens a few times, you may either notice a change in his behavior or he stops dating you. Cut your losses. I think you may meet someone new in the next six months. Schedule a consultation if a serious prospect enters your life.

Thank you to all who sent in comments on Libra's newsletter.
