all year in this reflective space and gives you much to think about related to networks and associates. You may break out of a rut and declare the end of a business arrangement that no longer meets your needs. Take the time to heal from any illness or surgery you recently experienced. Emerging personal or professional goals pique your interest and you could encounter a new boss. **Saturn, the great ringed planet now in Pisces goes retrograde on June 29 and moves direct on November 15 affecting plans in both your** personal and professional life while bringing decisions to the surface and setting deadlines for making changes. When Saturn goes direct again, you will feel a lighter spirit especially if the degrees favor your Aries birthdate. Pursue self-development options and enjoy courses related to professional interests.** This passage of Uranus gives you time to explore leisure activities and relax to avoid burnout. While other planets like Saturn and Neptune in Pisces occupy your 12th house, you may experience confusion over conditions in the job market or work assignments. This type of situation makes the most laid-back Aries restless and likely to seek a change of employment. This year, Uranus started out in retrograde motion, went direct on January 27, and keeps up a fast but erratic pace until September 1, when it turns retrograde and moves direct again on January 30, 2025. Stretch your belt buckle, look for shopping bargains, and give away goods that are no longer useful to your present circumstances. Build your qualifications for career growth. Stay alert to signs of upheaval, layoff of staff, and pay cuts especially if you have planets in your second house of income. What has the planet of unexpected shake-ups done that has affected your career? Is your workplace stable now or undergoing a shift in work priorities? Monitor this house and its effect on earning potential, spending, and savings. Work with your astrologer to find out how to embrace unexpected movement. Eliminate work that no longer suits your purpose. Watch early September through January 30 for the biggest clues when Uranus is in retrograde motion. Keep your eyes on delays in accomplishing work or personal goals. Finances can be erratic this year. Mars moves to Pisces on March 23 and settles in your solar twelfth house of healing - take the time to rejuvenate your mind and body. **Transiting Neptune in Pisces** resides in its natural home in your solar 12<sup>th</sup> House of retreat, seclusion, secrets, meditation, widows, orphans, inner healing, time alone, hospital visiting, mystical vibes, serious planning, and charity work. From now through the end of the 2024 Aries cycle, **Neptune connects most with those of you born April 14-19** while it puts you in touch with hidden feelings and nagging fears, awakens your higher mind, and stimulates interests like ESP, intuitive awareness, mediumship, and psychic insight that span the metaphysical realm. Sign up for related classes if your interest piques. Show emotional sensitivity to individuals who have experienced personal, health, and job loss. Develop a solid health routine including fitness practices, retreats, scheduling appointments with medical practitioners, and staying aware of physical ailments. Offer calming solutions to those in need and suggest specialists to assist in solving pressing problems. Invite Neptune to collaborate with your subconscious while you address angst on the mental and physical plane and in some cases, recovery from lingering illness or surgery. Neptune may stir up private relationship matters that you buried long ago. Acknowledge them and process confused feelings while Chiron is in Aries this year. Enjoy your awakened sense of intuition and amazing clarity. Saturn in Pisces occupies your solar 12<sup>th</sup> house all year. If you

have natal or transiting planets in the 12<sup>th</sup> house, move through the Neptune haze with the help of meditation, music, yoga, and exercise. Neptune will be retrograde in your solar 12<sup>th</sup> house from July 2- December 7. **Pluto in Capricorn left this resilient earth sign on January 20 and now occupies Aquarius in your solar 11<sup>th</sup> House of associations, friends, groups, goals, humanitarian interests, memberships, and the flowing realm of mutual interests collaboration in leadership and organizations.** Pluto briefly touches 2 degrees of early Aquarius this year and relates mostly to Aries born March 19-22. For Aries born April 19-20, you will briefly usher out the remaining degrees of Pluto in Capricorn that have been in your career and authority house since 2008. Now is your chance to cleanse away any angst that has been eating away at your psyche. While Pluto goes retrograde on May 2 in Aquarius, it will backslide into Capricorn on September 1 and will move direct in this sign on October 11 finishing out the last degrees of Capricorn before resuming its early degrees in Aquarius on November 20. Enjoy the insight that drives your goals related to friends, groups, politics, and world healing. New responsibility drives emerging undertakings with this shift. The 11<sup>th</sup> house is going to be an important one for many years to come with humanitarian goals influencing your group undertakings. If born on the cited dates, you will most enjoy unloading old baggage and embracing the urge to be a pioneer thanks to this new help from Pluto in Aquarius. Enjoy more of life's offerings instead of creating conflict. Carefully deliver your message when communicating your innovative ideas. A smooth transition allows you to make peace with Pluto and embrace new goals. Welcome the freedom you deserve by stepping into the spotlight. Leadership works for you. Embrace the new responsibility that rewards your good work, and helps you find your true purpose.

As we embrace your solar year, your Aries Sun is still under the influence of two of 2023's eclipses, one in Libra on October 14, a solar eclipse, and the other, a final lunar eclipse of 2023 in Taurus. A new cycle of eclipses starts during the first month of your birthday cycle. The 2024 eclipses, two lunar (Full Moon) and two solar (New Moon) are ready to manifest up to two months ahead of their actual appearance, so you may already have an inkling of their presence. Your solar 7<sup>th</sup> house of relationships gets a work out with two eclipses occurring there; your solar first house in April's solar eclipse in Aries that puts you in high focus. Many of you have undergone shifts in personal and business matters, family conditions, and now internal and psychological healing join the lineup of topics for 2024.

Eclipse activity makes a strong statement in your life this year with 4 eclipses affecting your chart during this cycle. **The first lunar eclipse of the year occurs on March 25 in Libra at 5° ♎ 07' and falls in your solar 7<sup>th</sup> House of personal and business partners, spouses, your significant other, roommates, collaborators, consultants, doctors, lawyers, therapists, advisors, known enemies, and the public.** An eclipse can shake up your partnership world and reveal conditions you had no idea existed. The eclipse is strongest if born March 24-26. The impact could also bring surprises that create a win that you may not have expected. The best thing you can do is address any communication shortfalls, strengthen bonds, and seek peaceful solutions to any rifts that exist. Enjoy new opportunities for you or your partner that come your way. **On April 8, the first solar eclipse of 2024 occurs on April 20 in Aries at 19° ♈ 24' in this sector and drives your personal goals. Now you're ready to pursue activity in your solar first house of physical appearance, attitude, assertiveness, imagination, individuality, and passion.** Keep promises you made to take better care of your health, develop goals to improve nutrition, accommodate fitness routines, refine grooming via a hairstyle or wardrobe makeover. Enjoy life, and hire a consultant if you need help with challenging life circumstances. This eclipse is strongest for you if born April 8-11.

The last full moon **lunar eclipse of 2024** takes place at **25° Pisces 41'** on **September 17**, in your solar **12<sup>th</sup> house of intuitive ability, healing, metaphysical interests, mediumship, privacy, retreats, and secrets**. This eclipse requires discipline, especially when you feel anger rising. Be careful not to argue relentlessly with contacts, make unfounded accusations, or to ramble on over minutia until you sound paranoid. Analyze messages carefully and ask questions first. Manage assets, set a budget, and clarify responsibilities for self and others, especially if unexpected developments loom.

The final solar eclipse of 2024 occurs in **Libra on October 2<sup>nd</sup> at 10° ♎ 04'** in your solar **7<sup>th</sup> House of House of personal and business partners, spouses, your significant other, roommates, collaborators, consultants, doctors, lawyers, therapists, advisors, known enemies, and the public**. This house is a focal point of agreements with close relationships that include family and professional/business activity. Prepare for changes related to your feelings regarding these key individuals. If you have been on the fence about discussing these concerns with key partners, now is the time to sit down and reveal your fears. Offer options when you identify problem areas, seek counsel, agree to a mediator, or offer a reasonable date to talk about status or progress. Celebrate each relationship success. **Remember if an eclipse falls on your birthday or on a natal planet, it takes on higher importance. Never fear eclipses - think of them as opportunities for growth that allow you to release stuck patterns.** The material in this section may also apply to those with Aries Ascendants. Enjoy!

Then Venus moves to Aries and stirs up romance for single Aries or enlivens the passions for already committed Aries Suns.** Creativity and camaraderie take center stage from the 6<sup>th</sup> to 9<sup>th</sup> of

April adding an enjoyable note to **undertakings**. Visit favorite restaurants and share a delightful meal with a special someone. Check operating hours for businesses and eateries. Many businesses have adjusted hours of operation or products offered. Socialize, have fun, and enjoy spontaneity. Plan creative new initiatives to minimize stress and put your final touch on upcoming deadlines. Visit a park or museum to enjoy quality time on the first weekend of April. Don't take your problems with you if you travel to welcoming destinations. Be gracious to hosts or hotel personnel. Brainstorm on March 26 and April 2. A Wednesday date with a friend or romantic interest gives you a break from pressing assignments. Remember that plans may be altered with the intense Mercury retrograde energy. **Jupiter is direct in Taurus during this Aries cycle and moves quickly forming a conjunction with Uranus on the 20<sup>th</sup> an event that occurs only once every 12 years in Taurus**. Note the changes that are likely to flare up now and could affect major direction for those of you born April 16-20, July 7-12, September 9-13, November 7-12, January 6-11, and February 6-11. A good deal of the change is spontaneous and delightful; for others it could deliver a jolt out of the blue. Pace yourself to avoid making hasty decisions. Be open to the new and stimulating and center yourself peacefully. Check your charts for wherever you find 16-20 degrees of Taurus. Build personal income to increase prosperity. **The first Solar Eclipse of 2024 occurs on April 8 in Aries at 19° ♈ 24'** Focus on what you would like to heal during this optimistic time that allows you to revel in freeing thoughts and pain-free encounters with individuals who have been problematic in the past. This period is perfect for healing estrangements. **Saturn is in Pisces and this month and occupies 12-15 degrees of the sign; most affecting Pisces born March 2-7**. Saturn has another 1-1/2 years to finish its current cycle. The taskmaster planet shows its spiritual, creative side adding a dimension of psychic flair and a complex model for leadership that follows the inner voice creatively. Pisces displays its presence on the world stage as a cultivator of reliable intuition. Give your professional life a new spark by using your time to educate your core group and share your plans and ideas with valued members. **Those most favorably affected during the next month by Saturn's transit are Taurus born May 1-7, Cancers born July 3-7, Scorpios born November 3-8, and Capricorns born January 2-7. You may wrestle with a few challenges if born June 1-7, September 4-9, or Sagittarius born December 3-8**. Responsibilities escalate for many born on these dates. By integrating innovative ideas into practical thinking, you are able to eliminate fears and build on their strengths in the coming year. While in Pisces, Saturn reflects compatibility with Venus and Uranus throughout this cycle. Be compassionate to better understand the human spirit. **Uranus in Taurus** is moving through its sixth year of a 7-year journey in this sign covering 20-21 degrees in this cycle. **Currently those born May 10-13 with these Taurus degrees will be most affected. Also having strong, favorable aspects are Cancers born July 11-14, Virgos born September 12-15, Capricorns born January 10-13 and Pisces born March 11-13. Other fixed signs - Leos born August 12-15, Scorpios born November 11-14, and Aquarius born February 9-22 deal with challenges, mixed messages, or erratic communication**. Look at house cusps or planets where you have 20-21 degrees of these signs and be sure to examine current conditions. Surprises or unexpected events occur depending on the houses where these numbers appear in your chart. Make security and safety a priority and avoid taking unnecessary risks. Protect your health, especially skin now, and watch out for dizziness. **Neptune in Pisces coasts along at 27-28 degrees over the next month and most affects those born March 17-20. Others affected harmoniously include Cancers and Scorpios born with planets at these degrees. Challenged signs in this cycle are Geminis born June 17-20, Virgos born September 19-22 and Sagittarius born December 18-21**. Neptune makes a

beautiful connection to transiting Pluto in Capricorn later this year when it returns from a visit in early Aquarius. That time period is September 3-November 19 when you are finally able to feel a sense of peace and harmony that energizes support for charities and uplifting humanitarian projects and associated successful endeavors. Neptune makes excellent aspects to the Cancer moon on April 15. Community relationships and those with siblings improve with open conversations and efforts to maintain a high degree of understanding. Wherever transiting Neptune appears in your chart, the house calls attention to areas of confusion, spiritual insight, psychic impressions and matters involving liquids -- what you drink, where you swim -- or where you have leaks or toxins. Examine whatever appears shaky around your physical or emotional foundation. Modify overgrown shrubs, cluttered entries, and disorganized closets to clear your space. Meditate using your favorite healing modalities for greater peace of mind and body. **Pluto travels in Aquarius at 1-2 degrees from March 21 through the end of April.** Currently Taurus, Leo, Scorpio and Aquarius feel a jolt from this transformer planet when born with their sign at 1-2 degrees. Because this planet is still an infant, only those born in early degrees will feel much intensity. Decide what resources you need to take action to obtain a fresh perspective. Globally, we're still dealing with concerns over the economy, fuel costs, travel, work, war in the Middle East and world-wide closures that affect business and personal life, education, families, politics, and health. Medical research is soaring to great heights matching critical demand and some patients are saving money on prescriptions. Ask your doctor about new pricing. Businesses explore the quickest way to replenish supplies with vendors. **Individuals born April 7-10 have Chiron in Aries in direct motion on their suns this month at 18-19 degrees.** Find a way to show compassion to others and release emotional blockages. Give the needy a boost in morale by sharing a simple act of kindness along with healing energy. Dig deep to reach buried feelings and nurture those painful personal wounds that help you let go of hurtful pain. The Wounded Healer nurtures your aching heart. If life seems overwhelming, it probably is, so energize it via meditation, journey, and crying to purge the pain and release buried fear. As a Cardinal sign your Sun degree falls in these critical degrees in April. Schedule a consultation to see what's affecting your life now and take steps to become whole again. Signs high on the radar screen this month are Pisces, Aries, Taurus, Leo, Libra, and Scorpio. Leave toxic feelings behind. Open the pathway to contentment with inner joy. Have fun!

## READERS CORNER

I received numerous messages from readers responding to last month's question related to the writer's discovery that the mother of her significant other was a very warm and gracious person who had been ill for a few years. She had been discouraged from having a relationship with the woman until an event threw them together and she found her friend's mother to be much different than she had anticipated. Many readers expressed support for the woman who had a very painful health condition for several years that had been corrected by surgery and now she felt like a new woman. They hoped the writer had a long talk with her partner and helped him to better understand the severity of his Mother's health. Today's concern involves a topic that goes well with spring - romance. Planets that connect with your chart's planets, transits, and eclipses can be game changers when romance comes into your life. I hope you enjoy the insight.

**Q.** I am an Aries and was born April 19. I had been very disappointed in personal relationships for a couple of years. When I accepted an invitation to a dinner-dance sponsored by a fundraising organization I support, I expected nothing that related to meeting a potential partner. Men had come into and out of my life but no one felt right for me. I had this deep inner feeling that I should go to the event and I did. Seated across the dinner table from me was a man I did not know yet I felt immediately attracted to him. We talked and danced all night and agreed to meet on the following weekend. He said he felt drawn to me immediately. That was in April 2023. Now, a year later, we became engaged on Valentine's Day and are planning to marry in late 2025. What was going on in my chart at that time that would bring us so close together so quickly? Is there anything in my partner's chart that occurred as well? Our relationship took hold so beautifully. Thank you for your assistance.

**A.** Lucky you to be born with your Sun in Aries conjunct Venus. Last year these two compatible planets had a visit from the April 20 Solar Eclipse in Aries. Your Aquarius partner born February 17 has Venus in Aries that falls on your Sun-Venus connection which is a very

strong tie. Both of you felt that you had experienced love at first sight on the night you met. That Aries eclipse sealed the deal! You have a late Moon in Aquarius that falls on your fiancé's Sun and have Mercury in Aries in harmonious aspect to his Mercury in Aquarius. You two love to chat and don't seem to run out of topics to discuss. Your Mars in Gemini is highly compatible with your partner's Sun, another verifying aspect of your charts' harmony and the type of man you enjoy. Each of you met at a time when you simultaneously experienced important activity critical for finding a mate. You will receive an additional boost when the April 8 Solar Eclipse in Aries strengthens your connection as you work on your 2025 wedding plans. I wish you success and happiness in your partnership journey. Thank you for writing.

**OFFICE HOURS:** Please note the schedule. All office hours are Monday through Friday 12-6 PM EDT. Saturday hours are 12-4 PM. **NOTE:** No office hours March 28-April 1.

Thank you to all who sent in questions and comments about last month's newsletter. I'm glad you enjoyed the Pisces issue and welcome your thoughts once again.
